ANNUAL REPORT
OF THE
LOCAL GOVERNMENT BOARD FOR IRELAND.
(1899-1900),

BEING THE
TWENTY-EIGHTH REPORT UNDER "THE LOCAL GOVERNMENT
BOARD (IRELAND) ACT," 35 & 36 VIC., CHAP. 69.

TO HIS EXCELLENCY GEORGE HENRY,
EARL CADOGAN, K.G.,
Lord Lieutenant-General and General Governor of Ireland.

*Local Government Board,
Dublin, 16th April, 1901.*

MAY IT PLEASE YOUR EXCELLENCY,

WE, the Local Government Board for Ireland, submit to your Excellency this our twenty-eighth annual Report under the Statute 35 & 36 Vic., chap. 69, entitled "The Local Government Board (Ireland) Act, 1872."

I. THE LOCAL GOVERNMENT (IRELAND) ACT, 1898.

1. *First Meetings of County and Rural District Councils.*

In our last Report we summarized the preliminary steps taken by us in connection with Registration, Elections, and Delimitation of Areas prior to the 1st April, 1899, and we have now to refer briefly to the proceedings of the newly-elected bodies during their first year of existence, and to the principal matters dealt with by this Department during that period.

As indicated in our last Report, the first elections of County and Rural District Councillors and Guardians were very successfully conducted, and although over 4,000 of these elections took place in one day, the 6th April, 1899, there was no hitch of any kind.

The first meetings of Rural District Councils were directed by the Local Government (Transitory Provisions) (No. 2) Order in Council to be held on the fifth day, and of County Councils on

the twelfth day after the elections, but owing to the occurrence of the Easter holidays, it was found impracticable to hold the meetings on these days, and accordingly we issued Orders* directing that the first meetings of Rural District Councils should take place on 15th April, and of County Councils on the 22nd April, 1899. With a view to assisting the new Councils to deal with the various important matters demanding their attention, we prepared circulars of instructions, which are printed in the Appendix†, setting forth, as concisely as possible, in their proper order, the different subjects which would, in all probability, have to be dealt with at these meetings. These instructions were merely intended to afford some guidance to the newly-elected bodies as to the order in which, after complying with the requirements of Articles 10 and 9, respectively, of the Local Government (Transitory Provisions) (No. 2) Order in Council, they might find it convenient to take up the numerous matters calling for their consideration. We believe that our action secured, to some extent, uniformity in the way in which the first meetings of the Councils were conducted, and that, having regard to the fact that the Councils had to deal with matters quite new to the great majority of their members, the suggestions contained in the circulars were found of considerable use. The Councils generally dealt in a proper and business-like manner with the questions coming before them, and the new system of County Government in Ireland was inaugurated very successfully.

2. Procedure and Accounts.

During the months preceding the commencement of the Act, our Adjustment Department was engaged in framing Orders prescribing the manner in which the accounts of the new County and District Councils were to be kept,‡ and these Orders were duly framed and issued before the first meetings of the Councils were held. These bodies were thus enabled to form an estimate of the staff necessary to carry on the business of the respective Counties, and were in a position to place their orders for the requisite forms and books.

A good deal has been said and written about the complicated character of the forms of the accounts devised for the use of the Councils. It is to be noted, however, that the provisions of the Local Government Act and Orders were framed so as to secure that the Agricultural Grant should go in relief of agricultural land only, that "excluded charges" should be so levied and the accounts so kept that no area should bear any charge which it is not legally bound to bear, and that money collected from a particular area for a particular purpose should not be expended on any other purpose; in addition, the Counties are required to finance the Rural Districts and Unions, and in their turn receive contributions from Urban Districts. These provisions, as well as the somewhat strict terms of the procedure laid down in the

* See page 7.

† See pages 319-327.

‡ See pages 11 to 72 and 88-189.

Procedure of Councils Order, necessarily caused any forms of accounts prepared to ensure compliance with the requirements of the Act and Orders in Council to be somewhat difficult and involved.

In addition to the matters referred to above, it was not anticipated when the Accounts Orders were framed, that any of the County Councils would wish to adopt the system in force under the Grand Juries, by which a cess collector was bound by the terms of his bond to lodge the full amount of his warrant whether he had collected the rates or not. Consequently, a large number of forms were framed, having for their object a proper system of check on the collectors' receipts and lodgments, with a view to carrying out the practice in vogue in Poor Law Unions prior to the passing of the Local Government (Ireland) Act, in accordance with which the Collectors only lodged the sums actually collected by them. When the County Councils, however, came to deal with the terms of the appointment of their Collectors, a considerable number of them made special application to us for permission to use a form of Bond by which the Collectors were bound to lodge the entire amount of their warrants whether actually collected or not, in accordance with the old Grand Jury system, and as we fully appreciated the advantages of this plan, we issued an Order under Seal, giving the necessary authority.* In every County in which this alternative form of Bond is in use a number of the forms prescribed have been rendered unnecessary, and the accounts, in consequence, have been considerably lightened.

The form of rate book prescribed has been held in some quarters to be too elaborate; but this form was only finally adopted after we had received the best legal opinions to the effect that no abbreviated form would meet the requirements of the Statute in every case. We have since issued, as an alternative, a simpler form; but this, however, cannot be adopted in some Counties, owing to the existence of a large number of excluded charges under various Acts requiring to be raised over small areas as separate items of the poor rate. In this connection, we may refer to the fact that in view of the general principles of the Act with regard to uniformity of rating as well as the enormous difficulties which would arise if the innumerable small areas of charge in Rural Districts for special sanitary expenses which were in existence when the Act came into force were allowed to continue, we took steps towards consolidating the areas of charge for these expenses, by the issue of an Order on the 15th May, 1899, to the provisions of which particular reference is made in the part of this Report dealing with our proceedings under the Public Health (Ireland) Acts.†

Before passing from this subject, we may point out that the forms of accounts devised were necessarily experimental—the financial system to which they were to apply being entirely new

* See page 201.

† See page lix.

—and while we do not claim for them that they were in every particular perfect, we do claim that, on the whole, they enabled the County Councils to keep their books in such a manner as to comply with the law, and that the faults and imperfections which subsequent experience has shown to exist in the accounts, are generally in matters of comparatively small importance. In every case where it has been proved that a departure from the regulations would, without infringing the law, be advantageous, having regard to the circumstances of a particular County, we have assented to such departure, and when the system has been for a short time longer in operation, and has been more thoroughly tested, we hope to be able to abbreviate and improve the forms of account in an Amending Order.

3. Financial.

One of the chief difficulties which the new County Councils had to face was the striking and levying of a rate to meet their requirements for the first half-year after they came into office. The Agricultural Grant which had accumulated during the six months prior to 1st April, 1899, was paid over to the new Councils, and enabled them to finance the Guardians and Rural District Councils to a certain extent; but this Grant was, of course, wholly inadequate to meet the expenditure for any considerable portion of the half-year. Power was given by the Local Government (Transitory Provisions) (No. 2) Order in Council to County and District Councils and to Boards of Guardians to borrow, with our approval, to meet their expenditure pending the striking and collection of the new rates. This power was largely used owing to the necessarily late period at which it was possible to strike and put in collection the first rates under the Act, and without such a power the business of the country could not possibly have been carried on. The power given by the Order in Council, although of a transitory nature, has had, we believe, far-reaching effects on the future financial position of local authorities. Prior to the passing of the Local Government Act interest on overdrafts from Treasurers could not legally be charged on the rates, and consequently although such advances were constantly obtained, the only way in which Banks could recoup themselves for money so lent was by setting off interest which by arrangement with local bodies they allowed on credit balances against interest due to the Banks in respect of debit balances. Inasmuch as the former class of balances were, as a rule, neither numerous nor large, the Treasurers generally suffered loss over the advances. As soon, however, as the various Banks found that interest could legally be paid to them in respect of overdrafts approved by us during the transitory period, they refused such advances unless previously approved by us, and, as the power of sanction was necessarily limited, the Councils found themselves in a position of temporary financial embarrassment. We think, however, that the shrinkage of credit, so far as Banks acting as Treasurers are concerned, has been really beneficial and

has led the rating bodies to see that the only possible way to carry on their business is to strike rates fully adequate to meet all possible requirements. In many Counties substantial credit balances are now kept at their Bankers, although, no doubt, there are cases in which up to the present the Councils have not taken the wise and economical step of accumulating a reserve fund of this kind.

The first rate was, as already pointed out, struck in the majority of Counties at a very late period of the financial half-year, and practically very little rate was collected in the period ended 30th September, 1899. Consequently, the rate for the second half of the year was not ready until a correspondingly late period; but by the 31st March, 1900, the collection on the whole was satisfactory.

4. Rates levied under the New Regime.

We may here note that complaints were made from various quarters that the rates levied under the new regime were heavier in many cases than under the old system notwithstanding the relief afforded by the Agricultural Grant. It must be borne in mind, however, that the expenditure to be provided for by County Councils during their first year of office included not only very large sums spent in connection with elections and in paying gratuities to retired officers, but that in many Counties an arrear of about four months in the payments due to road contractors had to be met in order to bring all these payments into line to 31st March, 1900. For this reason in some Counties very heavy rates had to be levied; but that these were abnormal is shown by the fact (to which we think it right to refer, although dealing with a period outside the scope of this Report) that in the first half of the second financial year the total amount of rates levied by County Councils (excluding County Boroughs) in Ireland was less than that levied in the period ended 30th September, 1899, by more than £100,000.

5. Collectors.

The qualifications, districts, remuneration, and duties of the Collectors appointed by the County Councils formed the subject of a General Order, which will be found printed in the Appendix.* An Order on similar lines, dealing with Poor Rate Collectors in Urban Districts, was also prepared and issued.†

6. Main Roads.

Amongst other important questions which engaged the attention of the new County Councils at an early date after their election was that of the declaration of the roads in each County which should be main roads, under the provisions of Section 8 of the Act. On the 1st May, 1899, we issued a General Order‡ prescribing, under Sub-section (5) of that section, the manner in which provisional and final declarations of main roads should be com-

* See page 74.

† See page 203.

‡ See page 194.

municated by a County Council to each District Council in the County, and during the year ended 31st March, 1900, all the Counties, with the exception of Dublin, made declarations regarding main roads; but in a few cases the proceedings were irregular, and had to be commenced *de novo*. During the year we received eleven appeals against the declarations made by County Councils; of these five were disposed of.

The declarations adopted by the County Councils were broadly divided into two classes: (1) Declarations under which a certain proportion of the trunk roads in the County were declared main roads, and (2) Declarations under which *all* County roads were made district roads. It would appear from the terms of Section 8 of the Act that the intention of the Legislature was that there should be a certain proportion of roads forming the main arteries in the County, the cost of maintaining which should be partly charged to the County-at-large; but there is nothing in the Section to prevent a County Council declaring that no roads shall be main roads. Indeed, as involving greater simplicity in the keeping of the accounts without inflicting undue hardship on any of the districts, there is very much to be said, from the financial point of view, in favour of the "no main road" schemes, and although, in one or two cases in which appeals against this form of declaration have been made to us, we have found it necessary, in view of the peculiar circumstances of the Counties concerned, to sustain the appeals and modify the declarations, in others we have upheld such declarations.

7. County Infirmaries and Fever Hospitals.

Section 15 of the Act provided that every County Infirmary (except the Waterford City and County Infirmary) to which a County Council annually contributes a sum not less than was contributed out of the County Cess in the standard financial year as defined by the Act, or any less minimum which we may sanction, should be managed by a Joint Committee appointed triennially, consisting of such number of members of the Corporation of the "Governor or Governesses of the Infirmary," appointed by the Corporation (or a Governing Body other than such Corporation), and of such number of members of the County Council or other persons appointed by the Council, as we should fix from time to time in the case of each Infirmary, having regard as well to the proportion of the contribution out of the County Cess or the Poor Rate towards the building and maintenance of the Infirmary as to all the other circumstances of the case. Similar provisions were enacted in the case of every Fever Hospital vested in the Corporation of the "presidents and assistants of the hospital," or governing body other than such Corporation. Power was also given to us by this Section in cases where the boundary of a County, for which an Infirmary or Hospital has been provided, is altered in pursuance of the Act, or where part of such County is made a County Borough, to adjust the contribution to such

Infirmary or Hospital and to provide for the representation of the Council on any contributory County upon the Joint Committee of Management.

The Secretary of each Grand Jury, and also the Governing Body of each County Infirmary and Fever Hospital, which received contributions from a Grand Jury in the standard financial year, having supplied us with the necessary particulars, we made Orders* on the 6th of July and 6th of November, 1899, respectively, fixing the number of members of the Joint Committees of Management of thirty Infirmaries and fourteen Fever Hospitals. We also made an Order† on the 5th February, 1900, adjusting the annual contribution of the Councils of the County and of the County Borough of Londonderry, respectively, towards the Londonderry County Infirmary, and also fixing the numbers of the Joint Committee of Management of the Infirmary.

8. Expenditure on Roads in Rural Districts.

It is provided by Section 27 (2) of the Act that a County Council shall not without our consent approve of any expenditure on roads proposed by the Council of any Rural District which will cause the expenditure on the roads of the District to exceed by one-fourth the amount certified by us to have been the average expenditure thereon during the three years next before the passing of the Act. We accordingly obtained from the County Officers the fullest information available as to the expenditure on roads in the various Rural Districts, and, having determined as accurately as possible the figures relating to each District, we issued our Certificate on the 6th July, 1899, a copy of which will be found at page 233 of the Appendix to this Report.

9. Qualifications of Secretaries of County Councils and of Assistant County Surveyors.

Under the powers conferred on us by Section 83 (4) of the Act we have made an Order prescribing the qualifications of Secretaries of County Councils in Ireland. A copy of this Order is printed at page 247 of the Appendix.

Sub-section (9) of Section 83 provides that Your Excellency may, if you think fit, direct Assistant Surveyors to be examined and their qualifications certified by the Civil Service Commissioners. After some correspondence with the latter body it was ultimately decided that it was not expedient that the Commissioners should undertake this duty, and by Your Excellency's desire we made arrangements to conduct these examinations, and we issued an Order‡ under Seal prescribing the qualifications of candidates for these posts.

* See pages 227 and 285.

† See page 296.

‡ See page 277.

10. New Urban Districts.

Under Section 42 of the Act Orders were made constituting twenty new Urban Districts.* Sixteen of these Orders, which were not petitioned against, became absolute by lapse of time, and, of the remaining four Orders against which petitions were lodged, two were withdrawn at the request of the promoters, and two were subsequently submitted to Parliament and confirmed.

11. Abolition of Office of Collector-General of Rates in Dublin.

In pursuance of Section 66 of the Act regulations were issued for the proper carrying into effect of the provisions of that section, and in respect of certain matters and things requisite to be done in connection with the abolition of the office of the Collector-General of Rates in Dublin and of his officers.†

12. Schemes for Collection of Poor Rate under Section 115 (10, &c.) of the Act.

The several County Councils duly submitted to us schemes for the collection of the Poor Rate as required by Section 115, Sub-section (10), of the Act, and such schemes were in every case finally approved, subject to such modification as might afterwards be found necessary, in order to comply with Sub-section (11) of Section 115, which enacts that "the scheme shall provide for the existing officers employed under the scheme receiving remuneration substantially identical with that with which they formerly received." Several of the "existing" officers who were thus continued in employment represented that their duties were considerably increased owing to the changes made by the Act in the incidence of the Poor Rate and in the mode of collecting it, and they requested us to determine what increased remuneration should be allowed to them in respect of the alleged increase in their duties. We, however, felt considerable doubt as to whether the provisions of Sub-section (18) were intended to apply to Poor Rate Collectors, seeing that their remuneration for collecting the new Poor Rate under the Act was dealt with by a special clause, viz., Sub-section (11). We, therefore, obtained legal advice on the point, with the result that we were advised that the provisions of Sub-section (18) do not extend to Poor Rate Collectors, having regard to the express provision contained in Sub-section (11).

* See page 315.

See page 302.

Under these circumstances, and in the absence of any judicial decision to the contrary, we were precluded from entertaining the applications for increased remuneration made by "existing" Poor Rate Collectors who were continued in employment under the schemes adopted by County Councils.

The prohibition contained in Sub-section (10) of this Section against the employment of officers not transferred to, or previously employed by, the County Council if sufficient "existing" officers had expressed their willingness to serve was, with a few doubtful exceptions, obeyed in the preparation of the schemes submitted by the several County Councils. On the other hand, though a majority of the "existing" officers expressed their willingness to serve under the County Councils, and were, as far as possible, employed as Collectors under the new schemes, a considerable number of them did not signify their willingness to serve, electing to retire and receive the compensation for loss of office provided for by Sub-section (12). Under that sub-section gratuities amounting in the aggregate to upwards of £200,000 were awarded to "existing" officers who were not continued in employment, and one-half of that amount, or upwards of £100,000, was recouped to the County Councils under the provisions in that behalf contained in Sub-section (13). In some instances, the amount of compensation proposed to be allowed by the County Council was not accepted by the claimants, and appeals were made to the Treasury to determine the amount to be awarded.

13. Additional Remuneration of Existing Officers.

Under Sub-section (18) of Section 115, we were called upon to determine the increase or diminution of remuneration payable to every existing officer transferred under the Section, in proportion to the increase or diminution of his duties. A County or District Council might, however, subject to our approval, make a special agreement with any of its existing officers respecting the terms and conditions on which he continued to hold his office and the remuneration which he should receive therefor.

In August, 1899, observing that few of the County or Rural District Councils had approached the question of the salaries of their existing officers, we sent to each County and Rural District Council a circular letter* drawing the attention of the Councils to the terms of Sub-section (18), and giving notice that, where a Council failed within three months to come to an agreement, we should feel it incumbent upon us to determine the additional remuneration, and the circular letter at the same time invited the observations of the Councils on the matter to be sent in within the time above specified, i.e. before December, 1899.

* See page 835.

In very few cases were observations received by us from the County Councils between the despatch of the circular letter (29th August, 1899), and December, even though the officials whose salaries were fixed by the County Councils gave formal notice to their several Councils that they intended to apply to us to determine the question.

With regard to the salaries of the Clerks of Unions, who, by the operation of the Act, were made the Clerks of Rural District Councils, in many instances the matter was left by the Councils in our hands to decide, and in such cases, as well as in others in which the Councils offered salaries which the Clerks did not consider adequate, we fixed the salaries. In some instances we increased the amount, and in others confirmed the proposals of the Rural District Councils.

In estimating the amount of the extra work imposed on existing officers transferred to the County Councils, it was necessary for us to examine each separate office and ascertain the nature and extent of the duties connected with it. In the case of the County Secretaries it is only necessary to have some knowledge of the complicated provisions of the Local Government Act and the Orders in Council made thereunder to understand the amount, variety, and intricacy of the new duties devolving on these officers, and mention need only be made of three branches of the increased duties to illustrate the additional work, viz :—

- (a.) Work involved by increased number of meetings of County Councils ;
- (b.) Increase of correspondence ;
- (c.) Increase of work in connection with finance ; and
- (d.) Collection of Poor Rate.

In a number of Counties the County Councils, with our approval, made special agreements with their Secretaries as to the additional remuneration to be allowed to them ; but a few County Councils, basing their decision upon the grounds either that the Secretary had a good staff or was not a satisfactory officer, even while admitting the increase of work, refused to increase, or even reduced the salaries and emoluments of the Secretaries. We proceeded in such cases to determine the increase of remuneration to which these officers were entitled under the provisions of the Act.

As regards the County Surveyors, in several Counties substantial increases were given by the County Councils to the Surveyors ; but in others the Councils, notwithstanding the increase of work, declined to grant their County Surveyors any additional remuneration whatever. In the case of these officers we

considered, in view of the similarity of the new or additional duties of all the County Surveyors, that we should be assisted in determining the increase of remuneration to which any particular officer was entitled under the Act, in those Counties in which the Councils had not come to a special agreement with their Surveyors, by framing a scale of remuneration which would be generally applicable, subject to any modifications necessary in particular Counties. The increases determined by the help of the scale so framed corresponded very closely with the additional remuneration fixed by those Councils who had arrived at an understanding with their Surveyors on the subject, where the size and other circumstances of the Counties were similar.

In some counties the Councils and their officers made special representations to us, and these are still the subject of correspondence.

The salaries of the Assistant Surveyors in the past were, as a rule, the same (*viz.*, £80 a year) in every county, and the additional duties to be performed by these officers are similar throughout the country. We were, therefore, of opinion that, in this case also, a graduated scale of remuneration according to the size of the Assistant's district,* would be useful in determining in each case the increase of remuneration to which these officers were entitled. Very few County Councils had come to an agreement with the Assistant Surveyors as regards their additional remuneration under the Act, and upon the issue of our scale in February, 1900, ten months after the day appointed for the commencement of the Act, strong objection was taken by several County Councils to the proposed basis of determination. The matter has since formed the subject of legal proceedings.

Similarly, in the case of County Secretaries and County Surveyors, where the Councils have refused to pay the additional remuneration determined by us, and have also failed to come to an agreement, the question has come before the High Court of Justice for decision.

14. Section 116.

Under this section we had to determine the increase of salary to be paid to existing Town Clerks or Clerks to Commissioners in respect of their increase of duties. As in the case of County Councils and Rural District Councils, we sent, in August, 1899, a circular letter to the Councils of County Boroughs and of Urban Districts, drawing the attention of the Councils to the terms of this section.†

A large number of these Councils came to a special agreement with their officers as to the additional salary to be allowed for the increase of duties, while in cases where it was left for us to determine the increase of salary to be given, the amounts fixed have not been questioned by the authorities concerned.

15. Adjustments.

A considerable amount of work devolved on this Department during the year ending 31st March, 1900, in connection with the adjustment of Union balances, and of County accounts. The work was necessarily of a very intricate and involved character, and occupied much time and labour. Visits had to be paid to the different Unions and Counties, and in the case of the larger question of County Adjustments many local inquiries had to be held.

In the case of the Unions, 220 Orders dealing with Electoral Division Balances were issued during the months of January and February, 1900. And in pursuance of Article 19 of the Local Government (Transitory Provisions) (No. 2) Order in Council, 1899, these Orders required provision to be made in the rate for the half-year ending 30th September, 1900, for giving to Electoral Divisions the benefit of balances to their credit on 31st March, 1899, and for charging to Electoral Divisions any debit balances existing on that date.

The County Adjustments, involving the question of the financial relations between many Urban Districts with the Counties in which they are situated, as well as special matters affecting particular counties, such as the adjustment of Railway Guarantees, &c., were not disposed of in the period under review, as we felt that we should be in a better position to decide upon a uniform course of action with regard to these matters after concluding our local inquiries and comparing results.

16. Borrowing by County Councils.

In the exercise of the powers given to us by Section 60 of the Act, and Article 22 of the Schedule to the Local Government (Application of Enactments) Order, 1898, we consented to the following Loans to County Councils during the year under review:—

Loans to County Councils.

County.	Amount of Loan Sanctioned.	Purpose for which Borrowed.	Date of Sanction.
Wexford. ...	£ 6,000	Enniscorthy Lunatic Asylum —Structural Alterations.	6th December, 1899.
Galway. ...	1,000	County Courthouse Improvements.	13th February, 1900.
Mayo. ...	400	Rebuilding Murbhla Bn. l'gn.	23rd March, 1900.

17. General.

Before concluding our reference to the Local Government Act, we may be permitted to observe that the predictions of those who affirmed that the new local bodies entrusted with the administration of a complex system of County Government would inevitably break down have certainly not been verified. On the contrary, the County and District Councils have, with few exceptions, properly discharged the statutory duties devolving upon them. Instances have, no doubt, occurred in which these bodies have, owing to inexperience and to an inadequate staff, found themselves in difficulties, and have had to receive some special assistance from us in regulating their affairs; but this has been of rare occurrence, and we are confident that before the term of office of the first Councils elected under the Act expires, the new machinery will be working very smoothly throughout Ireland.

II. POOR RELIEF.

1. We now submit, in continuation of similar tables in previous annual Reports, summaries of the weekly returns which we have received from the Clerks of Unions showing, respectively, the number of persons in workhouses, the number maintained from the Poor Rate in hospitals and other public institutions, and the number in receipt of out-door relief at the close of each week from the 1st of April, 1899, to the 31st of March, 1900, both included; and we annex two diagrams* in illustration of the fluctuations which occurred in the number of workhouse inmates and the number of persons in receipt of out-door relief, respectively, during the weeks included in the following statement and in the corresponding weeks of each of the six preceding years.

In our last annual Report we mentioned that from April 1898 to March 1899 there had been an increase in the average daily number of persons relieved both in and out of the work-houses, as compared with the preceding year. We have now to

report that the returns for the weeks set forth in the statement on pages xiv. and xv. show a decrease in the daily average number of persons relieved both in and out of the workhouses from April 1899 to March 1900, as compared with the year dealt with in our last Report. The daily average number in workhouses during the year was 41,980, in public institutions and the District Schools 1,500, and on out-door relief 58,012, making a total of 101,492, which is less by 7,288 than the corresponding total in the preceding year, and represents 1 in every 44 of the population of the country at the middle of 1899,* or 2·24 per cent., being 96 per cent. for in-door relief, and 128 per cent. for out-door relief, as shown in the tables on the preceding page. The greatest number relieved at any one time during the period was 108,684, on the 17th of February, 1900, and this represents 1 in 42 of the population, or 2·39 per cent.

2. Numbers Relieved.

The following table gives the numbers of persons in workhouses and in receipt of out-door relief at the close of the last week of each month from April, 1899, to March, 1900, compared with the numbers in the corresponding weeks of the previous year.

The returns for 1899-1900 summarized above show an increase in the number of persons relieved in workhouses in only one of the weeks included in the table, and a decrease in eleven weeks, as compared with the corresponding weeks of the previous year. There was an increase in the number of persons who received out-door relief in seven of the weeks given in the table, and a decrease in the remaining five weeks.

3. We here continue from last Report a classified return of the number of inmates in workhouses on the first Saturday in each year for the last thirty-one years, with the per-centage of the several classes on the total number of inmates.

* Estimated by the Registrar-General at 4,531,185.

It will be seen by the above table that the number of children under 15 years of age relieved in workhouses has greatly decreased since 1870, and that while in January of that year they amounted to 28.1 per cent. of the total number of inmates, at the most recent date they formed only 13.8 per cent. of the total number.

It will also be seen that since 1891 the sick persons in hospital on the first Saturday in January amounted to more than 40 per cent. of the total number of inmates. The per-centage for the year ended in March, 1900, is given on page xx.

4. The following statement shows the average daily numbers of the several classes of persons relieved in workhouses during each year ended on the Saturday nearest to the 30th of September from 1870 to 1898, and on the Saturday nearest to the 31st of March thenceforward, with the average number of deaths per week, and weekly rate of mortality.*

* A yearly rate of mortality cannot be accurately determined, as the number of individual persons relieved in workhouses during the course of a year is not ascertainable. This arises from the fact that the same person may be relieved several times during a year, and on each occasion is counted as a separate admission.

Of the total daily average number of persons relieved during the period ended on the 31st of March, 1900, viz., 41,980, it appears by column 9 of the foregoing table that 18,591, i.e., 44 per cent. of the whole, were sick and under treatment in workhouse hospitals. This is somewhat in excess of the usual proportion of sick persons in the hospitals.

5. The following table shows for the years ended on 29th September, from 1870 to 1898, for the *half-year** ended the 31st of March, 1899, and for the year ended on the 31st of March, 1900, the number of persons in workhouses at the commencement of each period, the number of admissions, and the number of births and deaths.

10. *Orphans and deserted children.*

The number of orphans and deserted children out at nurse from the workhouses in Ireland under the provisions of the Act 61 and 62 Vic., chap. 30, on the 31st of March, 1900, was 2,223 (1,178 boys and 1,045 girls), being an increase of 268 on the number at the corresponding date in the year 1899. A table will be found in the Appendix* showing the Unions in which the Guardians have availed themselves of the provisions of this enactment, with the number of children boarded out in each case.

11. *Invalid Foundlings.*

In paragraph 25 of our last Annual Report we referred to the survivors of the Invalid Foundlings who, before the introduction of the Poor Law system to this country in 1838, had been maintained as nurse children on the revenues of the Dublin Foundling Hospital, but are now maintained by means of a grant annually voted by Parliament. There were, at the date of the Report above alluded to, 12 of these invalids, one of whom has since been removed to a Workhouse Hospital; the number to be maintained was, on the 31st of March, 1900, therefore only 11.

* See page 684.

12. *Emigration.*

We now continue the series of emigration statistics by repeating, with one additional year, the table showing the number of persons assisted by Boards of Guardians to emigrate under the provisions of the Irish Poor Relief Acts and the cost incurred for that purpose in each year, that is to say, for fifty years ended in March, 1900.

13. District Schools.

The number of children maintained in the two District Schools established under the provisions of Section 2 of the Act 11 and 12 Vic., chap. 25, at Trim, in the County of Meath, and Glin, in the County of Limerick, by the Boards of Guardians of the respective contributory Unions, during the weeks of the year 1899–1900, are given in the table on page xv. At the latest date therein, 31st March 1900, the total number in the schools was 447, representing an increase of 32 (20 and 12, respectively) on the number at the corresponding date in the preceding year.

The number in Trim school was 194, of whom 41 were from Trim, 62 from Drogheda, 56 from Navan, 19 from Kells, and 16 from Dunshaughlin.

The number in Glin school was 253, of whom 26 were from Croom, 40 from Kilmallock, 94 from Limerick, 41 from Listowel, 26 from Newcastle, and 26 from Rathkeale.*

14. Dietaries.

The question of the Workhouse dietaries engaged our special attention during the year under review, and we found at the outset on comparison with dietaries in some of the large English Workhouses and also in the Irish Prison and Lunacy Establishments, that the dietaries in many unions were meagre and monotonous, and that considerable modifications and improvements were requisite therein, especially in the dietary of the children, and of the infirm and lunatic classes. In the Appendix is printed a copy of our Circular Letter forwarding for the consideration of Boards of Guardians a "suggested Scale of Dietary"† for the above-mentioned classes of inmates. The Medical Officers of Workhouses are obliged when the suggested scale has been adopted to prescribe for each infant and for each nursing mother a dietary in accordance with their individual requirements.

Our suggested scale has so far been adopted in its entirety in 21 Unions, and in a modified form in 98 Unions. In some of the remaining Unions the dietary scales are suitable, and in many others the matter is still under the consideration of the Guardians.

We would observe in connection with this matter that many of the deformities, as well as diseases and deaths amongst workhouse children, are attributed with good reason to insufficient or unsuitable nourishment, and to want of skilled nursing and supervision, and we have in numerous instances where our Circular Letter has given rise to correspondence with Boards of Guardians, endeavoured to impress upon them the paramount importance of good nursing and suitable food for infants and other children in workhouses.

15. Poor Relief Expenditure.

We now proceed to the statistics arising out of the accounts of the Unions for the financial year ended on the 31st of March, 1900, that being the date to which the accounts have been made up pursuant to our Order of the 20th of March, 1899.

* Further information respecting the numbers in the schools, and the receipts and expenditure of the Boards of Management during the year ended the 31st of March, 1900, will be found in the Appendix, page 623.

† See page 303.

In accordance with the provisions of the Local Government (Ireland) Act, 1898, the expenditure of Boards of Guardians is now almost entirely restricted to the relief of the poor, and the outlay in this respect for the year in question compared with that during the year ended the 31st of March, 1899, is shown in the following table. The amount of the receipts under the head of poor rate for each of the two years is also given in the table as heretofore, but in regard to this we have to observe that for the year ended in 1899 this rate, which was then made and collected by the Guardians, provided for various branches of expenditure not now incurred by them in addition to poor relief, while for the year ended in 1900 the amount was supplied to the Guardians by the County Councils, who now make and collect the poor rate, and it was applied almost entirely to the relief of the poor.*

From this table it will be seen that there was an increase of £4,652 in "in-maintenance and clothing," and of £12,168 in "salaries and rations of officers," while there was a decrease of £13,811 in "out door relief," of £1,613 in "cost of relief in blind and deaf and dumb institutions, and of patients in extern hospitals," and of £63,717 in "all other poor relief expenditure," making a total decrease of £62,321 in the expenditure connected with the relief of the poor during the year 1900 as compared with 1899. There was also a considerable decrease, £11,578, in the expenditure under the Medical Charities, Vaccination, and Dispensary Houses Acts.

* The expenditure other than poor relief which was formerly incurred by Boards of Guardians is further adverted to in the note on next page.

20. *Seed Supply and Potato Spraying (Ireland) Act, 1898.*

Under the provisions of this Statute the Guardians of 74 Unions obtained loans from the Board of Works in the year 1898, for the purpose of supplying seed potatoes and seed oats on sale to occupiers and cultivators of land who were unable through poverty to procure a supply for themselves, and loans were also obtained in 33 Unions for the purchase of spraying machines, and spraying material, for the use of such occupiers and cultivators.

The accounts of these loans when finally made up showed that the sums advanced were, respectively, £69,044 and £5,957, making a total of £75,001; but in certain cases portions of the loans were refunded, and the first instalment which became payable to the Board of Works on the 1st September, 1899, pursuant to section 2 (2) of the Act, was eventually ascertained to amount to £35,716.

Of this amount £32,499 had been paid on the 31st March, 1900, leaving £3,217 then due by the Boards of Guardians of four Unions.*

21. *Seed Potatoes Supply (Ireland) Act, 1895.*

It will be seen by previous Annual Reports that in the year 1895 the Boards of Guardians of sixty-five Unions availed themselves of the provisions of the above-mentioned Act, and procured loans to the net amount of £53,316 for the purpose of supplying seed potatoes on sale to impoverished occupiers and cultivators of land in their respective Unions.

The debt incurred in sixty-three cases has been paid, but a sum of £507 remains due by two Boards of Guardians.

22. *Seed Potatoes Supply (Ireland) Acts, 1890 and 1891.*

As mentioned in previous Annual Reports, these Acts were put into operation in the Spring of 1891 by the Boards of Guardians of 110 Unions, and the debt which became due to the State in respect of loans advanced for a similar purpose to that mentioned in the last two sections amounted to £240,405.

The repayments made on account of this liability amount to £239,640—£765 being still due by one Union.

* Since that date the full amount of the first instalment has been paid.

23. *Seed Supply (Ireland) Act, 1880.*

The net amount of the loans advanced under this Statute to the Boards of Guardians of 153 Unions was £598,306, of which a sum of £588,912 has been repaid. The balance of £9,394 remaining unpaid by nine Unions is now extinguished—the debts of these Unions in this respect having been deemed free grants from Parliament by the Public Works Loans Act, 1899, (62 & 63 Viet., ch. 31).

III. CONTRIBUTIONS-IN-AID.

1. *Sums paid from Imperial Funds, and from the Local Taxation (Ireland) Account.*

The Grant annually voted by Parliament of one-half the sums paid in unions for salaries of medical officers of dispensary districts and workhouses, and for medicines and medical appliances, with the full salaries of workhouse teachers, and a propor-

tionate part of the salaries paid in rural and urban districts to officers appointed under the Public Health (Ireland) Act, 1878, has been discontinued, and instead thereof, since the 1st of April, 1899, the same proportion of the expenditure under each such head of outlay is now recouped from the Local Taxation (Ireland) Account, pursuant to the provisions of section 58 of the Local Government (Ireland) Act, 1898. In the cases of unions and rural districts, the recoupment is made on behalf of the guardians and rural councils, respectively, to the councils of the counties in which the unions and rural districts are situate; and in the case of urban districts it is made directly to the councils of such districts.

The following statements show the amounts paid* to, or on behalf of, Boards of Guardians and Rural Authorities, and to Urban Authorities and the Boards of Management of Glin and Trim District Schools, on account of expenditure incurred during the years ended the 31st of March, 1899 and 1900.

2. *Probate Duties (Scotland and Ireland) Act, 1888.*

The amounts paid to, or on behalf of, Boards of Guardians and to Road Authorities in Ireland under the above-mentioned Act in respect of the years ended the 31st of March, 1899 and 1900, were, respectively, £226,086 11s. and £253,506 7s. 7d. The distribution of these sums was as follows:—

	1899.			1900.		
	£	s.	d.	£	s.	d.
Boards of Guardians, . . .	112,932	7	1½	126,442	10	7

Total, . . .	£226,086	11	0	£253,506	7	7

It is enacted by section 3 of the Probate Duties (Scotland and Ireland) Act, 1888, that, until otherwise provided by Parliament, after the deduction of £5,000 payable to the Royal Dublin Society, the balance of this grant annually distributable in Ireland shall be divided equally between Boards of Guardians of Poor Law Unions and Road Authorities. Under section 5 of the Purchase of Land (Ireland) Act, 1891, this grant forms part of the Guarantee Fund therein provided for, and the inequality in the sums paid to Boards of Guardians and Road Authorities is accounted for by the fact that deductions were made from the grant for the purposes of the fund mentioned, in pursuance of Regulations framed by your Excellency under section 6 of the last-mentioned Act.

Under the provisions of section 19 of the Finance Act, 1894, (57 and 58 Vic. chap. 30), this grant, which was formerly payable out of Probate Duties, is now payable out of the Estate Duty derived from personal property.

Schedules of the sums paid to, or on behalf of, Boards of Guardians, and to Road Authorities, in respect of the grants given above, are printed in the Appendix.*

3. *Local Taxation (Customs and Excise) Act, 1890.*

The sums heretofore paid under section 3 (b) of this enactment to the guardians of the twenty-five unions which were contributory unions as defined by the National School Teachers (Ireland) Act, 1875, and which exceeded £16,000 a year, has been discontinued, as the sub-section above mentioned has been repealed by the Agriculture and Technical Instruction (Ireland) Act, 1899.

4. *Purchase of Land (Ireland) Act, 1891.*

The distribution of the annual grant of £40,000, known as the Exchequer contribution, which is provided by Section 5 of the above Statute, is further referred to at page lxviii, and the details thereof are given in the Appendix.†

* See pages 460 to 463.

† See pages 469 to 481.

5. Rates on Government Property.

The sums received by Boards of Guardians from the Treasury as rates on Government property for the *half-year* ended the 31st of March, 1899, amounted to £6,582. The Poor Rate has ceased to be levied by Boards of Guardians, as previously observed, and therefore the contributions under this head are not now made to them.

IV. MEDICAL CHARITIES ACT (14 and 15 Vic. cap., 68), VACCINATION ACTS, &c.

1. We next submit to your Excellency a series of tables showing for the *half-year* ended in March, 1899, and for the year ended the 31st of March, 1900, and previous years, the numbers of cases treated by the Medical Officers of Dispensary Districts under the Medical Charities Act, the number of persons vaccinated, the deaths in workhouses from small-pox and the number of cases of that disease treated in the Dispensary Districts, the numbers attended in the Districts for fever, the expenditure under the Medical Charities and Vaccination Acts, and the cases in which we have issued certificates under the Dispensary Houses (Ireland) Act.

The first table exhibits, in the usual form, the number of cases in which medical relief was afforded under the Medical Charities Act during the years ended on the 30th of September from 1888 to 1898, for the *half-year* ended the 31st of March, 1899, and for the year ended the 31st of March, 1900, for each Province and for the whole of Ireland.

Compared with the last completed year, it will be seen that during the year ended the 31st of March, 1900, there was an increase in Ulster, Munster, and Leinster, and a decrease in Connaught, in the number of cases treated at the dispensaries and at home.

The net increase in the number of cases treated at dispensaries was 9,839, and in the number attended at home 15,658, making a net total increase of 25,497 in the number of cases in which medical relief was afforded by the medical officers of Dispensary Districts.

The cases of vaccination during the year ended the 31st of March, 1900, as given on the preceding page, are classified in the following table under the headings, Vaccinations and Re-Vaccinations :—

—	Vaccinations.	Re-Vaccinations.	Total.
Total of Ireland, .	75,810	5,459	81,269

3. *Vaccination in Workhouses.*

The numbers of cases of vaccination performed in workhouses during the *half-year* ended in March, 1899, and in the year following were, respectively, 372 and 722.

4. *Vaccine Department of the Local Government Board.*

During the year ended the 31st March 1900, applications for lymph were received from Medical Officers of Workhouses, Dispensaries, and other public institutions, from Military Medical Officers, and from Private Practitioners, and 13,296 points and 4,017 tubes charged with lymph were distributed. During the same period 1,250 vaccinations and 112 re-vaccinations were performed at the stations in Sackville-street and York-street, Dublin.

Although the Vaccination Act of 1898 does not extend to Ireland, still, in view of the recommendations of the Royal Commission on Vaccination, we felt it incumbent upon us to arrange for the gratuitous distribution of glycerinated calf-lymph, through our Vaccine Department, to the Medical Officers of the Workhouses and the Dispensary Districts for use in all their public vaccinations, and in consequence we discontinued the collection and issue of humanized lymph. Copies of our Circular Letters on the subject to the Boards of Guardians and the Medical Officers will be found in the Appendix.*

The glycerinated calf-lymph is at present obtained by us under contract from Dr. J. Knox Denham, the National Calf Vaccine Institute, Sandymount, Dublin, and it is, before issue to Medical Officers, not only subjected to careful bacteriological examination, but is also tested as to its efficiency in our Vaccine Department.

We considered it undesirable in present circumstances to maintain any longer a branch station for vaccination purposes at York-street, Dublin; the station was accordingly closed on the 1st April, 1900, but vaccinations are, as heretofore, carried out at the vaccine-premises in Upper Sackville-street.

The services of Dr. Montgomery, Secretary of the Vaccine Department, have been retained; it now devolves upon him to perform all the vaccinations at the Vaccine premises, and to conduct the correspondence and to keep the necessary records relating to the lymph and the vaccinations. The post of Assistant Secretary of the Vaccine Department, which was held since October, 1884, by Dr. A. J. Horne, has been abolished.

We have temporarily appointed Dr. E. J. M'Weeney to supervise the methods of collecting and storing the glycerinated calf-

lymph prepared by Dr. Denham, and to make a bacteriological examination of samples of all such lymph supplied to us. It is also a condition of Dr. McWeeney's appointment that he shall perform such general bacteriological work as we may from time to time require.

5. Medical Charities, &c., Expenditure.

The next table gives the expenditure under the Medical Charities Act, the Vaccination Acts, and the Dispensary Houses Act, in each year ended on the 29th of September from 1888 to 1898, for the *half-year* ended in March, 1899, and for the year ended the 31st of March 1900.

(42 AND 43 VICT., CHAP. 25.)

The Dispensary Districts for which Certificates were issued by us under section 4 of the above-mentioned Act from the date of the passing of the Act to the 31st of March, 1900, are shown in the following list. The cases in which Certificates have been granted since our last Report are indicated by an asterisk.

A Certificate issued in pursuance of the section referred to enables a Board of Guardians or owner of land, as the case may be, to apply to the Commissioners of Public Works for a loan

to provide a dispensary house or a residence for the medical officer of a Dispensary District.

7. Medicines.

Our Regulations respecting medicine contracts have been in operation for a year, with entirely satisfactory results. In the year ended the 31st March, 1900, contractors allowed the Boards of Guardians very large abatements—in many instances as much as 50 per cent.—off the prices contained in our prescribed lists; and in our opinion it must have entailed considerable loss on them to supply good drugs on such terms. We are, therefore, in no wise surprised that the abatements have since fallen to an average of less than 20 per cent. The certificates obtained by the Guardians from analysts were submitted to us, and we found that numerous slight deficiencies were reported therein, and that in over thirty cases some of the drugs examined were seriously defective. We advised in each case the action that, in our opinion, the Guardians ought to take; and where the drugs were seriously defective we recommended that, in addition to the defective drugs being returned and fresh ones of standard quality supplied at the contractor's expense, the contractor should be formally warned that his services would be dispensed with if he again supplied inferior drugs or preparations to the union. In one union, owing to a second unfavourable report from the analyst, the Guardians applied for our consent to terminate the contract; we considered that the proposal was fully warranted by the facts, and we, therefore, notified our consent thereto in accordance with the provisions of the bond.

We observed that a considerable number of the Medical Officers were not fully alive to the importance of their duties in respect of forwarding drugs for analysis; drugs were in many instances a length of time in stock before the samples were transmitted to the Analyst, and samples were often rather carelessly made up and in quantities quite insufficient for full analytical purposes. In the Appendix will be found a copy of a Circular Letter dated the 20th February, 1900,* which we addressed to the Boards of Guardians, fully setting forth our views on this subject, and also mentioning the drugs which, from our experience, we found were most likely to be adulterated or deficient in strength.

In one instance a Dispensary Medical Officer reported to us that there were discrepancies between the quantities of certain drugs requisitioned by him and the quantities supplied, and further that the Contractor made excessive charges for particular articles in the invoice. An inquiry on oath into the facts was held by one of our Medical Inspectors; the statements made by the Medical Officer were established, and the Board of Guardians, at our request, cancelled the contract.

Under Article 36 of the Dispensary Rules it is provided that—"Recoupment will not be sanctioned until the Guardians obtain a certificate from the county or other analyst recognised by the Local Government Board that he has examined samples of drugs from the Workhouse and the various Dispensaries of the Union. When there has been any departure from the required standard, special attention must be called to the fact in the certificate."

* See page 337.

The Boards of Guardians had the option of arranging with the county analyst for the systematic analysis of the drugs, or they could, if they saw fit, select some other suitable person for the post. In view of the importance of the duties, we required, in the case of persons other than Public Analysts, educational attainments equivalent to those possessed by such of the Fellows or Associates of the Institute of Chemistry of Great Britain and Ireland as have obtained the certificate granted by the Institute after examination in Therapeutics, Pharmacology, and Microscopy, and also that each gentleman selected should have had considerable experience in the quantitative and qualitative analysis of drugs, and should satisfy us that he possessed a fully-equipped laboratory. The following gentlemen, in addition to those sanctioned by us as Public Analysts, namely, Mr. Edwin Lapper, Royal College of Surgeons, Dublin; Mr. R. F. Blake, Queen's College, Belfast; and Mr. Walter Thorp, 57, George-street, Limerick, were recognised by us as qualified Medicine Analysts.

Local Pharmaceutical Chemists who did not possess the required qualifications, were selected as analysts in some unions; in a few instances the Guardians adhered very persistently to their selection, and omitted having an analysis made of any of the medicines obtained during the September half-year. They consequently forfeited recoupment in respect of medicine expenditure.

V. PUBLIC HEALTH, ETC., ACTS.

1. In recording our proceedings under these Acts, we are glad to be able to state that no very serious epidemic, such as the epidemic of enteric fever at Belfast referred to in our last Report, took place during the year now under review.

There were, however, several minor outbreaks—principally of enteric fever—in different parts of the country. Particulars in relation to the more important of these are given in the following table:—

Outbreaks of Fever in 1899-1900.

District.	Date of Outbreak.	Nature of Fever.	Observations.
Banbridge Urban.	October, 1899.	Enteric.	A small outbreak of 11 cases occurred. The attention of the Sanitary Authority was called to the water supply, sewerage, and insanitary condition of houses in the district.
Belmullet Rural.	Sept. and Oct., 1899.	Typhus.	Sixteen cases occurred, of which 7 were removed to hospital. The source of infection was not traced. The medical officer of health showed neglect of duty in reporting the cases.

Outbreaks of Fever in 1899-1900—continued.

District.	Date of Outbreak.	Nature of Fever.	Observations.
Carrick-on-Suir Urban.	April, 1899.	Typhus.	Fifteen cases occurred, of which five were removed to hospital. The origin of the disease was traced to the insanitary condition of premises. The hospital arrangements were condemned, and it appeared that the Urban District Council had transacted no business for six months prior to the outbreak.
Dublin (N.) Rural.	August, 1899.	Enteric.	In all there were 110 cases, 13 proving fatal. Several cases occurred in public institutions, notably in the Royal Irish Constabulary Depot and the Bessborough Police Barracks. The source of infection was traced to the distribution of milk from the premises of a dairyman, who was one of the first to contract the disease. Neglect of duty was shown on the part of the Medical Officer of Health and the Sanitary Sub-Officer, and both of these officers were called upon to resign.
Galway Urban.	May, 1899. Nov., 1899, March, 1900.	— —	I. A small outbreak occurred in May, 1899, due to a person suffering from fever sleeping in a common lodging-house. Two cases proved fatal. II. Fever was prevalent in the Claddagh for some months, owing to the general insanitary state of the District.
Longford Rural.	January, 1900.	Scarlatina.	About 30 cases occurred in the Convent Industrial Schools, Newtownforbes, and 24 were removed to hospital.
Sligo & Boyse Rural.	May, 1899.	Enteric & Typhus.	This outbreak occurred on the border of the two Districts. About 30 cases came under the notice of the authorities. It was found difficult to trace the source of infection, owing to the small amount of information obtainable, the accuracy of which was more than doubtful. The epidemic probably had its origin in the insanitary condition of houses, and the spread of the disease was attributed to the attendance at school of children from affected families.
Sligo Rural.	June, July, 1899.	Enteric.	Fifty-six cases occurred, of which 30 were removed to hospital. The disease was attributed to specifically infected milk, sent to a creamery from the houses in which the first cases occurred.
Thurles Urban.	April, 1899.	Enteric.	Upwards of 10 cases occurred. The primary source of infection was found to be the distribution of milk from a dairy where patients were being treated, and the use of water from a pump liable to contamination caused a further spread of the disease. The sanitary condition of Thurles was reported to be unsatisfactory. The water supply was liable to pollution and the sewerage most defective. The Board impressed on the District Council the necessity of taking action towards having this regrettable state of affairs promptly remedied.

Our investigations into the causes of these outbreaks, as well as our experience in connexion with similar cases in previous

years, made it apparent that there was much need of improvement as regards the manner in which many sanitary officers, and especially sanitary sub-officers, discharge the duties devolving upon them. We are satisfied, however, that, as a general rule, any failure of duty on the part of these officers did not arise so much from neglect or indifference as from an imperfect conception of the duties attaching to their positions. We, therefore, thought it desirable, as the first step towards promoting a more thorough and sufficient administration of the sanitary laws by the new local bodies established under the Local Government Act that we should classify and set forth in detail the various duties which we considered the different sanitary officers are called upon to perform; and we have accordingly drawn up and promulgated a new set of sanitary orders in substitution for those issued shortly after the passing of the Public Health (Ireland) Act, 1878. The new orders, which are printed in the Appendix,* apply respectively to—

- (1.) Rural Districts;
- (2.) Urban Districts;
- (3.) The County Boroughs of Cork, Limerick, Londonderry, and Waterford;
- (4.) The County Boroughs of Dublin and Belfast,

and relate to the appointment, tenure of office, salaries, and duties of medical superintendent officers of health, medical officers of health, executive sanitary officers, and sanitary sub-officers.

The new orders were not issued until May, 1900, but during the period that has since elapsed we have observed with pleasure a more vigilant and energetic discharge of public health duties by the various officers concerned, and particularly by sanitary sub-officers, and we have no doubt that with the assistance of the local sanitary authorities the object which we had in view in framing these orders, namely, to secure a better administration of the sanitary laws, will, in course of time, be attained.

Beyond enumerating the duties of the various officers, and making certain regulations as to the mode of appointment, salaries, &c., as above mentioned, the only important alteration effected by the new orders is the abolition of the office of Consulting Sanitary Officer so far as new appointments to that office are concerned. The services of such an officer were, we found, rarely requisitioned, and we accordingly felt that it was not desirable in the interests of the public health that any new appointments should be made to an office the duties of which had come to be regarded as of a more or less nominal character. Our orders provide instead that the Sanitary Authority of any Rural or Urban District may, and, where we deem it necessary, shall appoint a Medical Superintendent Officer of Health the duties of which officer are, it will be seen by reference to the Orders, of a more extended and important nature than those which attached to the office of Consulting Sanitary Officer. As, however,

* See pages 379-431.

the Sanitary Authority of a particular district might consider it undesirable or unnecessary to retain the service of a Medical Superintendent Officer of Health solely for their own district, we have provided that the same person may hold that office in respect of two or more districts, and we trust that this arrangement will lead to these appointments being filled up in such cases as the result of collective action on the part of the Sanitary Authorities of adjoining districts.

4. Public Health of Dublin.

Early last year a Committee was, at the instance of your Excellency, appointed by us to inquire into the cause of the high death-rate in Dublin and to recommend measures for adoption with the view of improving the health of the city. The Report made by the Committee, together with the minutes of evidence taken at the public Inquiry held by them has already been forwarded to your Excellency and has also been laid before Parliament. The recommendations of the Committee are receiving the attention of the Corporation of Dublin and of this Department.

5. Alleged Default of Sanitary Authorities.

Section 15 of the Public Health (Ireland) Act, 1896, provides that where complaint is made to us that a Sanitary Authority has made default in providing their district with a proper supply of water, or with sufficient sewers, or in enforcing any provisions of the Public Health Acts which it is their duty to enforce, we may, if satisfied, after due inquiry, of the alleged default make an Order limiting a time for the performance by the Sanitary Authority of their duty in the matter of such complaint. Such Order may be enforced by Writ of Mandamus or we may appoint a person to perform such duty at the expense of the defaulting Authority. During the year under review we received two formal complaints under this section, viz. :—against the Council of Seariff Rural District as to their failure to provide a proper water supply for the town of Seariff and against the Council of New Ross Urban District for not providing sufficient sewers at Irishtown in their District. Local inquiries were held into these complaints and our Inspectors' reports thereon have been received, but no final Orders in these cases were made by us during the year in question.

6. Investment of Rural Sanitary Authorities with powers of Urban Authorities.

Under section 1 of the Public Health (Ireland) Act, 1896, we are enabled on the application of the Sanitary Authority of any rural district, or of persons rated to the extent of at least one-tenth of the net rateable value of such district, or of any contributory place therein, to declare any provision of the Public Health (Ireland) Acts in force in urban districts to be in force in such rural district or contributory place, and to invest the Rural Authority concerned with all the powers, rights, duties, capacities, liabilities, and obligations of an Urban Authority under those Acts. Particulars of the several Orders made by us during the year 1899–1900, in pursuance of this enactment, are given in the Appendix.*

9. *Sewerage and Water Supply.*

We now continue from our last annual report details of the operations in Rural Districts in regard to sewerage and water supply under the provisions of the Public Health (Ireland) Act, 1878. The extent of these operations is still in some degree measured by the number of the Orders under seal fixing the areas of charge for the expenses to be incurred. The number of such Orders issued each year since the passing of the Act is shown in the following table:—

TABLE.

It will be seen from the foregoing that 1,526 Orders fixing areas of charge for sewerage or water-supply, or both, have been issued during the last twenty-one years, the number for the period from the 26th of March, 1899, to the 31st of March, 1900, being 84, which were issued to the authorities of 56 Rural Districts.

The above table relates only to Rural Districts. In Urban Districts all sanitary expenses are chargeable upon funds levied from the whole district.

The question of the area of charge for expenses in respect of water supply and sewerage in Rural Districts gave rise to much correspondence with Rural District Councils during the year under review. Section 232 of the Public Health (Ireland) Act, 1878, enacts that such expenses shall be "special expenses," *i.e.*, that they shall be charged to some special contributory place or to some area consisting of contributory places as defined by that section. While the Sanitary Authority were the rate-levying

authority for their own district, little, if any difficulty was experienced in levying and collecting the special rates on such contributory places; but when the business in regard to the levying and collection of rates was, by the Local Government Act, transferred to the Council of each county, it was at once felt that it would be practically impossible to adhere to the system hitherto adopted of restricting to very small dimensions the area chargeable with such expenses, having regard to the very large number of limited areas of charge comprised in each Rural District, their want of uniformity, and the smallness of the amounts to be raised in the majority of cases. We accordingly addressed a Circular on the 26th January, 1899, to Boards of Guardians who were then the Rural Sanitary Authorities pointing out the difficulties and confusion which would arise if, under the new system of rating, such expenses continued to be levied over areas of charge so limited in extent. We also suggested that, except where the area originally fixed included a town or other large centre of population, such expenditure should for the future be levied over the whole Rural District, an area consisting of contributory places, and therefore satisfying the requirements of the Act of 1878, and we invited an expression of opinion on the subject from each Rural Sanitary Authority. In several instances objections were raised to this proposal, and in such cases, in order to meet the views of the local authorities as far as possible, we expressed our willingness in a circular letter, dated March 10th, 1899, to declare the area of charge for such expenses to be the dispensary district if, on further consideration, the objection to the entire Rural District were still adhered to. Ultimately, on the 15th May, 1899, we made a General Order* declaring the Rural District to be the area of charge for all special expenses remaining undischarged on the 1st April, 1899, subject to the exception that, where the original area of charge included a town under Municipal Government, such area should remain unaltered, and that in the cases of twenty-one unions, the area (subject to a like exception), should be the dispensary district concerned. Several local authorities objected to this Order, and a further General Order† was issued on the 17th July, 1899, retaining the original areas of charge in respect of certain specified works of exceptional importance in the case of twelve unions mentioned therein. Doubts were, however, expressed as to our power to alter an area of charge when once fixed, but by Section 5 of the Public Works Loans Act, 1899 (62 and 63 Vict., ch. 31), these orders were declared to be valid and effectual for all purposes; and the Public Health (Ireland) Act, 1900, has since been passed, which enables us to alter any area of charge for special expenses with the consent of the Rural District Council, and requires us to obtain a similar consent before making the entire Rural District the area of charge for any such expenses. Since the issue of these orders in 1899, we have, for the reasons already indicated, endeavoured in the case of new works, other than those affecting Municipal

Towns, to follow the principle underlying our Order of 15th May, 1899, namely—to declare the area of charge to be either the entire rural district or the dispensary district, if the District Council preferred the latter area. We have received several representations from Rural District Councils asking that the old system of small areas of charge for rural sanitary expenses should be reverted to; but we are satisfied, after the most careful consideration, that this course would be a source of the utmost embarrassment and complication to the new rate-collecting authorities, and that we should not, unless in very exceptional circumstances, declare a smaller area of charge than the dispensary district for expenses of this description. We believe that if the Rural District Councils from whom objections have been received fully grasped the difficulties in connection with the matter, they would immediately recognise that it would be unreasonable to expect the County Councils to arrange for the levying and collection of the numerous separate charges in the several rural districts comprised in each county, if the cost of every village pump or sewer had to be charged to a different local and limited area, as proposed by such District Councils.

10. *Burial Grounds.*

The Orders made in the year ended 31st of March, 1900, under the provisions of the Public Health (Ireland) Act, 1878, which relate to the discontinuance of burials in old burial grounds were as follows:—

Date of Order.	Description of Burial Ground.	Purpose of Order.
15th June, 1899.	Kilcock Burial Ground, in the Celbridge Union.	Prohibiting further interments from 1st August, 1899.
19th June, 1899.	Dramagh old Burial Ground, in the Omagh Rural District.	Prohibiting further interments from 1st November, 1899.
12th February, 1900.	Burial Ground attached to the Protestant Church at Coolock, in the North Dublin Rural District.	Prohibiting further interments from 1st May, 1900, with exceptions set out in schedule to Order.

We also, during the same year, issued 45 licences for interments in closed burial grounds.

11. *Infectious Disease (Notification) Act, 1889.*

On the 31st of March, 1900, the provisions of this Act had been adopted in 60 Rural and 22 Urban Districts. During the year 1899, there were 1,104 and 15,122 cases of infectious disease

notified in Rural and Urban Districts, respectively; while during the three months ended the 31st March, 1900, there were 307 cases of infectious disease notified in Rural and 1,879 in Urban Districts. Tables showing the number of cases notified in each District will be found in the Appendix.*

12. *Post Office Act, 1891.*

This Statute enables rural sanitary authorities to assist in the provision of postal or telegraphic facilities for contributory places within their districts by undertaking to pay to the Postmaster-General any loss he may sustain in providing such facilities.

The extent to which sanitary authorities have availed themselves of the provisions of the Act during the past year will be seen by the following table, which shows the number of Orders under Seal fixing areas of charge for costs of undertakings given by such authorities to the Postmaster-General, made each year since the passing of the Act:—

13. *Sale of Food and Drugs Acts, 1875 to 1899.*

Under Section 10 of the Sale of Food and Drugs Act, 1875, analysts were appointed for counties and boroughs in Ireland; the section in question provided that in each case the appointment of the analyst and his removal from office should at all times be subject to our approval, and it also authorised us to require satisfactory proof of competency from persons appointed as analysts. The making of the appointments devolved, in pursuance of the section, upon the Grand Juries in the counties, and the Town Councils in the boroughs; but the functions of the Grand Juries in this matter have been transferred to the County Councils by Section 4 of the Local Government (Ireland) Act, 1898.

Section 3, sub-section 5, of the Act of 1899, provides that any Public Analyst appointed under the Sale of Food and Drugs Acts in Ireland shall furnish such proof of competency as may from

time to time be required by regulation framed by us; a copy of our Order prescribing the regulation framed by us in pursuance thereof, and a copy of an explanatory Circular Letter issued therewith are printed in the Appendix, as is also a list of the Public Analysts of the several counties and boroughs.*

14. Loans.

In both urban and rural districts a considerable part of the expenditure on sewerage, water-supply, and other local improvements is defrayed by means of loans to the sanitary authorities, which we now sanction in pursuance of section 237 of the Public Health (Ireland) Act, 1878, and under certain Local Acts.

In the twenty-four years ended the 31st of March, 1899, loans were sanctioned as follows:—

(i.) "*Exchequer Contribution*" under *Purchase of Land (I.) Act, 1891.*

Section 5 of the *Purchase of Land (Ireland) Act, 1891*, provided for the payment of £40,000 (termed the Exchequer Contribution) in every financial year out of the Consolidated Fund to a Reserve Fund until £200,000 accumulated, and afterwards, so far as not required for that purpose, to the Local Taxation (Ireland) Account, for distribution as follows:— Each of the six municipal boroughs to which the *Purchase of Land (Ireland) Act* does not apply to receive such share as it would be entitled to if the money were part of the Irish Probate Duty grant, and the residue to be divided between the counties in the proportion of their respective shares in that grant, and to be applied towards the cost of providing cottages under the Labourers Acts since the passing of the *Land Purchase Act*. Assuming that the full payment of £40,000 became available each year, the shares of the municipal boroughs referred to and of the counties would be as follows:—

The share of each county is, in accordance with the Regulations on the subject made by your Excellency on the 1st of December, 1899, distributable amongst the Rural Districts comprised in such county in proportion to the yearly expenditure of such Districts in respect of cottages provided since the passing of the Land Purchase Act of 1891. Detailed particulars in relations to the distribution of the grant for the financial year 1899-1900 will be found in the Appendix.*

(ii.) "County Percentage" under Purchase of Land (I.) Act, 1891.

Section 4 of the Purchase of Land (Ireland) Act, 1891, provided that an annual sum (called the County Percentage) of five shillings for every £100 advanced for land purchase should be paid to a Guarantee Fund, and, if not required for the purposes of such fund, to the Local Taxation (Ireland) Account, and applied towards the cost of providing cottages under the Labourers Acts in the counties in which the purchased holdings are situated. This annual payment was discontinued by Section 27 of the Land Law (Ireland) Act, 1896, the full amount which had accrued in respect of the County Percentage being £8,805 12s. 11d. This sum was allocated as follows, pursuant to the Regulations on the subject made by your Excellency:—Boards of Guardians received £4,443 10s. 4d.; the Commissioners of Public Works were paid £1,416 13s. 4d. in reduction of sums due by Boards of Guardians under the Labourers Acts; and the balance, £2,945 9s. 3d., remains reserved.

(iii.) Labourers Cottages Grant, 1890.

There also remains unissued a sum of £10,921 6s. 5d. out of the grant of £40,000 voted by Parliament in 1890 in aid of the liabilities incurred or to be incurred by Boards of Guardians under the Labourers Acts.

* See pages 469 to 481.

3. *General result of operations under the Labourers Acts.*

Tables are given in the Appendix showing what has been done by sanitary authorities under the improvement schemes authorized, and what is proposed to be done under further improvement schemes.

Table A shows that, out of the 16,303 houses authorized, 14,385 have been provided, of which 14,281 are actually let, and that 303 others are at present in progress or contracted for. The aggregate monthly rent of the cottages built in each Rural District and the amount of such rent in arrear are also shown.

Table B shows that further improvement schemes have been or are about to be submitted to us, proposing to provide 8,177 new cottages, 2,725 additional half-acre allotments to cottages already sanctioned, 277 allotments to existing houses, and 80 acres of land to be parcelled out in allotments to be let to labourers living in villages or towns. The estimated cost of these schemes is about £1,358,135.

X. AUDIT OF ACCOUNTS.

XI. DEPARTMENTAL ARRANGEMENTS.

We referred in our last Report to the arrangements made in pursuance of Section 122 (1) of the Local Government (Ireland) Act, 1898, whereby certain officers and other persons were appointed to assist in carrying the Act into effect; and in accordance with these arrangements we were enabled to retain, amongst others, the services of Mr. C. P. Cotton until the 31st March, 1900. The office of Chief Engineering Inspector, which Mr. Cotton resigned on the 31st December, 1898, and which was filled by him with conspicuous ability for nearly twenty years, was conferred on Mr. P. C. Cowan, B.Sc., M.I.C.E.

Since the date of our last Report, our Secretary, Dr. Mooney, was obliged to retire owing to ill-health, after a service in this Department of more than thirty-four years. The vacancy in the office of Secretary has been filled by the promotion of Mr. H. M. Swaine, one of our First Class Clerks.

We desire to place on record our sense of the loss which the Department has sustained by the death, on the 1st March, 1900, of Mr. J. H. Monahan, Q.C., who had acted as our Legal Adviser since October, 1879.

TWENTY-EIGHTH ANNUAL REPORT
OF
THE LOCAL GOVERNMENT BOARD FOR IRELAND.

APPENDIX A.

ORDERS AND CIRCULARS UNDER AND CONNECTED
WITH THE LOCAL GOVERNMENT (IRELAND) ACT,
1898.

I.—ORDERS.

(i.) General Orders (arranged according to date).

GENERAL RULES

For the TRANSACTION by URBAN DISTRICT COUNCILS of the BUSINESS transferred to them by Section 27 of the Local Government (Ireland) Act, 1898.

In pursuance of the powers vested in us by Section 27 of the Local Government (Ireland) Act, 1898 (hereinafter referred to as "The Act"), We, the Local Government Board for Ireland, do hereby prescribe the following General Rules for the transaction by Urban District Councils of the business transferred to such Councils by the said Section 27 of the Act.

Article 1.—These Rules shall be known and cited as "The Urban District Councils General Rules, 1899."

Article 2.—The expression "public work" shall have the same meaning as in the Act. The expression "person" shall include two or more persons or any firm or company.

Article 3.—These Rules shall apply to and be observed by the Council of each Urban District constituted under the Act (hereinafter referred to as "The Council,") which is not at this date empowered to undertake, or shall not, under the provisions of Section 27 (6) of the Act, have undertaken, the entire maintenance of all roads within its District.

Article 4.—When the cost of the construction or maintenance of any public work within an Urban District is partly leviable off the county at large, the Council having powers, liabilities, and duties similar to those of a Rural District Council under the Act, shall in respect thereto act in accordance with the Local Government (Procedure of Councils) Order, 1899.

Article 5.—A quarterly meeting of each Council shall be held on such dates as may be appointed, with the approval of the Local Government Board, for the consideration of such business as is transferred from the Grand Jury by the Act, and such business shall not be considered at any meeting of the Council other than an adjournment of the quarterly meeting, or such other meeting as is permitted under these Rules. When any such business is to be transacted at a meeting other than the quarterly meeting, it shall be con-

sidered and disposed of immediately after the reading and confirmation of the Minutes and before the consideration of any other business intended to be transacted at such meeting.

Article 6.—A quarterly meeting of Council may be adjourned to any day, not exceeding fourteen days from the date of meeting, for the further consideration of such business.

Article 7.—Not less than three clear days before the date of each quarterly meeting, the Clerk of the Council (hereinafter referred to as "the Clerk") shall transmit to each member a notice of such meeting, in which shall be stated an abstract of the business to be considered.

Article 8.—The Council shall, as soon as may be, appoint a competent person to act as Town Surveyor. The person so appointed, hereinafter referred to as "the Surveyor," shall not act as such unless and until he shall have satisfied the Local Government Board of his competency to properly discharge the duties of his office, and the Local Government Board shall have sanctioned his appointment. The Surveyor shall superintend the construction and maintenance of all public works within the District. This article shall apply to every new appointment to the office of Surveyor of all Urban Districts affected by these Rules.

Article 9.—The Council may provide for the construction and maintenance of any public work within the District either by their own workmen, or by entering into a Contract for the work.

Article 10.—The Surveyor shall report in writing to each quarterly meeting of the Council the state of the Public Works in his district, and any suggestions as to changes or improvements he may think desirable.

Article 11.—(1.) Any two Ratepayers may, fifteen days before any quarterly meeting of the Council, deliver to the Town Clerk, an application for any new work, with an estimate of the probable cost thereof.

(2.) The Clerk shall, on the notice calling the meeting, give special intimation of the receipt of each such application and shall mention the nature of the work, the names of the ratepayers making the application, and the amount of the estimated cost.

(3.) The Surveyor shall examine all such applications and shall state in writing, for the information of the Council, his opinion with regard to each of such applications. He shall also state whether in his opinion the work can be satisfactorily carried out for the amount named in the estimate attached to the application, and if not, he shall submit to the Council an estimate in detail of the probable cost.

(4.) The ratepayers making the application must attend at the meeting of the Council at which the application is to be considered in support of their application.

Article 12.—The Council on the consideration of applications at a quarterly meeting, may reject any application or, subject to the provisions of Article 14, adopt it, either wholly or in part,

and may limit the expenditure in respect of or may make such conditions or modifications with regard to the application as they may think fit.

Article 13.—When the Council adopt any application for the execution of a public work, in whole or in part, they shall cause the Surveyor to prepare plans, specifications, and estimates for the work.

Article 14.—When the application is for any new work, the probable expense of which, in the opinion of the Surveyor, will exceed £50, the Council may resolve to carry out the work, but the resolution shall not be acted upon unless and until it shall have been confirmed by a resolution adopted at a subsequent meeting of the Council. This subsequent meeting may be either the next ordinary meeting of the Council, or a special meeting, to be held not earlier than fourteen days after the quarterly meeting. The notice calling such subsequent meeting shall give the particulars of the application required by Article 11 (2) as adopted by the Council, and state that it is to be reconsidered with a view to ratification or rejection. An application under this Article adopted at the first meeting must be either ratified or rejected at the subsequent meeting; it cannot be amended. Any desired amendment at this stage must be treated as a new application.

Article 15.—In case the Council at two successive quarterly meetings shall refuse to approve of any application made for any public work, it shall be lawful for any person interested to present a memorial to the Local Government Board stating the nature of such application and the disapproval thereof by the Council. The Local Government Board may either make no order thereon or may direct the Council to proceed with the work within a specified time. Should the Council fail to proceed with the work when so directed, the Local Government Board may enforce their Order by a writ of mandamus as in the case of a default by an Urban Sanitary Authority under Section 15 (1) of the Public Health (Ireland) Act, 1896.

Article 16.—In the first quarter of every financial year the Surveyor shall add to his report to the Council an estimate of the amount which will in his opinion be required during the year for the maintenance of the public works in the district in good condition and repair, including the amount to be levied off the district for main roads or in respect of any road the cost of which is levied partly off any other district.

Article 17.—(1.) When a Council proposes to execute any public work by contract, they shall take steps for obtaining tenders for the work and may adjourn their meeting for the purpose to a day fixed by them, not being more than fourteen or less than seven days after the day on which the adjournment is made, or may determine that such tenders shall be considered and dealt with at the next ordinary meeting of the Council.

(2.) The Council shall, as soon as may be, in the manner prescribed in Article 25 (1), cause notice to be published within their district of their readiness to receive tenders, and

also of the manner in which tenders must be made, and of the day by which they must be received, that day being some day previous to that fixed for the meeting at which they are to be considered.

(3.) The Council shall cause forms of tender to be prepared (in accordance with the plans and specifications of the Surveyor) and they shall be kept at the Offices of the Council for delivery to any person wishing to send in a tender, and shall also cause the plans, specifications, and particulars prepared by the Surveyor, with regard to the work, to be open for inspection, gratis, at all reasonable hours at the Office of the Council.

Article 18.—(1.) Every tender shall be signed by the person making the tender, and enclosed in a sealed envelope, and shall state (a) the lowest sum for which the person tendering is willing to contract for the performance of the work, (b) the description and address of the person tendering, and (c) the names and addresses of two sureties for the performance of the contract.

(2.) The Council shall at the meeting appointed for that purpose, open and consider the tenders received in respect of the work or works advertised for by them.

(3.) The Council shall not accept any tender unless the person tendering or some accredited representative of same attends, and :—

(a.) Satisfies the Council of the sufficiency of the proposed sureties, and of their willingness to give the guarantee.

(b.) Satisfies the Council that the tender has not been made for any unfair or fraudulent purpose.

(4.) The person tendering and his sureties shall enter into security in accordance with this Order for the due performance of the contract.

(5.) The security for the due performance of the contract shall be the joint and several bond of the person tendering and his sureties, conditioned in a penalty of double the sum mentioned in the tender as the sum for which the person tendering is willing to contract: or if that sum exceeds one thousand pounds, of the sum mentioned in the tender with an addition of one thousand pounds.

(6.) Before accepting any tender the Council shall obtain the opinion of the Surveyor in writing as to its sufficiency for the proper execution and completion of the work.

(7.) Subject to compliance with the conditions of this article, the Council may accept the lowest or any other tender at their discretion. If however the lowest tender be not accepted, the reason for accepting a higher one is to be recorded on the minutes, together with the names of all the Members of Council voting in favour thereof.

Article 19.—When an application is made with regard to the maintenance of any public work, and the Council consider it expedient to contract for the same for a term of years, they

may, if they think fit, make a contract for a period not exceeding seven years, and the form of tender and bond shall be prepared in accordance therewith.

Article 20.—When at any meeting appointed for the purpose of opening and considering tenders, no tenders are received or accepted, in the case of any such public work, the Council may execute the same by means of their own workmen.

Article 21.—A payment shall not be made to a Contractor in respect of any public work, unless the Surveyor certifies :—

(a.) If the payment is to be made before the completion of the contract, that the payment may be so made under the terms of the contract.

(b.) In any case that the work in respect of which the payment is to be made has been executed in accordance with the contract.

An application on the part of a Contractor for payment shall not be considered unless the certificate of the Surveyor recommending the payment is produced to the Council, which certificate the Surveyor shall give, on being asked to do so by the Contractor, unless he may deem it desirable to withhold such certificate, in which case he shall state in writing for the information of the Council his reasons for refusing to give same.

Article 22. (1).—Contracts may provide for payments to a Contractor—

(a.) Where the contract is for a work of maintenance and for a term of years, at any periods, not exceeding a quarter of a year, for work executed during that period ; and

(b.) In the case of any other contract, for the payment to the Contractor at intervals of not less than a quarter of a year, of such proportion not being more than three-fourths of the sums expended by him on the contract or as may be specified in the contract.

(2.) Where no special provision is made by the contract in accordance with this article, a payment shall not be made to the Contractor until the completion of the contract, without the sanction of the Local Government Board.

Article 23.—The Surveyor in the exercise of any powers or duties given by these rules shall conform, as far as practicable, with any directions that may be given to him by the Council in carrying out these duties.

Article 24.—The Council may make such arrangements as they see fit with respect to such printing as is required in connection with the business transferred to them by the Act.

Article 25.—(1.) Where any notice is to be published under these rules, that notice or document shall be published by fixing copies of it on the Offices of the Council and on the door of every police station in the area within which it is to be

published, and also at such other places (if any) as the Council may direct; and if the Council think fit also by advertising it in any newspaper circulating within the area.

(2.) When any notice or document is to be published under these rules, that notice or document shall be open for inspection, gratis, at all reasonable hours at the Offices of the Council.

Article 26.—The Council may, with the sanction of the Local Government Board, employ a Member of an Institute of Civil Engineers or other qualified or competent person to prepare the contract drawings, specifications, form of tender, and other documents, and superintend the construction of any public work within the District in case the Council may not consider it convenient or desirable to require their Surveyor to undertake the same. The person so appointed shall perform such duties in relation thereto and have such powers as are hereinbefore prescribed for Surveyors, and shall receive such remuneration, whether by way of fees or otherwise, as the Local Government shall approve, and shall be deemed to be a Surveyor in relation to any such work within the meaning of the preceding articles.

(3.) THE RENT RECEIPT BOOK (Form 17).

Examination and Settlement of Accounts.

Article 7.—(1.) No payments shall be made unless by an Order of the Council made at a Stated Finance Meeting held as hereinafter provided; the payments made at each Stated Finance Meeting shall be in respect of goods supplied, work done, or liabilities incurred not later than the close of the preceding month. The Stated Finance Meeting of each Council shall be such Meeting as the Council shall, by Standing Orders made by them under Article 36 (10) (xiv.) of the Local Government (Application of Enactments) Order, 1898, appoint; provided that not more than one Stated Finance Meeting shall be held in any month. The Receipts reported by the Treasurer to the Council, and the Payments ordered by them, at each Stated Finance Meeting, shall be kept distinct, and shall be entered and totalled on a separate Statement. At the Ordinary Meeting next following each Stated Finance Meeting, the Statements, having

been first certified at foot by the Clerk, shall be submitted for confirmation by the Council, and, when examined and confirmed, shall be signed at foot by the Chairman of the Meeting.

(2.) No bill or demand against the Council exceeding £1 shall be payable at any Stated Finance Meeting, unless and until it shall have been allowed, either by the Council or by some Committee or person specially authorized by them for that purpose, nor unless it shall have been in the hands of the Clerk two clear days at the least before the day of such Meeting. All payments out of the District Fund shall be made in conformity with the provisions of Article 18 (1) of the Local Government (Application of Enactments) Order, 1898, by means of an Order, including several payments (Form 18), which Order shall be signed by the Chairman and two Members present at a Meeting of the Council, and countersigned by the Clerk. Payments not exceeding £1 by the Clerk in respect of Petty Disbursements, made by direction of the Council, or on his own authority in case of urgency, are to be brought into the Financial Statement Book of Expenditure in the following manner. Having regard to the average amount of such payments, the Council shall fix, as a normal balance, a sum which will be sufficient to meet all such payments for one month. At each Stated Finance Meeting the Clerk shall produce a list of his expenditure since the last settlement of his account, classified on the lines of the Financial Statement Book, with vouchers, and the Council having examined the list and vouchers shall, by the issue of an order for the total amount of such expenditure, reinstate his balance at the normal amount, and the expenditure shall be classified in the Financial Statement Book in the same way as all other expenditure.

(3.) After each Stated Finance Meeting of the Council, the Clerk shall forthwith deliver or transmit by post to every person in whose favour a payment is so ordered at the said Meeting a negotiable Paying Order or advice (Form 19), duly signed by him.

(4.) All bills and demands shall be brought in within six days at the furthest after the expiration of the half-year in which they were incurred, and shall be forthwith examined, and, if found correct, shall be paid at the next Stated Finance Meeting, and be included in the accounts of the half-year.

(5.) The Clerk shall, before each Stated Finance Meeting, procure from the Treasurer a statement of the sums of money and Paying Orders which the Treasurer shall have received and paid since his last statement, and shall lay the same before the said Meeting; and the Chairman of the Council shall affix his signature to the said book or statement of the Treasurer, when the accuracy thereof shall have been ascertained.

(6.) The Clerk shall enter from the Treasurer's Book in the proper column of the Financial Statement Book of Expenditure (Form 3) the date on which the amount of each Paying Order was paid by the Treasurer, as appearing in the Treasurer's Book.

(7.) The Council, in the examination and passing of bills, shall refer to the counterparts in the Order Check Book (Form 8) of the Orders sanctioning the expenditure, and shall in all cases, require the party to whom the order was issued to produce it.

Closing Accounts, Half-yearly Abstracts and Audit.

Article 8.—The Clerk shall make up and balance the Accounts of the Council at the end of every half-year ending on the 30th day of September, and the 31st day of March, and shall prepare therefrom and from the other Records of the Council, Abstracts thereof (Forms 20, (A) and (B), and 21 (A), (B), (C), and (D), which Abstracts shall be forwarded to the Auditor appointed for the District, within one month after the close of the half-year.

Article 9.—The Auditor shall give to the Clerk ten clear days notice (Form 22) of the day appointed for auditing the Accounts of the Council, and the Clerk shall, after receiving such notice, give six clear days notice of the time and place at which such audit shall be held, in the following manner:—

- (a.) By causing to be exhibited on the external gate or door of the place of meeting of the Council a notice (Form 23), and continuing to keep the same so exhibited until the day appointed for such audit.
- (b.) By an advertisement in the same form in some one or more of the public newspapers circulating in the District.

The Clerk shall also give due notice to the Treasurer of this appointment, and shall send to the several other Officers of the Council, who are bound to account, a notice in the Form 24.

Article 10.—The Clerk shall, six clear days before the day appointed for auditing the Accounts of the Council, deposit the said Abstracts and Books in the Board Room of the Council; and shall permit the said Abstracts and Books to be inspected, examined, and copied by or on behalf of any body or person interested, at any reasonable hour of the day (not being Sunday or a Bank holiday), when the Council shall not be sitting, after they shall be so deposited and previous to the day appointed for the auditing thereof.

Article 11.—Before each Audit the Clerk shall carefully prepare and verify three fair copies of the Abstracts of Accounts (Forms 20 and 21), and shall submit same to the Auditor who, at the conclusion of the Audit shall attest them, and shall deal with them as provided in Article 12 of this Order.

Article 12.—Within fourteen days after the completion of each Audit, the Auditor shall make a report to the Local Government Board upon the Accounts audited and examined by him, and shall transmit with such report the three attested copies of the Abstract of Accounts (Forms 20 and 21) submitted to him as hereinbefore provided. The Local Government Board shall retain one of the Abstracts, and shall furnish the District Council and the County Council with a copy of the Auditor's Report, and with one of the attested Abstracts received therewith. Upon receipt of the Auditor's Report and Abstract of Accounts the Clerk of the District Council shall forthwith publish the same in some one or more of the public newspapers circulating in the District, and shall also, within one month after each audit, furnish to each member of the District Council a copy of the Auditor's Report and of the Abstract of Accounts.

Article 13.—If the Auditor shall be required by the Local Government Board to hold an extraordinary audit, either of the whole or of any portion of the Accounts, in addition to the ordinary audit, all the provisions herein contained with reference to the ordinary audit shall, so far as they may be applicable, apply to such extraordinary audit.

Article 14.—The Clerk and the other Officers of the Council who by law are liable to account shall attend at the time and place appointed for the audit of their Accounts, and shall submit all Books and Accounts which they are respectively required to keep by this or any other Order of the Local Government Board, or by the Council, together with all documents and vouchers containing or relating to such Books or Accounts.

Article 15.—In auditing the Accounts, the Auditor shall see that they have been kept, and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail, and that the payments are supported by adequate vouchers and authority. He shall ascertain whether all sums received, or which ought to have been received, are brought into account, and shall examine whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as he shall deem to be exorbitant; shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss; and shall disallow and strike out such payments as are not authorised by law. If the Auditor finds that any money, goods, or chattels belonging to the Council, have been purloined, embezzled, wasted, or misapplied, or that any deficiency or loss has been incurred by the negligence or misconduct of any Officer or other person accounting, and shall surcharge such Officer or person with such amount or value in his account, he shall submit a statement of such surcharge to the Council as soon as he conveniently can do so. The sums so surcharged shall be recoverable in the manner provided by the Act, 10 Victoria, chapter 31, section 28, and all such sums surcharged, disallowed, or struck out, shall also be recoverable in the same manner as Balances are recoverable under the provisions of the Irish Poor Relief Acts.

Article 16.—The Auditor shall examine and collate the several Books and Forms of Accounts; and shall ascertain that the several entries correspond with and balance each other, where such balance may be required; but in case of any error caused by inadvertence or accident in any Account, he may make the necessary correction, or require the Officer rendering it to do so, and the Auditor shall then deal with the Account so corrected.

Article 17.—No erasures shall under any circumstances be made in any of the Records or books of Account prescribed by this Order; in case it should be found necessary to make an alteration in any entry, it must be done by striking out the figure to be altered, and by writing above or beside it the figure that is to take its place. The folios or pages, as the case may be, of all such Records or Books of Account should be numbered consecutively by the printer, and no leaf or leaves of any bound book so numbered shall be removed from the book.

Article 18.—The Auditor shall receive any objection made by or on behalf of any body or person interested or aggrieved, against the Accounts undergoing audit, or any item or charge therein, or any vouchers or authority for the same; he may, if he thinks fit, require such objection to be put in writing, and shall examine into the merits thereof.

Article 19.—If the Auditor shall doubt the correctness of any account, or any item or charge in any account, he may by summons under his hand and seal require any person to attend before him at any audit or adjournment thereof for the purpose of giving any information or evidence upon any matter connected with the Accounts of any Officer of the Council liable to account, and may make inquiry into any such matter, and may administer oaths, and may examine all such persons upon oath, and may require and enforce the production upon oath of Books, Contracts, Agreements, Accounts, Maps, Plans, Surveys, Valuations, and Writings, or copies thereof. respectively, in any wise relating to such matter, or where the Auditor shall think fit, in lieu of requiring such oaths as aforesaid, he may require any such person to make and subscribe a declaration of the truth of the matters respecting which he shall have been or shall be so examined.

Article 20.—The personal representatives of an Officer accountable under this Order who dies before the audit of his Accounts, shall account, in conformity with the provisions herein contained, in the place of such deceased Officer, and all regulations affecting the Accounts of such Officer shall, so far as may be otherwise lawful, affect the Accounts of his personal representatives.

Article 21.—The Auditor having audited the several Accounts in the Ledger, shall append his signature and date of audit at foot of the Balance Sheet.

(a.) In order to facilitate the checking of these payments and their totals with the corresponding particulars in the Treasurer's authority for making the payments, Form 18 should be ruled so as to be able to contain the same number of Paying Orders as is contained in one folio of this Statement. If the Payments ordered at any Stated Finance Meeting exceed the number of lines in a folio of this Statement, or in the Treasurer's authority, a additional folio of the Statement, and additional copies of Form 18 should be used. In each Form 18 used, the total shown must be the total of the payments thereby authorised; but in this Statement the totals are to be carried forward as so finally to show the total amount of Payments for the month and the Gross Total, including same, to be carried forward.

Where the number of Orders issued for any month exceeds the number of lines on one Folio of this Form the totals to be carried forward at foot shall be entered in red ink in the spaces opposite the words "Ledger folio to which posted," and shall be entered in red ink at the top of the next folio under the Gross Totals brought forward. In this manner the totals for the month can be made and posted to the General Ledger in one sum, and one addition at the end of the month's transactions will bring out the Gross Total to be carried forward.

No. 161 M. 1899.

GENERAL ORDER

FOR REGULATING THE DISTRICTS, QUALIFICATIONS, SECURITY, REMUNERATION, AND DUTIES OF THE COLLECTORS OF THE POOR RATE APPOINTED BY THE COUNCIL OF EACH ADMINISTRATIVE COUNTY (NOT BEING A COUNTY BOROUGH), AS CONSTITUTED UNDER THE LOCAL GOVERNMENT (IRELAND) ACT, 1898.

To the Councils of the several Administrative Counties (other than County Boroughs), constituted under the Local Government (Ireland) Act, 1898;

To the Collectors of the Poor Rate from time to time appointed by the said Councils;

And to all others whom it may concern.

In pursuance of the powers vested in Us by the Poor Relief (Ireland) Act, 1838, and the Acts amending the same, We, the Local Government Board for Ireland, do hereby, from the 31st day of March, 1899, rescind all Orders, and all such parts of any Orders, now in force as relate to the districts, qualifications, security, remuneration, and duties of the Collectors of the Poor Rate, except in so far as may be necessary to meet the requirements of Article 40 (1) of the Local Government (Application of Enactments) Order, 1898.

And We hereby Order and direct as follows:—

Article 1.—This Order may be cited as “The County (Poor Rate Collectors) Order, 1899.”

Article 2.—This Order shall not apply to a County Borough.

Article 3.—The several regulations in this Order contained shall, from and after the 31st day of March, 1899, be observed in regard to the districts, qualifications, security, remuneration, and duties of all Collectors of the Poor Rate appointed from time to time by the

Councils of the several Counties in Ireland (not being County Boroughs) for the purpose of collecting the Poor Rate under the Local Government (Ireland) Act, 1898 (hereinafter referred to as "the Act").

Appointment and Districts.

Article 4.—The County Council shall, subject to the approval of the Local Government Board, appoint from time to time such and so many persons as they may deem expedient to collect and levy the Poor Rates made on the several Rural Districts, and shall assign to each such Collector such portion of each Rural District as the Local Government Board may approve. The portion so assigned to a Collector is hereinafter referred to as a "Collection District." Each Collection District shall be situate wholly within one Rural District; but this shall not prevent the County Council from assigning to the same person more than one Collection District.

Article 5.—The Collectors so appointed shall respectively perform the duties required of them in such manner as may be prescribed by this or any other General Order of the Local Government Board in force at the time, or by any special Order which may be made by the Local Government Board from time to time, affecting any particular County or Collection District or Districts, and shall discharge all such other duties conformable with the nature of their respective offices, as the County Council may lawfully require them to perform.

Article 6.—The County Council may, from time to time, with the consent of the Local Government Board previously obtained, make any change in the division of the County into Collection Districts. Notice of the intention to propose such change shall be given by one of the members of the Council in such manner as may be prescribed by the Standing Orders of the County Council.

Article 7.—Every Collector to be appointed under this Order shall be appointed by a majority of the members present at any meeting of the County Council, in the manner directed by Article 36 (10) of the Local Government (Application of Enactments) Order, 1898; and every such appointment shall, as soon as the same shall have been made, be reported to the Local Government Board by the Secretary of the County Council.

Qualifications.

Article 8.—(1.) No person shall be qualified to be elected to, or to hold the office of Collector of the Poor Rate:—

- (a) Who is a member of any County or District Council, or of a Board of Guardians; or the partner in business of any such member, and the disqualification shall apply to any person and his partners in business during six months next after such person has ceased to be such member;

- (b) who is engaged in retail trade of any kind;
- (c) whose wife, or any member of his family, with whom he resides, is engaged in such retail trade;
- (d) who has, within twelve months before his election, or since his election, received Union relief; or
- (e) who has, within five years before his election, or since his election, been convicted, either on indictment or summarily, of any crime, and sentenced to imprisonment with hard labour without the option of a fine, or to any greater punishment, and has not received a free pardon, or has, within or during the time aforesaid, been adjudged bankrupt, or made a composition or arrangement with his creditors; or
- (f) who holds any other paid office or place of profit under or in the gift or disposal of the Council; or
- (g) who is a woman; or
- (h) who is under twenty-one years of age.

(2.) This Article shall be subject to such modifications in the case of existing officers who shall be transferred under Section 115 of the Act, as the Local Government Board shall in each case approve.

Security.

Article 9.—(1.) The County Council shall require every person appointed, or to be hereafter appointed to the office of Collector of the Poor Rate, to give a Bond (Form 1.) to the County Council with two sufficient sureties, not being members of the County or any District Council, or of any Board of Guardians in the County, conditioned in a penalty of such sum as the County Council, with the approval of the Local Government Board, may appoint, for the due and faithful performance of the duties of the office; and shall, from time to time, call upon each such Collector to supply a fresh Surety in place of any such Surety who may die, or become a County or District Councillor, or a Guardian, or become bankrupt or insolvent, or be released from his obligation with the consent of the Local Government Board; and every such officer shall give immediate notice to the Secretary of the County Council of the death, insolvency, or bankruptcy of either of his Sureties, and shall forthwith supply a fresh Surety in the place of any Surety previously supplied by him.

(2.) The Form of Warrant of Attorney to confess judgment shall in all cases be duly executed by the Collector and his Sureties, shall be addressed to the solicitor, or solicitors, authorized by the County Council to act on their behalf, and shall be filed in the proper office of the High Court of Justice, and within the time prescribed in that behalf.

(3). The County Council may, with the sanction of the Local Government Board, accept, in lieu of, or in addition to security of the nature above referred to, the guarantee of any company or society securing, in case that the duties of the Collector have not been duly and faithfully performed, payment to the County Council of such sum as the County Council, with such sanction as aforesaid, shall direct. Every such guarantee shall be in the same form as the bond in a case where sureties are accepted, or with such modifications as the Local Government Board may approve, but omitting the Warrant of Attorney to confess judgment.

Continuance in Office and Suspension of Officers: Supply of Vacancies.

Article 10.—Every Collector shall, subject to the provisions of Article 11 of this Order, continue to hold office until he die, or resign, or be removed by the Local Government Board, and every such death or resignation shall be reported to the Local Government Board.

Article 11.—The County Council may, at their discretion, suspend from the discharge of his duties any Collector of the Poor Rate, and shall thereupon demand from him the surrender of his Warrant, which surrender the Collector is hereby directed to make. The Council shall forthwith report such suspension, together with the cause thereof, to the Local Government Board, and if the Local Government Board shall remove such suspension, such Collector shall again receive his Warrant, and remain in office and continue to discharge his duties; but if the Local Government Board shall decide not to remove such suspension, the County Council shall, on being informed of such decision of the Local Government Board, dismiss such Collector.

Remuneration.

Article 12.—Every Collector of the Poor Rate shall be remunerated for his services according to the following scale:—

- (1.) On all moneys collected and lodged within four months after he shall have received his Warrant, such poundage rate as the County Council, with the approval of the Local Government Board shall have fixed;
- (2.) On all moneys collected and lodged after the expiration of the above-mentioned period, but within the financial half-year, one-half the said poundage rate;

the amount of the said Order shall be lodged by the Treasurer to the credit of the Subsidiary Account to meet payments under the above sub-heads for the ensuing quarter.

(10.) The expenditure made in each Quarter through the Subsidiary Account shall be tabulated and classified in a separate Book of Account on the lines of the Financial Statement Book (Form 3), so as to admit of the totals under each head being posted directly to the proper Account in the General Ledger.

(11.) Subject to the provisions hereinbefore contained, all bills and demands, other than sums payable on foot of proposals, shall be brought in within six days at the furthest after the expiration of the half-year in which they were incurred, and shall be forthwith examined and, if found correct, shall be paid at the next Quarterly Meeting, and be included in the accounts of the half-year.

(12.) The Secretary shall, before each Quarterly Meeting, procure from the Treasurer a statement showing for each account for the County the sums of money and Paying Orders which the Treasurer shall have received and paid since his last statement, and shall lay the same before the said Meeting; and the Chairman of the Council shall affix his signature to the said books or statements of the Treasurer, when the accuracy thereof shall have been ascertained.

(13.) The Secretary shall enter from the Treasurer's Book, in the proper column of the Financial Statement Book of Expenditure (Form 3), the date on which the amount of each Paying Order was paid by the Treasurer, as appearing in the Treasurer's Book.

(14.) The Council, in the examination and passing of bills, shall refer to the counterparts in the Order Check Book (Form 7) of the Orders sanctioning the expenditure, and shall in all cases require the party to whom the order was issued to produce it.

(15.) After each Quarterly Meeting the Secretary shall transmit to the Clerk of the Council of each District in the County a Return containing particulars of all payments made on foot of proposals for payments made by the District Council and considered and in whole or in part adopted by the County Council at the Quarterly Meeting.

AUDIT.

Closing Accounts and Half-Yearly Abstracts.

Article 8.—The Secretary shall make up and balance the Accounts of the Council at the end of every half-year ending on the 30th day of September, and the 31st day of March, and shall prepare therefrom, and from the other records of the Council, an Abstract thereof (Form 18, (a), (b), (c), (d), (e), (f), (g), (h), (i), (k), (l), which Abstract shall be forwarded to the Auditor appointed for the District, within one month after the close of the half-year.

Article 9.—The Auditor shall give to the Secretary ten clear days notice (Form 19) of the day appointed for auditing the Accounts of the Council, and the Secretary shall, after receiving such notice, give six clear days notice of the time and place at which such audit shall be held, in the following manner:—

- (a.) By causing to be exhibited on the external gate or door of the place of meeting of the Council a notice (Form 20), and continuing the same so exhibited until the day appointed for such audit.
- (b.) By an advertisement in the same form in some one or more of the public newspapers circulating in the County.

The Secretary shall also give due notice to the Treasurer of this appointment, and shall send to the several other Officers of the Council, who are bound to account, a notice in the Form 21.

Article 10.—The Secretary shall, six clear days before the day appointed for auditing the Accounts of the Council, deposit the said Abstract and Books in the Board Room of the Council; and shall permit the said Abstract and Books to be inspected, examined, and copied by or on behalf of any body or person interested, at any reasonable hour of the day (not being Sunday or a bank holiday), when the Council shall not be sitting, after they shall be so deposited and previous to the day appointed for the auditing thereof.

Article 11.—Before each Audit the Secretary shall carefully prepare and verify two fair copies of the Abstract of Accounts (Form 18), and shall submit same to the Auditor, who at the conclusion of the Audit shall attest them, and shall deal with them as provided in Article 12 of this Order.

Article 12.—Within fourteen days after the completion of each Audit the Auditor shall make a report to the Local Government Board upon the Accounts audited and examined by him, and shall transmit with such report the two attested copies of the Abstract of Accounts (Form 18) submitted to him as hereinbefore provided. The Local Government Board shall retain one of the Abstracts, and shall furnish the other to the County Council, with a copy of the Auditor's Report. Upon receipt of the Auditor's Report and Abstract of Accounts, the Secretary shall forthwith publish the Report and the General Summary (Form 18, Table (f),) to which he shall append a copy of the Auditor's certificate as at foot of the Abstract, in some one or more of the public newspapers circulating in the County, and shall also within one month after each audit furnish to each member of the County Council, and to the Clerk of each Union and of each Urban and Rural District Council in the County, a copy of the Auditor's Report and of the Abstract of Accounts.

Article 13.—If the Auditor shall be required by the Local Government Board to hold an extraordinary audit, either of the whole or of any portion of the Accounts, in addition to the ordinary audit, all the provisions herein contained with reference to the ordinary audit shall, so far as they may be applicable, apply to such extraordinary audit.

Article 14.—The Secretary and the other Officers of the Council who by law are liable to account shall attend at the time and place appointed for the audit of their Accounts, and shall submit all Books and Accounts which they are respectively required to keep by this or any other Order of the Local Government Board, or by the Council, together with all documents and vouchers relating to such Books or Accounts.

Article 15.—In Auditing the Accounts, the Auditor shall see that they have been kept and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail, and that the payments are supported by adequate vouchers and authority. He shall ascertain whether all sums received, or which ought to have been received, are brought into account, and shall examine whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as he shall deem to be exorbitant, shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss, and shall disallow and strike out such payments as are not authorised by law. If the Auditor finds that any money, goods, or chattels belonging to the Council have been purloined, embezzled, wasted, or misapplied, or that any deficiency or loss has been incurred by the negligence or misconduct of any Officer or other person accounting, and shall surcharge such Officer or person with such amount or value in his account, he shall submit a statement of such surcharge to the Council as soon as he conveniently can do so. The sums so surcharged, disallowed, or struck out, shall be recoverable in the same manner as Balances are recoverable under the provisions of the Irish Poor Relief Acts.

Article 16.—The Auditor shall examine and collate the several Books and Forms of Accounts; and shall ascertain that the several entries correspond with and balance each other, where such balance may be required; but in case of any error caused by inadvertence or accident in any account, he may make the necessary correction or require the Officer rendering it to do so, and the Auditor shall then deal with the account so corrected.

Article 17.—No erasures shall under any circumstances be made in any of the records or books of account prescribed by this Order; in case it should be found necessary to make an alteration in any entry it must be done by striking out the figure to be altered and by writing above or beside it the figure that is to take its place. The folios or pages, as the case may be, of all such records or books of account should be numbered consecutively by the printer, and no leaf or leaves of any bound book so numbered shall be removed from the book.

Article 18.—The Auditor shall receive any objection made by or on behalf of any body or person interested or aggrieved, against the Accounts undergoing audit, or any item or charge therein, or any vouchers or authority for the same; he may, if he thinks fit, require such objection to be put in writing, and shall examine into the merits thereof.

Article 19.—If the Auditor shall doubt the correctness of any account, or any item or charge in any account, he may by summons under his hand and seal require any person to attend before him at any audit or adjournment thereof for the purpose of giving any information or

evidence upon any matter connected with the Accounts of any Officer of the Council liable to account, and may make inquiry into any such matter, and may administer oaths, and may examine all such persons upon oath, and may require and enforce the production upon oath of Books, Contracts, Agreements, Accounts, Maps, Plans, Surveys, Valuations, and Writings, or copies thereof, respectively, in any wise relating to such matter, or where the Auditor shall think fit, in lieu of requiring such oaths as aforesaid, he may require any such person to make and subscribe a declaration of the truth of the matters respecting which he shall have been or shall be so examined.

Article 20.—The personal representatives of an Officer accountable under this Order, who dies before the audit of his Accounts, shall account, in conformity with the provisions herein contained, in the place of such deceased Officer, and all regulations affecting the Accounts of such Officer shall, so far as may be otherwise lawful, affect the Accounts of his personal representatives.

Article 21.—The Auditor having audited the several Accounts in the Ledger shall append his signature and date of audit at foot of the Balance Sheet.

*Article 22.—(1.) At a Meeting (which may be either a Quarterly Meeting or a Special Meeting, to be summoned for the purpose) to be held not later than the 31st day of January in each financial year, the Council of every Rural District shall prepare an estimate of their liabilities and expenditure to be provided for during the next ensuing financial year by the County Council, and a demand for the amount of same, and shall forward a copy of this estimate and demand to the Local Government Board and to the Council of the County.

(2.) If any Rural District Council shall at such Meeting neglect or refuse to prepare such estimate and demand, it shall be the duty of the Clerk of such Council to prepare and furnish the same within one week after the 31st January in each year.

(3.) The provisions of this Order shall apply to Boards of Guardians and their Clerks with the necessary modifications.

(5.) At a Quarterly Meeting (or at any other meeting or meetings to be specially summoned for the purpose), to be held after the 8th day of February, but not later than the 1st day of March in each financial year, every County Council shall cause to be submitted to them an estimate of the liabilities and requirements during the next financial year of the County Council, and of all spending authorities, other than

* Sub-sections (1) to (5) are printed as amended by an Order of the Local Government Board for Ireland dated November 22, 1899.

Urban District Councils, so far as relates to areas within the County. If there shall be any such spending authority from whom or on behalf of whom the County Council have not before the 8th day of February, in any year, received an estimate and demand as prescribed by the foregoing provisions of this Order, the County Council shall include in their estimate such sum, by way of provision for the liabilities and requirements of that authority, as they may deem sufficient. The County Council shall at such meeting determine the rates in the pound to be levied in each Rural District in the County in respect of County, District, Union, and separate charges respectively, and shall cause to be prepared and signed the demand (Form 26 in Principal Order) on each Urban District in the County. Such demands shall be transmitted by the Secretary of the Council to the Clerk of each Urban District Council as soon as may be after signature.

A copy of the Estimate of Rates (Forms 24 and 25 in the Schedule to this Order) adopted by the County Council shall be transmitted to the Local Government Board by the Secretary of the Council within twenty-one days after the meeting of the Council at which the rates shall have been determined.

(6.) The apportionments and calculations required to be made, under Section 51 of the Act, of the amounts payable by Urban District Councils in each County, in respect of the net sums to be levied off agricultural land, and off other hereditaments, respectively, and of the rates in the pound which, under the said Section, are to be specified in the demand note, shall be made in the manner and according to the directions given in Form 24 (a), (b), (c).

(7.) The apportionments and calculations necessary for the purpose of making the rates in respect of Separate Charges shall be made in the manner and according to the directions given in Form 25.

(8.) The communication by County Councils to Urban District Councils of the amounts required to be raised in each financial year in the Urban Districts, and the demand in respect of the same shall be according to Form 26 (a), (b).

(9.) Every County or Urban District Council upon whom a demand is made as aforesaid, shall comply with the said demand at the times and in the manner specified therein; provided that the County Council in the second six months of any financial year, shall not be required to raise any sum above the amount specified in the original estimate at the beginning of the financial year, unless they consider, or on appeal from the Council or Board sending the same, the Local Government Board shall decide, that such increase was under the circumstances unavoidable.

(10.) The sums payable by a County Council to a Rural District Council or a Board of Guardians shall be paid by means of an Order of the County Council (Form 27), made at a Quarterly Meeting, directing their Treasurer to transfer the said sums to the credit of the District or Union Fund, as the case may be, in the branch of any Bank which acts as Treasurer to the said District Council or Board of Guardians. After each Quarterly Meeting of the County Council, the Secretary shall forthwith transmit by post to the Treasurer of each District Council, and of each Board of Guardians to whose credit money is so transferred a notification or advice (Form 28).

MAKING OF RATES.

Article 23 —(1.) The County Council having, as hereinbefore provided, estimated the amounts to be raised off each Rural District or any part thereof, during each six months, in respect of General Charges and of each Separate Charge respectively, shall cause the several amounts so estimated to be assessed by an equal poundage rate upon the property liable thereto in accordance with the provisions of the Act, and shall cause a notice of their intention to make such rate to be published (Form 29). Immediately on receipt, from the Commissioner of Valuation, of the revised list of the tenements in each Rural District, the Secretary of the County Council shall prepare, in duplicate, books, including all particulars required for the Rate Book (Form 30), which are to be copied from the said list. The tenements in the Rate Book are to be arranged according to Collection Districts, and are to be numbered consecutively by a separate series of numbers for each Rural District.

(2.) In making any assessments of the poor rate in respect of General Charges, any fraction of less than a halfpenny shall be discarded, and fractions equal to, or greater than a halfpenny shall be reckoned as a penny.

(3.) Every assessment in a Rural District shall be separately made and assessed for each Rural District, shall be under the seal of the County Council, shall be publicly notified (Form 31), and be open for inspection to any ratepayer; and any ratepayer within three weeks after the notification may, if he feels aggrieved by such assessment, appeal to Sessions in accordance with Section 29 of the Local Government (Ireland) Act, 1871, and that section shall apply as if the poor rate were the rate, and the County Council the governing body therein mentioned, and in this Section "ratepayer" shall include any person receiving rent from which any rate is deducted.

(4.) The certified duplicate copy of the Rate Book for each Rural District to be furnished to the Clerk of the Union under Section 96 (1) of the Act, shall be furnished to him not later than three days after the day on which the rate is made.

(5.) The names of the Rural Districts in each County, having been first arranged in alphabetical order, there shall be assigned to each a distinguishing letter by which it shall be distinguished in all books and documents relating to the Poor Rate Collection in the Rural District.

Duties of Secretary in reference to Collection of the Poor Rate.

Article 24.—(1.) There shall be provided by the County Council for each Rural District a Rate Ledger (Form 32), in which shall be posted to credit of each holding on the discharge side the several amounts received in respect of rates collected from that holding.

(2.) Immediately on the making of a Rate by the County Council, the Secretary shall prepare and issue to each Collector of the Poor Rate with the Collecting Book, a Warrant (Form 33) for the collection of the Poor Rate within his Collection District. The Collecting Book, Receipt

and Demand Note shall be in the Form prescribed in the County (Poor Rate Collectors) Order, 1899. Before issuing this Book, the Secretary shall take care that the particulars given therein, so far as they purport to be extracted from the Rate Book, shall be correctly taken therefrom, and he shall, at the same time, have all forms of Receipt and Demand Note fully and accurately filled up before placing the Book in the hands of the Collector.

(3.) It shall be the duty of the Secretary, once at least in each fortnight, at the hour and on the day which he may appoint for the purpose, to examine the Poor Rate Collector's Book, Receipt and Demand Note, which shall then be produced to him by each Collector of the Poor Rate, and likewise the Treasurer's receipt for all lodgments made by such Collector since the last fortnightly examination of his accounts. In examining the said accounts the Secretary shall see that the entries in the Fortnightly Abstract and Advice Note, and in his Fortnightly Balance Sheet include all sums in respect of which the corresponding receipts have been detached from the Collecting Book since the last examination of his accounts. He shall enter his initials in the prescribed space in the Collecting Book, shall fill up the particulars required to be filled by him in the Collector's Fortnightly Advice Note, shall detach the same therefrom, and shall carry the particulars into the Rate Ledger (Form 32), into the Fortnightly Abstract of Poor Rate Collectors' Lodgments (Form 34), into the District Summary of the Fortnightly Abstract (Form 35), and into the Half-yearly Summary of Poor Rate Collectors' Lodgments (Form 36), and into any other books of account into which they are to be carried.

(4.) If the County Council deem it expedient, they may authorise the Secretary to appoint as his Deputy, for the discharge of the duties of examining and checking the books of the Collectors of the Poor Rate in any Rural District, the Clerk of any Union which is in whole or in part situate in the County, and in case any such Clerk shall refuse to act as such Deputy the County Council may, with the approval of the Local Government Board, appoint a competent person to discharge this duty. Every such Deputy, other than the Clerk of the Union in which the Rural District shall be situate, shall examine and check the said accounts in the Board Room of the said Union, and for that purpose shall have access to the copy of the Rate Book supplied to the Clerk of the Union by the County Council under Section 96 of the Act.

(5.) Every Deputy appointed for the examination and checking of the Collector's Books shall be entitled to receive from the County Council, as remuneration for the discharge of such duties, a sum equivalent to five shillings for every hundred ratings included in the Collection District or Districts assigned to him, such payment to be made at the Quarterly Meeting next following the close of each half year.

GENERAL ORDER

FURTHER REGULATING the SECURITY, REMUNERATION, and DUTIES of the COLLECTORS of the POOR RATE appointed by the COUNCIL of each ADMINISTRATIVE COUNTY (not being a COUNTY BOROUGH) as constituted under the Local Government (Ireland) Act, 1898

To the Councils of the several Administrative Counties (other than County Boroughs) constituted under the Local Government (Ireland) Act, 1898 ;

To the Collectors of the Poor Rate from time to time appointed by the said Councils ;

And to all others whom it may concern.

WHEREAS, by Article 12 of "The County (Poor Rate Collectors) Order, 1899," (hereinafter referred to as the principal Order), made by Us, the Local Government Board for Ireland, on the 17th day of April, 1899, We did prescribe as follows :—

"Article 12.—Every Collector of the Poor Rate shall be remunerated for his services according to the following scale :—

"(1.) On all moneys collected and lodged within four months after he shall have received his warrant, such poundage rate as the County Council with the approval of the Local Government Board shall have fixed ;

"(2.) On all moneys collected and lodged after the expiration of the above mentioned period, but within the financial half-year, one-half the said poundage rate.

"Provided that no sums by way of remuneration shall, under any circumstances, be payable in respect of rates not collected and lodged within the financial half-year for the service of which the same was levied.

"Provided also that no payments in respect of poundage shall be made to any Collector until the Quarterly Meeting first held after the close of the said half-year, unless he shall have previously completed his collection to the satisfaction of the County Council."

And Whereas, by Article 9 of the principal Order, We did direct that every person appointed, or to be appointed, to the Office of Collector of Poor Rate should be required to give a bond to the County Council in the Form 1 to that Order annexed, with two sufficient sureties, conditioned in a penalty, for the due and faithful performance of the duties of the Office :

And Whereas it has been represented to Us by certain County Councils that it is expedient that certain conditions alternative to those contained in the said Articles of the principal Order should be prescribed :

Now, Therefore, We, the Local Government Board for Ireland, do hereby order and direct that it shall be lawful for any County Council, should they see fit, to proceed as though the provisions in the following Articles of this Order were alternative to the above-recited provisions of the principal Order.

Article 1.—Every Collector of Poor Rate shall be entitled to receive remuneration for his services as follows;—

On all moneys collected and lodged in each half-year before the 30th day of September and 31st day of March, respectively, he shall be paid such poundage rate as the County Council, with the approval of the Local Government Board, shall have fixed.

Provided that no poundage shall be paid by the County Council to any Collector of Poor Rate appointed under the provisions of this Order, unless a certificate signed by the Secretary to such Council, to the effect that the entire amount named in the Warrant of such Collector has been duly and properly lodged with the Treasurer of the County Council to their credit, is attached to his application for payment.

Article 2.—The provisions of the said Article 9 shall be adapted to accord with those of Article 1 of this Order, and the Form of the Bond and Warrant to confess judgment required to be given by the Collector shall, where a County Council elect to proceed under this Order, in lieu of the provisions as to remuneration and security prescribed by the principal Order, be in such form and subject to such conditions as We, on the application of the County Council concerned, may approve.

Article 3.—The County Council shall, at their first quarterly meeting after the close of each half year, make an Order for the payment to each Collector of Poor Rate of such amounts, included in his warrant and lodged by him, as he shall prove to the satisfaction of the County Council, and to our satisfaction, to be irrecoverable, and such amounts shall be raised and levied either upon the county or district on which the same had been assessed as the County Council may direct.

Provided that ten days before such quarterly meeting a list of the irrecoverable arrears in respect of which payment is intended to be claimed by the Collector shall be posted by the Collector at the office of each District Council and adjacent to each place of Public Worship in his Collection District

Security.

Article 9.—(1.) The Council shall require every person appointed, or to be hereafter appointed to the office of Collector of the Poor Rate, to give a Bond (Form 1) to the Council with two sufficient sureties, not being members of the Council, or of the Board of Guardians of any Union in which the County Borough or the Urban District may be wholly or partially situate, conditioned in a penalty of such sum as the Council, with the approval of the Local Government Board, may appoint, for the due and faithful performance of the duties of the office; and they shall, from time to time, call upon each such Collector to supply a fresh Surety in place of any such Surety who may die, or become a member of the Council, or a Guardian of any such Union as aforesaid, or become bankrupt or insolvent, or be released from his obligation with the consent of the Local Government Board; and every such officer shall give immediate notice to the Town Clerk of the death, insolvency, or bankruptcy of either of his Sureties, and shall forthwith supply a fresh Surety in the place of such Surety.

(2.) The Form of Warrant of Attorney to confess judgment shall in all cases be duly executed by the Collector and his Sureties, shall be addressed to the Solicitor, or Solicitors, authorised by the Council to act on their behalf, and shall be filed in the proper office of the High Court of Justice in Ireland, and within the time prescribed in that behalf.

(3.) The Council may, with the sanction of the Local Government Board, accept, in lieu of, or in addition to, security of the nature above referred to, the guarantee of any Company or Society securing, in case that the duties of the Collector have not been duly and faithfully performed, payment to the Council of such sum as the Council, with such sanction as aforesaid, shall direct. Every such guarantee shall bind the Guarantors to indemnify and save harmless the Council in any of the events mentioned in the said Form of Bond, subject to such modifications as the Local Government Board may approve.

Continuance in Office and Suspension of Officers: Supply of Vacancies.

Article 10.—Every Collector shall, subject to the provisions of Article 11 of this Order, continue to hold office until he die, or resign, or be removed by the Local Government Board, and every such death or resignation shall be forthwith reported to the Local Government Board.

Article 11.—The Council may, at their discretion, suspend from the discharge of his duties, any Collector of the Poor Rate, and shall thereupon demand from him the surrender of his Warrant, which surrender the Collector is hereby directed to make. The Council shall forthwith report such suspension, together with the cause thereof, to the Local Government Board, and if the Local Government Board shall remove such suspension, such Collector shall again receive his Warrant, and remain in office, and continue to discharge his duties; but, if the Local Government Board shall decide not to remove such suspension, the Council shall, on being informed of such decision of the Local Government Board, dismiss such Collector.

Remuneration.

Article 12.—Every Collector of the Poor Rate shall be remunerated for his services according to such scale as may from time to time be appointed by the Council with the approval of the Local Government Board.

Provided that no sums by way of remuneration shall under any circumstances be payable in respect of rates not collected and lodged within the financial half-year for the service of which the same was levied.

Duties of Poor Rate Collectors.

Article 13.—The following shall be the duties of the Collectors of the Poor Rate:—

- (1.) To keep all books required to be kept by the orders of the Local Government Board, or other lawful authority, and make all returns which relate to the collection of the Poor Rate within his District.
- (2.)—To collect, with due diligence, all moneys payable on account of such Rate for the District for which he may be so constituted or appointed Collector, and to take all lawful and proper steps for enforcing the payment of any Rate not duly paid.
- (3.)—To issue a demand note to the person rated for each holding in such form as the Council, with the approval of the Local Government Board, shall prescribe, and also on receiving payment of any rate a receipt (Form 3), as numbered and furnished to him by the Town Clerk, and to give no other receipts for any Rate whatever.

- (4.)—To lodge with the Treasurer of the Council all moneys collected by him up to and including the Saturday preceding the day appointed for the checking of his accounts as hereinafter mentioned, and to take a receipt (Form 4), from the said Treasurer for every such lodgment. Provided that such lodgments shall be made so often as the Collector shall have collected Fifty Pounds, or daily if the Council shall so direct.
- (5.)—To prepare the Weekly Abstract and Advice Note (Form 5); to keep the Weekly Balance Sheet (Form 6); to fill up the entries required to be made therein, with regard to all sums collected and lodged by him, and to submit the same once every week, with his Collecting Book and Treasurer's Receipts, to the Town Clerk or other proper officer to be checked and examined by him in the manner hereinafter prescribed.
- (6.)—To attend such Meetings of the Council as the Council may require him to attend; to produce the several books which he is required to keep; and to lay before them a summary of the state of his collection, together with the receipts of the Treasurer for all sums paid in since the last meeting at which his books and receipts were submitted by him to the Council.
- (7.)—To collect and record in the proper column appointed for that purpose in his Collecting Book (Form 2), and to supply to the Town Clerk or to the Clerk of the Union, all such information as he may be required to supply, for the purposes of the Valuation Acts, the Representation of the People Acts, the Registration Acts, and the Juries (Ireland) Acts, or any of them; to serve such notices in connection therewith as he may be required to serve; to attend the Town Clerk or the Clerk of the Union, so as to render all necessary information and assistance in the compilation of the Lists of Electors and Jurors; and to attend all Revision Courts at the times when the respective lists of persons for his Collection District may be undergoing revision.
- (8.)—Subject to the provisions of Section 83 (2) of the Act, every Collector of the Poor Rate shall perform his duty in person and not by deputy.

Duties of Town Clerk.

Article 14.—(1.) There shall be provided by the Council a Rate Ledger (Form 7), in which shall be posted to credit of each holding on the discharge side the several amounts received in respect of rates collected from that holding.

(2.) Immediately on the making of a Rate by the Council, the Town Clerk shall prepare and issue to each Collector of the Poor Rate with the Collecting Book, a Warrant (Form 8) for the collection of the poor rate within his Collection District. Before issuing the Collecting Book, the Town Clerk shall take care that the particulars given therein, so far as they purport to be extracted from the Rate

Book, shall be correctly taken therefrom, and he shall, at the same time, have all particulars fully and accurately filled up before placing the book in the hands of the Collector.

(3.) The Town Clerk shall cause to be printed a sufficient supply of Rate Receipts (Form 3), and shall have them bound into books containing one hundred in each. Each Receipt, and its counterpart, shall bear a corresponding number, which shall be consecutive and in print. The Town Clerk shall retain these books in his own custody, and issue them to the Collectors singly, taking care to obtain from the Collector the book from which the Receipts have been issued before supplying him with a fresh book.

(4.) It shall be the duty of the Town Clerk, once at least in each week, at the hour and on the day which he may appoint for the purpose, to examine the Poor Rate Collector's Book and the Receipt Book, which shall then be produced to him by each Collector of the Poor Rate, and likewise the Treasurer's receipts for all lodgments made by such Collector since the last weekly examination of his accounts. In examining the said accounts, the Town Clerk shall see that the entries in the Weekly Abstract and Advice Note, and in the Weekly Balance Sheet, correspond with and include all sums in respect of which receipts have been detached from the Receipt Book since the last examination of the Collector's accounts. He shall enter his initials in the prescribed space in the Collecting Book, shall fill up the particulars required to be filled by him in the Collector's Weekly Advice Note, shall detach the same therefrom, and shall carry the particulars into the Rate Ledger (Form 7), and into such Abstracts or Books of Account as the Council may from time to time direct, or as the Local Government Board may prescribe.

(5.) If the Council deem it expedient they may, with the approval of the Local Government Board, appoint a competent person to act as Deputy to the Town Clerk in the discharge of the duties of examining and checking the books of the Collectors of the Poor Rate.

Audit of Accounts.

Article 15.—Every Collector acting under this Order, shall duly and punctually keep such books as may be prescribed in any Order of the Local Government Board, in force at the time, for keeping and auditing the Accounts, and shall attend and lay such Books, together with the vouchers and other necessary documents, before the Auditor, properly balanced and made up to the end of the period under Audit, at the time fixed for the Audit or for any adjournment thereof; and he shall also lay before the Auditor his Collecting Book and other Books connected with the Rate in course of collection at the time of Audit, and every such Officer shall furnish to the Auditor or to the Council any abstract, statement, or explanation, verbally or in writing, respecting his accounts, and the items contained therein, or the vouchers relating thereto, as he may be required to furnish.

Article 16.—Every Collector of the Poor Rate who shall wilfully neglect or disobey any order of the Local Government Board shall be liable to dismissal from his office, and to prosecution for the penalties which he may thereby incur under the provisions of Section 102 of the Irish Poor Relief Act, 1838, or any other enactment.

General.

Article 17.—The foregoing provisions of this Order shall apply to every Collector in a County Borough or an Urban District, who collects the Poor Rate whether separately or as a part of or in addition to or along with any Borough Rate, Town Rate, or other Rate or Rates.

COUNTY SINKING FUND REGULATIONS.

WHEREAS it is provided by Article 22 (7) of the LOCAL GOVERNMENT (APPLICATION OF ENACTMENTS) ORDER, 1898, that, where a county council pay off a loan of money borrowed under the said Article by means of a sinking fund, such sinking fund shall be set apart, invested, and applied in accordance with regulations made by the Local Government Board for Ireland:

AND WHEREAS it is provided by Article 22 (11) of the said Order that a joint committee of the councils of counties comprised in a lunatic asylum district may, in accordance with regulations of the Local Government Board for Ireland, exercise jointly for the purpose of a lunatic asylum the powers of those councils relating to borrowing:

AND WHEREAS it is further provided by Article 22 (12) of the said Order that such Article shall not apply to county boroughs when acting otherwise than in their capacity as a county council:

NOW, THEREFORE, We, the Local Government Board for Ireland, do hereby order, determine, and prescribe as follows:—

Article I.—Where a county council decide or are required to pay off any loan or part of a loan of money borrowed under Article 22 of the said Order by means of a sinking fund, the council shall create a sinking fund as hereinafter mentioned; that is to say,

(1.) Such equal yearly, or, if so determined at the time of the creation of the sinking fund, half-yearly sums shall be paid into the sinking fund in each year as, being accumulated at compound interest at the prescribed rate, will, at the expiration of some period not longer than the period fixed for the discharge of the loan (or in case there shall be no such period fixed, such period as shall be prescribed), be sufficient, after payment of all expenses, to discharge such loan or part of a loan:

(2.) The first of such payments shall be made within one year from the date of the loan:

(3.) All sums paid into the sinking fund shall be, as soon as may be, invested by the council in any statutory security; and any such investments may from time to time be varied or transposed, and all dividends and other annual sums received in respect of such investments, shall, as soon as may be after they are received, be paid into the sinking fund and invested by the council in like manner:

(4.) The council may from time to time apply the sinking fund, or any part thereof, in or towards the discharge of the loan or part of a loan for which it was created, and until such loan or part is wholly discharged, shall not apply the same for any other purpose:

(5.) Any surplus of the sinking fund remaining after the discharge of the loan or part of a loan for the discharge of which it was created shall be paid into some other sinking fund under the control of the council, or, if there is no such fund, shall be applied to any purpose

to which such loan is applicable, or otherwise, as the council may, with the assent of the Local Government Board, think expedient:

(6.) Where any part of the sinking fund is applied in paying off any part of the loan before the prescribed period, the interest which would otherwise be payable on such securities or on such part of the loan, shall be paid into the sinking fund, and invested in manner provided by these regulations:

(7.) If the annual income of the sinking fund is not less than the annual interest payable on so much of the loan, or part of the loan in respect of which it was created, as remains undischarged, the equal annual sums required to be paid into the sinking fund may cease to be so paid.

Article II.—(1.) Once in every year, at a time appointed by the Local Government Board, the secretary to the county council shall, until the loan or part of a loan is discharged, transmit to the Board a return in such form, verified in such manner, and made up to such date in each year as may be prescribed, showing the amount which has been invested or applied for the purpose of such sinking fund during the year next preceding the making of such return, and the description of the securities upon which any investment has been made, and the purposes to which any portion of the sinking fund has been applied during the same period, and the total amount (if any) remaining invested at the end of the year.

(2.) Unless and until the Board in any case by Order otherwise direct, the said abstract shall—

(a.) Be made up to the 31st day of March in each year:

(b.) Be forwarded to the said Board within forty-two days after that day:

(c.) Be in the form set forth in the schedule to these regulations; and

(d.) Be verified by a statutory declaration of the secretary to the county council, or of such other officer of the council as the Board, on the application of the council, may approve.

(3.) In case of wilful default therein by the secretary to or other officer of the county council, the said secretary or other officer shall on each occasion be liable to a fine not exceeding twenty pounds, and every fine under this Article shall be recoverable summarily on the prosecution of the Board, and not otherwise.

(4.) If by any such return, or otherwise, it appears to the Board that the county council have failed to comply with any requisition of these regulations, or of any order of the Board thereunder, in relation to any payment, application, or investment, or otherwise in relation to the sinking fund, the Board may by order require the council to make good the default within a time therein limited; and if the default be in respect of any sum payable into the sinking fund, or the misapplication of any part of such fund, the Board may by order direct that the sum in such order mentioned, not exceeding double the amount in respect of which default has been made, shall be paid into the sinking fund, and be invested and applied as part of that fund.

Article III.—Any determination or directions of the Board under these regulations may be signified by order under their seal, and any order of the Board may contain such provisions as the Board think

necessary or proper for giving effect thereto, and may be from time to time cancelled or varied by the Board, as the circumstances of the case may require. Such order shall not be made without first hearing the county council, if desirous of being heard, which hearing may be in the form of a public inquiry, with or without a published report, or in such other form as the Board, having regard to the circumstances, think just and expedient, and sections 210, 212, and 213 of the Public Health (Ireland) Act, 1878, shall apply to hearings, inquiries, and other proceedings to which this article relates: ^{41 & 42 Vict., c. 52.} Provided that the cost of inquiries as to which the Board may make orders under the said section 210 may include such reasonable sum, not exceeding three guineas a day, as the Board may determine, for the services of any Inspector holding an inquiry.

GENERAL ORDER

Fixing Scale of Payment of Secretaries of County Councils, Clerks of Urban District Councils, and Collectors of Poor Rate under the Parliamentary Registration Expenses (Ireland) Act, 1890, and the Local Government (Ireland) Act, 1898.

To the Councils of the several Administrative Counties in Ireland;
To the Secretaries of the said Councils;

To the Collectors of Poor Rate employed by the said Councils;

To the Councils of the several Boroughs in Ireland;

To the Town Clerks of the said Boroughs;

To the Councils of the several Urban County Districts in Ireland;

To the Clerks of the said Councils;

And to all others whom it may concern.

WHEREAS by Section 1, Sub-sections (1) and (2), of the Parliamentary Registration Expenses (Ireland) Act, 1890, it is enacted that:—

(1.) The clerks and collectors of poor rates of the several poor law unions in Ireland shall be paid for their services and for expenses incurred by them in execution of the duties required to be discharged by them respectively in carrying into effect the provisions of the Representation of the People Acts as that expression is defined in section eight of the Representation of the People Act, 1884, for which payment is not provided by the said Acts.

(2.) The Local Government Board for Ireland may from time to time make orders, and when made, revoke, alter, or amend the same, and make new orders instead of any orders revoked, fixing a scale according to which the payment for such services and expenses shall be made.

And whereas by the operation of Section 83 (7) of the Local Government (Ireland) Act, 1898, as modified by Section 121 of the

same Act, all powers and duties in relation to the registration of electors have, in unions in which there is not an existing clerk as that expression is defined by Section 109 (1) of the said Act, been transferred so far as respects rural districts to the secretary of the council of the administrative county in which any such union is situate, and so far as respects any borough or other urban district situate within any such union to the town clerk of such borough, or the clerk of the council of such other urban district, as the case may be:

And whereas it is directed by Rule 14 (1), II., of the Registration (Ireland) Rules, 1899, that as respects any registration unit (as defined in the said Rules) in which the transfer of the powers and duties of the clerk of the union enacted by Section 83 (7) of the Local Government (Ireland) Act, 1898, has taken effect, the secretary of the county council, or the clerk of the urban district council, as the case requires, shall, subject to any special provision, be substituted in the Registration Acts for the clerk of the union, by whatever name he is described, and the administrative county, or urban district as the case requires, for the union, by whatever name it is described, and the county council or the urban district council, as the case requires, for the guardians of the poor:

And whereas it is further directed by Sub-section (1) of Rule 3 of the said Registration (Ireland) Rules that:—

“There shall be added to every list of voters a local government supplement, and the clerk of the peace, secretary of the county council, or clerk of the urban district council, as the case may be, shall, in making out any list, enter in the local government supplement to that list the name of any peer or woman whose name, if not that of a peer or woman, would have been entered in the body of the list to which the supplement is added, and also the name of any married woman qualified to be a local government elector by virtue of Article Four of the Local Government (Application of Enactments) Order, 1898 (which relates to the removal of disqualification of married women), whose name would be so entered but for the disqualification removed as respects the right to be registered as a local government elector by that Article.”

and by Sub-section (2) of the same rule that:—

“Subject to any special provision in these rules, the enactments relating to the registration of parliamentary electors in Ireland (including those relating to the revision of the lists, appeals, and the preparation and making up of the register) shall apply with reference to the local government supplement as they apply with reference to the list to which the supplement is added.”

And whereas it is expedient to fix a scale according to which the secretaries of county councils, the clerks of urban district councils, and collectors of poor rates in the several administrative counties, and urban districts comprising registration units in respect of which the said transfer of duties has taken effect shall henceforth be paid for their services and expenses incurred by them in execution of the duties so transferred to them:

Now, therefore, We, the Local Government Board for Ireland, do hereby order and direct that the scale, according to which secretaries of county councils, clerks of urban district councils, and collectors of poor rates in the several administrative counties and urban districts, comprising registration units, in respect of which the transfer of the

powers and duties of the clerk of the union enacted by Section 83 (7) of the Local Government (Ireland) Act, 1898, has taken effect, shall be paid for their services and expenses incurred by them in the execution of the duties so transferred to them, shall be that contained in the Schedule herunto annexed.

And we do further order and direct that the scale in the said Schedule contained shall be that according to which town clerks and collectors of poor rates in boroughs comprising registration units in respect of which the said transfer of powers and duties enacted as above mentioned has taken effect, shall be paid for their services and expenses incurred by them in the execution of the duties so transferred.

SCHEDULE.

1. The secretary of each administrative county, the town clerk of each borough, or the clerk of each urban district council shall, in respect of registration units in which he executes the duties formerly performed by the clerk of the union, be paid at the rate of fifteen shillings for each hundred ratings in such registration units collectively up to ten thousand such ratings, and at the rate of seven shillings and six pence for each hundred such ratings over ten thousand ratings, together with a sum of ten shillings and six pence for each day on which he may necessarily be in attendance at the revision courts in execution of the duties formerly performed by the clerk of the union, and, in case the attendance of any such secretary, town clerk, or clerk shall be required at different revision courts at or about the same time, and he must necessarily appear by deputy at one or more of such courts, a further sum of ten shillings and six pence for each day on which each such deputy may necessarily be so in attendance in his stead, such further sum or sums to be paid by such secretary, town clerk, or clerk to the deputy or deputies so acting for him.

Each collector of poor rates shall be paid at the rate of twelve shillings for each hundred ratings in the district for which he is collector; together with a sum of seven shillings and six pence for each day on which he may necessarily be in attendance at the revision courts in execution of his duties aforesaid.

3. In any case in which the same person is or shall be separately rated in respect of land and of buildings included in one and the same holding the said separate ratings shall be deemed to constitute one rating only for the purpose of calculating the amount to be paid to any secretary, town clerk, clerk, or collector.

4. In case any secretary of a county council, town clerk of a borough, or clerk of an urban district council, deputy, or collector shall attend at more than one revision court on the same day, one payment only on the scale aforesaid shall be made in respect of the services of such officer for that day.

- (8.) The Washing Materials Book.

Article 8.—It shall be the duty of the Superintendent as Accounting Officer from time to time to examine such of the foregoing books of account as are to be kept by the Clerk or Storekeeper, so as to ensure that they are punctually and properly written up. He shall see that stock of all the property in or belonging to the Asylum, including provisions, clothing, furniture, farm produce, and goods of every description, is taken accurately at the end of each half-year, and shall submit the report thereon in detail to the Committee at their next meeting at which finance business is transacted. He shall take care that all casual receipts are promptly lodged with the Treasurer to credit of the Committee, and before the expiration of the month during which they have been received. He shall keep a careful and accurate account of all moneys expended out of the Subsidiary Account, and shall avoid making payments out of that account exceeding £2 in amount, except in special circumstances of an urgent nature.

Article 9.—(1.) Except as hereinafter provided, no payments shall be made unless by an Order of the Committee made at a Monthly Finance Meeting. The Monthly Finance Meeting shall be held upon such day of the week or month as the Committee may determine, provided such day be not the 7th day of the month or any

earlier day. The payments made at each Finance Meeting shall be in respect of goods supplied, work done, or liabilities incurred not later than the close of the preceding month. The receipts reported by the Treasurer to the Committee and the payments ordered by them at each Finance Meeting, shall be kept distinct, and shall be entered and totalled on separate statements. At the meeting next following each Finance Meeting, the statements, having been first certified at foot by the Superintendent, shall be submitted for confirmation by the Committee, and, when examined and confirmed, shall be signed at foot by the Chairman of the Meeting.

(2.) Except so far as is provided by the Local Government (Procedure of Councils) Order, 1899, no bill or demand against the Committee shall be payable at any Finance Meeting unless it shall have been in the hands of the Superintendent two clear days at the least before the day of such meeting. All payments out of the Asylum Fund shall be made by means of an Order, which may include several payments (Form 4), which Order shall be signed by the Chairman and two members present at the Finance Meeting of the Committee, and countersigned by the Superintendent.

(3.) After each Finance Meeting of the Committee, the Clerk shall forthwith transmit by post to every person in whose favour a payment is so ordered at the said meeting a negotiable Paying Order or advice (Form 5), duly signed.

(4.) The Treasurer of each Asylum shall open and keep an account with the Committee, to be called "The Subsidiary Account." At the first Finance Meeting of each Committee to be held after the 1st day of April, 1900, the Committee shall make a payment by way of advance out of the Asylum Fund of an amount estimated to be sufficient to meet the petty disbursements of the Superintendent for one month by an Order in his favour. The Superintendent shall lodge the amount of the Order so made to credit of the Subsidiary Account.

(5.) The Treasurer shall make and debit to the Subsidiary Account all payments upon Orders duly made and presented to him which may be made by the Superintendent.

(6.) At each Finance Meeting held subsequent to the first meeting above referred to, the Superintendent shall prepare a tabulated list of payments made out of the Subsidiary Account up to the close of the previous month, with vouchers; and the Committee shall order that a sum, to be specified in the Order, equal to, or greater, or less than the total of such payments, shall be paid out of the Asylum Fund, and be lodged to the credit of the Subsidiary Account.

(7.) The expenditure made in each month through the Subsidiary Account shall be tabulated and classified in a separate book of account on the lines of the Financial Statement Book (Form 2), in such manner as to admit of the totals under each head being included in such account.

(8.) Subject to the provisions hereinbefore contained, all bills and demands shall be brought in within six days at the furthest after the expiration of the half-year in which they were incurred, and shall be forthwith examined and, if found correct, shall be paid at the next Finance Meeting, and be included in the accounts of such half-year.

(9.) The Superintendent shall, before each Finance Meeting, procure from the Treasurer a book or statement showing the sums of money and Paying Orders which the Treasurer shall have received and paid since his last statement, and shall lay the same before the said meeting; and the presiding Chairman shall affix his signature to the said book or statement of the Treasurer, when the accuracy thereof shall have been ascertained.

(10.) The Clerk shall enter from the Treasurer's Book, in the proper column of the Financial Statement Book of Expenditure (Form 2), the date on which the amount of each Paying Order was paid by the Treasurer, as appearing in the Treasurer's Book.

(11.) The Committee, in the examination and passing of bills, shall refer to the counterfoils in the Order Check Book (Form 3) of the Order sanctioning the expenditure, and shall in all cases require the party to whom the Order was issued to produce it.

AUDIT.

CLOSING ACCOUNTS AND HALF-YEARLY ABSTRACTS.

Article 10.—The Superintendent shall cause the Accounts of the Asylum to be made up and balanced at the end of every half-year ending on the 30th day of September and the 31st day of March, and shall prepare therefrom, and from the other records of the Asylum, an Abstract thereof (Form 6), which Abstract shall be forwarded to the Auditor appointed for the Asylum within *one month* after the close of the half-year.

Article 11.—The Auditor shall give to the Superintendent ten clear days' notice (Form 7) of the day appointed for auditing the Accounts of the Committee, and the Superintendent shall, after receiving such notice, give six clear days' notice of the time and place at which such audit shall be held, in the following manner:—

- (a.) By causing to be exhibited on the external gate or door of the Asylum a notice (Form 8), and continuing the same so exhibited until the day appointed for such audit.
- (b.) By an advertisement in the same form in some one or more of the public newspapers circulating in the County.

The Superintendent shall also give due notice to the Treasurer of this appointment, and shall send to the several other officers of the Committee, who are bound to account, a notice in the Form 9.

Article 12.—The Superintendent shall, six clear days before the day appointed for auditing the Accounts of the Committee, deposit a copy of the said Abstract together with the Books of Account from which it has been prepared in the Board-room of the Asylum; and shall permit the said Abstract and Books to be inspected, examined, and copied by or on behalf of any body or person interested at any reasonable hour of the day (not being Sunday or a Bank holiday), when the Committee shall not be sitting, after they shall be so deposited and previous to the day appointed for the auditing thereof.

Article 13.—Before each audit the Clerk shall carefully prepare and verify a sufficient number of fair copies of the Abstract of Accounts (Form 6), and shall submit the same to the Auditor, who at the conclusion of the audit shall attest them, and shall deal with them as provided in Article 14 of this Order.

Article 14.—Within fourteen days after the completion of each audit the Auditor shall make a report to the Local Government Board upon the Accounts audited and examined by him, and shall transmit with such report the attested copies of the Abstract of Accounts (Form 6) submitted to him as hereinbefore provided. The Local Government Board shall retain one of such attested copies of the Abstract, and shall forward to the Committee and to the Council of each County comprised within the District, respectively, one such attested copy of the Abstract, together with a copy of the Auditor's Report. Upon receipt of the Auditor's Report and Abstract of Accounts, the Superintendent shall forthwith publish the Report and Abstract in some one or more of the public newspapers circulating in the District, and shall also within one month after each audit furnish to each member of the Committee a copy of the Auditor's Report and Abstract of Accounts.

Article 15.—If the Auditor shall be required by the Local Government Board to hold an extraordinary audit, either of the whole or of any portion of the Accounts, in addition to the ordinary audit, all the provisions herein contained with reference to the ordinary audit shall, so far as they may be applicable, apply to such extraordinary audit.

Article 16.—The Superintendent and the other Officers of the Committee who by law are liable to account shall attend at the time and place appointed for the audit of their Accounts, and shall submit all Books and Accounts which they are respectively required to keep by this or any other Order of the Local Government Board, or by the Committee, together with all documents and vouchers relating to such Books or Accounts.

Article 17.—In auditing the Accounts, the Auditor shall see that they have been kept and are presented in proper form, that the particular items of receipt and expenditure are stated in sufficient detail, and that the payments are supported by adequate vouchers and authority. He shall ascertain whether all sums received, or which ought to have been received, are brought into account, and shall examine whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as he shall deem to be exorbitant, shall surcharge monies not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss, and shall disallow and strike out such payments as are not authorised by law. If the Auditor finds that any money, goods, or chattels belonging to the Asylum have been purloined, embezzled, wasted, or misapplied, or that any deficiency or loss has been incurred by the negligence or misconduct of any Officer or other person accounting, and shall surcharge such Officer or person with such amount or value in his account, he shall submit a statement of such surcharge to the Committee as soon as he conveniently can do so. The sums so surcharged, disallowed, or struck out, shall be recoverable in the same manner as Balances are recoverable under the provisions of the Irish Poor Relief Acts.

Article 18.—The Auditor shall examine and collate the several Books and Forms of Account, and shall ascertain that the several entries correspond with and balance each other, where such balance may be required; but in case of any error caused by inadvertence or accident in any account, he may make the necessary correction or require the Officer rendering it to do so, and the Auditor shall then deal with the account so corrected.

Article 19.—No erasures shall under any circumstances be made in any of the records or Books of Account prescribed by this Order ; in case it should be found necessary to make an alteration in any entry it must be done by drawing the pen through the figure to be altered, and by writing above or beside it the figure that is to take its place. The folios or pages, as the case may be, of all such records or Books of Account should be numbered consecutively by the printer, and no leaf or leaves of any bound book so numbered shall be removed from the book.

Article 20.—The Auditor shall receive any objection made by or on behalf of any body or person interested or aggrieved, against the Accounts undergoing audit, or any item or charge therein, or any vouchers or authority for the same ; he may, if he thinks fit, require such objection to be put in writing, and shall examine into the merits thereof.

Article 21.—If the Auditor shall doubt the correctness of any account, or any item or charge in any account, he may by summons under his hand and seal require any person to attend before him at any audit or adjournment thereof for the purpose of giving any information or evidence upon any matter connected with the Accounts of any Officer of the Committee liable to account, and may make inquiry into any such matter, and may administer oaths, and may examine all such persons upon oath, and may require and enforce the production upon oath of Books, Contracts, Agreements, Accounts, Maps, Plans, Surveys, Valuations, and Writings, or copies thereof respectively, in anywise relating to such matter, or where the Auditor shall think fit, in lieu of requiring such oaths as aforesaid, he may require any such person to make and subscribe a declaration of the truth of the matters respecting which he shall have been or shall be so examined.

Article 22.—The personal representatives of an Officer accountable under this Order, who dies before the audit of his Accounts, shall account, in conformity with the provisions herein contained, in the place of such deceased Officer, and all regulations affecting the Accounts of such Officer shall, so far as may be otherwise lawful, affect the Accounts of his personal representatives.

Article 23.—The Auditor having audited the several Accounts shall append his signature and date of audit at foot of the Balance Sheet.

ANNUAL BUDGET.

Article 24.—(1.) At such Meeting as the Council shall determine, but not later than the first day of February in each financial year, the Committee of every Asylum shall prepare an estimate of their liabilities and expenditure to be provided for during the next ensuing financial year by the Council, and a demand for the amount of such estimate (Form 10), and shall forward a copy of such estimate and demand to the Inspectors, and to the Council of each County comprised within the District.

(2.) If any Committee shall, at such Meeting, neglect or refuse to prepare such estimate and demand, it shall be the duty of the Superintendent to prepare and furnish the same within one week after the said Meeting.

(3.) The communication by Committees to County Councils, and the estimates to be made of their expenditure in each local financial year, and their demands in respect of the same shall be according to Form 10.

(4.) Every County Council upon whom a demand is made as aforesaid shall comply with the said demand at the times and in the manner specified therein.

(5.) The sum payable by a County Council to a Committee shall be paid by means of an Order made at a Quarterly Meeting of the Council, directing their Treasurer to transfer the said sum to the credit of the Asylum Fund in the Bank which acts as Treasurer to the Asylum. After each such Meeting, the Secretary shall forthwith transmit by post to the Treasurer of the Asylum to whose credit money is so transferred, a notification in the prescribed Form.

CAPITATION GRANT RETURNS.

Article 25.—The Returns on which the claims for Capitation Grant are based shall be prepared from the records contained in the General Register of Patients, the Register of Admissions, and the Register of Discharges and Deaths.

They shall be made out in accordance with the rules or regulations issued, or from time to time to be issued, by the Inspectors, with the concurrence of the Local Government Board.

THE LOCAL GOVERNMENT BOARD FOR IRELAND.

WHEREAS by Part V. of the Public Health Acts Amendment Act, 53 & 54 Vict.
1890, as applied to Ireland, it is enacted that :—
c. 59

Where any urban sanitary authority in Ireland has, for the time being, either in its capacity as urban authority or in any other capacity, any power to borrow money, it may, with the consent of the Local Government Board for Ireland, exercise such power by the creation of stock, to be created, issued, transferred, dealt with, and redeemed in such manner and in accordance with such regulations as the Local Government Board for Ireland may from time to time prescribe ;

Without prejudice to the generality of the above power, such regulations may provide for the discharge of any loan raised by such stock, and in the case of consolidation of debt for extending or varying the times within which loans may be discharged, and may provide for the consent of limited owners and for the application of the Acts relating to stamp duties and to cheques, and for the disposal of unclaimed dividends, and may apply for the purposes of this section, with or without modifications, any enactments of any Acts relating to stock issued by the corporation of any municipal borough ;

And Whereas the said regulations, after having been duly laid before each House of Parliament for not less than thirty days during the sitting of such House, and neither House during such thirty days having resolved that such regulations ought not to be proceeded with, were confirmed by an Order made the Twenty-fourth day of May, 1892, by the then Lord Lieutenant-General and General Governor of Ireland, by and with the advice and consent of Her Majesty's Privy Council in Ireland, in pursuance and by virtue of the said Public Health Acts Amendment Act, 1890 :

And Whereas by Article 45 (2) of the said regulations we did, among other things, order that, unless and until We should in any case by Order otherwise direct, the abstract of the accounts of the urban authority relating to stock and the Redemption Fund directed by article 45 (1) of the said regulations to be sent to Us once in every year by the clerk of such authority, should be made up to the Thirty-first day of December in each year :

No. 4,940: 1900.—Miscellaneous.

WHEREAS, by Section 14 of the Dublin Port and Docks Act, 1898, it is amongst other things, enacted as follows:—

"On or as soon as may be after the first day of September in each year, commencing with the year one thousand eight hundred and ninety-eight, the collector of poors rate shall make out a list of the persons, partnerships and bodies corporate, occupying premises within the city and carrying on in such premises any trade or manufacture and who were rated in respect of such premises to the then last made rate for the relief of the poor on an annual rateable value of twenty pounds or upwards:

"Such list shall be made out in the form in Schedule II., Part VI. of this Act, and shall be in alphabetical order, and shall specify opposite each name the place of business where such trade or manufacture is carried on, the description of such trade or manufacture, the rateable value of the premises, and, when such trade or manufacture is carried on in more places than one, the list shall show the several places of business and the separate rateable value of each of the premises:

"The said lists shall be signed by the collector of poors rate, and shall be delivered by him to the Board not later than the sixteenth day of September, and the Board shall pay to the

"collector of poors rate, in respect of the making of such list, such sums for expenses and remuneration as may from time to time be agreed on between the Board and the collector of poors rate, or as failing such agreement shall be settled by the Local Government Board."

And whereas, by Section 4 of the said Act, the expression "The city" is defined to mean the city of Dublin; the expression "The collector of poors rate" is defined to mean the authority or officer whose duty it may be for the time being to collect poors rate in the city, and the expression "The Board" is defined to mean the Dublin Port and Docks Board:

And whereas, the Collector-General of Rates in the city of Dublin, being the authority or officer whose duty it was to collect poors rate in the said city for the part of the year 1899 which included the sixteenth day of September, duly made out and delivered to the Dublin Port and Docks Board the list prescribed by the said Section 14:

And whereas, Henry Robert Perry, Esquire, was at the date fixed by the said Section 14 for the delivery of the said list Collector-General of Rates in the city of Dublin:

And whereas, the Dublin Port and Docks Board and the said Henry Robert Perry, Esquire, have failed to agree on the sum to be paid to the said Henry Robert Perry, Esquire, in respect of the making of the said list for expenses and remuneration, and the said Port and Docks Board have applied to Us, the Local Government Board for Ireland, to settle such sum:

And whereas, We have obtained from the said Henry Robert Perry, Esquire, a statement of his claim for expenses and remuneration and have caused the same to be investigated and have received a report thereon and have duly considered the observations of the Port and Docks Board and of the said Henry Robert Perry, Esquire, on the said claim and report; and We have considered the said claim, report, and observations:

Now, Therefore, We, the Local Government Board for Ireland, do hereby settle and determine that the sum to be paid by the Dublin Port and Docks Board to Henry Robert Perry, Esquire, in respect of the making of the said list, for expenses and remuneration shall be the sum of Three Hundred Pounds sterling, whereof One Hundred and Fifty Pounds shall be paid to such persons as, being members of the staff of the office of the Collector-General of Rates in the city of Dublin, were employed in the work of making the said list, One Hundred Pounds shall be divided in equal shares between the five persons, who being collectors of poors rate in the service of the said Collector-General, took part in the said work, and after the abolition of the office of the said Collector-General, attended the Court at which the said list was revised, and Fifty Pounds shall be retained by the said Henry Robert Perry, Esquire, formerly Collector-General of Rates in the city of Dublin, for his services in respect of the making of the said list, and his attendance at the Court at which the said list was revised.

THE LOCAL GOVERNMENT BOARD FOR IRELAND.

Town of Athy.

And whereas it is further enacted by the said section seven of the said Act of 1878, that no such provisional order shall be made except on petition from one or other of the towns, townships, or districts affected by such order, nor in the event of any objection being taken by any person affected thereby until after due local inquiry:

41 & 42 Vict., c.
57.

And whereas by sub-section (1) of section forty-two of the said Local Government (Ireland) Act, 1898, it is enacted in effect that where a town has a population exceeding one thousand five hundred according to the last published census for the time being, but is not an urban sanitary district, any order of the said Local Government Board constituting such town an urban sanitary district shall, unless within three months after the order is published the Board receive a petition against it from at least one-fourth of the local government electors within the town, or from the guardians of the union, or council of the rural district, comprising the town or any part thereof, take effect without the authority of Parliament; and that a certificate of the Board that no such petition has been received, and that the order has taken effect, shall be conclusive evidence of those facts:

And whereas it is further enacted by sub-section (3) of the said section forty-two of the said Act of 1898, that an order made after the passing of that Act for constituting a town an urban sanitary

district shall contain such provisions as may seem necessary or expedient for adapting the provisions of that Act in respect to public works, and making an adjustment of property, rights, and liabilities:

And whereas the town of Athy is situated in and forms part of the rural district of Athy, No. 1, in the administrative county of Kildare:

And whereas We, the Local Government Board for Ireland, have received a petition from the town of Athy praying that the said town may be separated from the rural district of Athy, No. 1, in the administrative county of Kildare, and be constituted an urban sanitary district:

And whereas all advertisements and notices required by the said Act of 1878, having been previously duly published, served, and given, We, the Local Government Board for Ireland, have caused a local inquiry to be made as to the propriety of assenting to the prayer of the said petition, and it appears to Us to be proper to assent thereto: 41 & 42 Vict., c. 52.

Now, therefore, We, the Local Government Board for Ireland, acting in pursuance of the above-cited provisions of the Public Health (Ireland) Act, 1878, and the Local Government (Ireland) Act, 1898, do hereby order and direct as follows:— 41 & 42 Vict., c. 52.
61 & 62 Vict., c. 37.

(a.) The business of the rural district council of Athy, No. 1, in respect to public works so far as respects the said urban district constituted as aforesaid; and

(b.) So far as respects the said urban district, the business of the county council of the administrative county of Kildare in relation to public works the expense of the maintenance of which is not wholly or partly leviable off the county-at-large.

3. Any adjustment of property, rights, and liabilities which may become necessary for the full and effectual carrying out of this order shall be made as between the urban district council of Athy and the county council of the administrative county of Kildare, or as between the said urban district council and the rural district council of Athy, No. 1, or as between the said urban district council and the board of guardians of the union of Athy, or as between the said urban district council and any other persons whatsoever in manner provided by Article thirty of the schedule to the Local Government (Application of Enactments) Order, 1898.

II.—CIRCULARS.

No. 143/M : 1899. Miscellaneous.

LOCAL GOVERNMENT (IRELAND) ACT, 1898.

Local Government Board,
Dublin, 10th April, 1899.

Sir,—I am directed by the Local Government Board for Ireland to forward to you, to be laid before the County Council the accompanying copy of the Local Government (Ireland) Act, 1898, together with copies of the Orders in Council made under Sections 104 to 106 of the Act, in accordance with which the Council will have to perform their various duties, and transact their business at their meetings.

In order to thoroughly understand the extent and nature of their statutory obligations, it is incumbent on the Council and their officers to carefully peruse these documents, but as the Act and Orders are necessarily somewhat complex, and as the Council will probably not be in a position to decide at their first meeting as to the matters which must first claim their attention, the Local Government Board consider that they may possibly facilitate the progress of business by submitting to the Council a brief summary of the more important questions which they will have before them, and with which they will have to deal at their first meeting, and on any subsequent day to which such meeting may have to be adjourned.

The Council will, of course, understand that this summary has been drawn up solely for their convenience and assistance, and that it is open to them to conduct the business of the meeting in any other order than that suggested, provided that the requirements of Article 9 of the Transitory Provisions (No. 2) Order in Council are complied with, and that the various obligations imposed upon them by the Act are duly fulfilled.

No. I.

Preliminary Business.

It is mandatory on the Council to transact the preliminary business in the order laid down by Article 9 of the Transitory Provisions Order in Council. From this article it will be observed that upon the assembling of the Councillors at the place and hour named in the Statutory Notice which they will receive from the Returning Officer, the first step to be taken is to elect a Chairman of that meeting.

If more than one person is proposed and seconded for this position, the Secretary, or any person acting for him, should take the votes recorded for each, and declare the result to the meeting, and, if an equal number of votes is given for two or more candidates, the meeting must determine by lot which of such candidates shall be Chairman of the meeting.

The Chairman of the meeting having taken his seat, the next proceeding of the Council will be to decide if additional Councillors under Section 3 (2) of the Act shall be chosen, and if this is agreed upon, the Councillors shall be selected, and if they are present or subsequently attend, they may at once take their seats and take part in all business thereafter transacted.

The Council must then choose their Chairman for the year, and the Chairman so chosen, if present, shall, on making the declaration accepting office specified in Article 9 (5) of the Application of Enactments Order, take the chair in place of the Chairman of the meeting.

No. II.

This preliminary business having been disposed of, the Council are under no restriction as to the order in which the remaining business has to be transacted, but the Board would suggest that the appointment of Committees and Officers should be the first consideration.

The appointment of a Vice-Chairman for the year is optional with the Council, but if they decide upon making such an appointment it would probably be well to do so before the question of the appointment of Committees is taken up.

The Committees which will have to be appointed are as follows:—

1. Finance Committee.
2. Proposal Committee.
3. Asylum Committee.
4. Joint Committees (if any).
5. Any other Committees.

With respect to the Asylum Committee, it is to be noted that the Local Government Board have postponed the operation of Section 9 of the Act until the 16th of May next.

If, therefore, the Council select the members to act on this Committee at their first meeting, they must subsequently pass a resolution confirming their selection after the section shall have become operative.

The Council may appoint any number of Councillors on their Finance and Proposal Committees, but the number of the Asylum Committee will be fixed by the Lord Lieutenant under Section 9 of the Act. The Council should note that one-fourth of the members of the Asylum Committee need not be members of the Council, and this provision will also apply to a Joint Committee appointed for an Asylum District comprising two or more Counties.

It is not probable that at the first meeting the Council will have occasion to appoint Joint Committees for the other purposes defined in Article 38 of the Application of Enactments Order, but it will no doubt be found convenient to appoint Committees to draw up Standing Orders under Article 36 (10) of that Order, and to consider the details of some of the other business hereafter referred to.

No. III.

In considering the appointment of officers and the number and salaries of the clerical staff to be employed in the Offices of the Council, it appears to the Board that the Council would find it more satisfactory to defer making any permanent arrangements under this head until their next Quarterly Meeting, when they will be in a better position to judge of their requirements, and of the nature of the work devolving on the staff which has been transferred to them. Meanwhile the Council might authorise the existing officers to obtain any temporary clerical assistance that may be necessary to enable them to carry on the work, pending the next Quarterly Meeting of the Council, and the question of the permanent staff might then be conveniently dealt with, or the subject could be referred to a Special Committee, who might also consider a scale for the payment (under Article 17 of the Transitory Provisions Order) of the remuneration and expenses of County and Union Officers in connection with extra work done by them in bringing the Act into operation.

No. IV.

The next and most important business would appear to be the general question of the financial condition of the County, and of the obligations and resources of the Council. The Council will probably find that their Secretary or Treasurer is in a position to furnish them with a statement of the means at their disposal to meet any pressing claims which will be awaiting settlement.

These claims will probably embrace—(1) the payment of election expenses (Article 6, Application of Enactments Order); (2) of advances to Rural District Councils and Boards of Guardians; (3) the expenses of the maintenance of roads in hands of County Surveyor; (4) the payments to be made to Contractors, County Officers, and others in pursuance of Presentments passed at Spring Assizes; (5) Miscellaneous claims; (6) items of current expenditure, including staff and stationery, books, &c.

To meet these claims the Council will have in hands monies paid to them from the Agricultural Grant, together with any available balances on the former account of the Grand Jury which may be handed over to them, and for the purposes of the largest claim, namely, No. 2, the Council may borrow with the consent of the Local Government Board.

Any monies received by the Council as Licence Duty Grants under Section 58 of the Act are to be dealt with in the manner provided in that Section and shall be credited in the books of the Council to the local authorities on behalf of whom the amounts have been received.

The Council should also make provision for the care of roads in the County Surveyor's hands, and for the payment of the expenses of the maintenance thereof, and should arrange for the repair of sudden damages, as provided by Section 11 of the Act. The Board's County Order lays down the procedure to be adopted in providing funds for these purposes, as well as for meeting incidental or urgent payments, and the Council should, as prescribed by the Order, make, on the report of their Finance Committee, the necessary arrangements for opening a subsidiary account with their Treasurer on which the Finance Committee can operate.

The Council must specially note that Article 18 (3) of the Application of Enactments Order provides that no payment can be made by a Council except in pursuance of a resolution of the Council passed on the recommendation of the Finance Committee. It will, therefore, be necessary for the Council to refer all these matters to their Finance Committee, and to fix an early day for holding an adjourned meeting for the purpose of discharging all the pressing claims recommended by the Committee for payment.

No. V.

The County Council will require to consider the question of making, at the earliest possible date, a rate to provide for the expenditure of the half-year ending 30th September next, and they should at their first meeting, give directions that all estimates of Rural Districts Councils and Guardians of their probable expenditure during the half-year shall be sent in as soon as may be practicable, but before the 15th of May, and that the estimate of the Council's expenditure shall also be, if possible, prepared by that date, and arrangements should be made so that whenever the revised Valuation Lists are received (in accordance with Article 8 of the Transitory Provisions Order) the new rate may be struck and put in course of collection.

The Council must be prepared to find that the first rate they will be called upon to make under the Act will not show the relief which the ratepayers probably anticipate from the Agricultural Grant, as all the expenses of bringing the Act into operation will have to be provided for as well as the election expenses, and a charge for the maintenance of roads for a period considerably greater in most instances than that for which the Grand Juries had to provide in their Summer levy.

The Local Government Board's County and Collection of Rates Orders contain full instructions as to the method to be adopted in preparing the rate, and as to the procedure in making it, and putting it in collection. These Orders prescribe all necessary forms, and contain all the information which the Council and their Officers will require. The Books of Account, as prescribed in the Orders, should be immediately procured and carefully kept by the County Officers.

The Abstracts of the Presentments passed by the Grand Jury at the Spring Assizes will very shortly be in the hands of the Council, and will show them exactly the liabilities they will have to meet in pursuance of such Presentments.

The Board have also asked each County Surveyor to submit to the Council a Schedule of the road contracts existing in the County, which will enable the Council to see at a glance the nature and duration of the various contracts running in the County and their apportionment both to the County-at-large and to the several rural and urban districts comprised in the County.

No. VI.

The question of the drawing up of a scheme for the collection of the rate should then be considered. It will probably be found desirable to refer the details of this scheme to a Committee of the Council, who should report on the matter to an adjourned meeting. The scheme must, under Section 115 (10) of the Act, be submitted to the Local Government Board within six weeks after the first meeting of the Council.

The scheme should be so drawn up as to secure that the requirements of the Local Government Board's Order regulating the appointment of Collectors and the mode of collection of the rates are duly complied with.

No. VII.

The Council might then consider any reports to be made by their County Surveyor on the condition of the roads and other public works in the County, and also receive, and, if deemed desirable, adjourn the consideration of any report on the subject of proposed main roads in the County.

In this connection any application made by the Councils of Urban Districts in the County to take over the control of main roads in their districts may be dealt with, and the terms on which they are to be so taken over arranged.

No. VIII.

Other matters to be dealt with at the first meeting will be the fixing of days for the Quarterly Meetings of Rural District Councils, the settlement of the salaries of Coroners, and the arrangements for County Printing.

No. IX.

There may be questions arising in particular Counties and not referred to in the preceding paragraphs which will come before the Council for consideration, and such matters will, of course, be laid before the Council by the Secretary of the Grand Jury who becomes their officer under Section 115 of the Act.

No. X.

The Local Government Board have not made any suggestion as to the period of the meeting at which any correspondence addressed to the County Council should be dealt with, but it appears to the Board that the Council will find it most convenient to consider any correspondence relating to the several matters referred to in this Circular in the order in which the subjects to which the letters relate come before the Council.

No. XI.

The Local Government Board think it well to remind the Council that, as they will probably be unable on their first day of meeting

to transact all the business outlined in this Circular Letter, it will be necessary for the Council to adjourn such meeting as often as may be requisite to secure that the various matters calling for immediate attention in the County are considered and dealt with before the Council finally adjourn until their next Quarterly Meeting.

The Local Government Board, in conclusion, desire to add that they will be at all times prepared to assist the Council in carrying out the numerous and important duties devolving on them under the altered system of County Government in Ireland, and any application the Council may make to the Local Government Board, under Section 101 (1) of the Act, will receive immediate consideration.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,
Secretary.

To the Secretary
to each County Council.

LOCAL GOVERNMENT (IRELAND) ACT, 1898.

Local Government Board,
Dublin, 11th April, 1899.

SIR,—I am directed by the Local Government Board for Ireland to forward to you, to be laid before the Rural District Council, the accompanying copy of the Local Government (Ireland) Act, 1898, together with copies of the Orders in Council made under Sections 104 to 106 of the Act, in accordance with which the Council must perform their various duties and transact their business at their meetings.

The powers of Rural District Councils are conferred upon them by Sections 27 to 39 of the Act, and their procedure is governed by the Orders in Council of 22nd December, 1898, and 30th January, 1899. The Board do not think it necessary to refer at any length to the duties under the Sanitary Acts and Labourers Acts transferred to the District Council, as you are already familiar with the provisions of these Statutes, and it will be your duty to submit to the Council the ordinary business under these heads from the point at which it passed out of the hands of the Guardians at their last meeting.

There are, however, other important new duties devolving on the District Councils, and as the Act and the Orders in Council relating thereto are somewhat lengthy and complex, the Board consider that they may possibly facilitate the Council by indicating briefly some of the important matters which appear to demand consideration at their first meeting.

The Rural District Council will, of course, understand that this summary has been drawn up solely for their convenience and assistance, and that it is open to them to conduct the business of the meeting in any other order than that suggested, provided that the

requirements of Article 10 of the Transitory Provisions (No. 2) Order in Council are complied with, and that the various obligations imposed upon them under the Act are duly fulfilled.

I.—Preliminary Business.

It is mandatory on the Rural District Council to transact the preliminary business in the order laid down in Article 10 of the Transitory Provisions Order in Council. From this Article it will be observed that upon the assembling of the Council at the place and hour named in the statutory notice which they will receive from the Returning Officer, the first step to be taken is to elect a Chairman of that meeting.

If more than one person is proposed and seconded for this position, the Clerk of the Council, or any person acting for him, should take the votes recorded for each and declare the result to the meeting, and, if an equal number of votes is given for two or more of such candidates, the meeting must determine by lot which of such candidates shall be the Chairman of the meeting.

The Chairman of the meeting having taken his seat, the next proceeding of the Rural District Council will be to choose additional Councillors as required by Section 113 of the Act, and the Councillors then chosen if in attendance shall be entitled to make the declaration of office and take their seats, and vote at the subsequent proceedings of the meeting.

The meeting shall then proceed to consider the question of choosing additional Councillors under Section 25 of the Act, and if it is determined to choose such Councillors they should be selected, and if they are present or subsequently attend they may, on making the declaration accepting office, take their seats and vote at the election of Chairman and take part in any other business coming before the meeting.

The Rural District Council must then choose their Chairman for the year, and the Chairman so chosen, if present, shall, on making the declaration accepting office specified in Article 9 (5) of the Application of Enactments Order in Council, take the chair in place of the Chairman of the meeting.

II.

This preliminary business having been disposed of the Rural District Council are under no restrictions as to the order in which the remaining business has to be transacted.

The appointment of a Vice-Chairman for the year is optional with the Council, but if they decide upon making such an appointment it would probably be well to do so before any further business is transacted.

III.

The Treasurer, Clerk, and Sanitary Officers of the former Rural Sanitary Authority who are employed in the Rural District become, under Section 85 of the Act, the officers of the Rural District Council, and if any of these offices are vacant directions should be given for making the necessary appointments. The Local Government Board will be prepared to consider such proposals as the Council submit as

to the salaries which should be paid to the Clerk and Sanitary Officers so transferred in respect of their new duties in the Rural District, and this question might perhaps be referred to a Committee who should report to the Council at an early date.

IV.

The next business of the Rural District Council would appear to be the consideration of the finances of the Council, and the measures to be taken to procure funds for the discharge of their obligations.

The Local Government Board are of opinion that the proper course for the Rural District Council to adopt is to frame, on the report of their Clerk, a demand to be sent to the County Council at their first meeting on the 22nd April, for such sum as the Rural District Council consider will suffice to provide for their requirements until the County Council are in a position to levy a rate and supply the full demand of the Rural District Council for the service of the first half-year.

Pending the receipt of money from the County Council the Rural District Council should open an account with their Treasurer and arrange with him for an overdraft to meet current pressing liabilities, such as election expenses, salaries, &c., and the Local Government Board will be prepared to approve under Article 4 (3) of Transitory Provisions Order in Council any reasonable proposal made by the Council for authority to pay interest on any money so advanced by the Treasurer.

V.

The Rural District Council should further instruct their Clerk as soon as may be practicable, but before the 15th May, to prepare and submit to them an estimate of the probable expenditure of the Council for the year ending 31st March, 1900, and the estimate should be in the form prescribed by the Local Government Board's County Order which will shortly be issued. The estimate when approved by the Rural District Council should be transmitted with the necessary demand to the County Council in accordance with the requirements of the said Order.

The Local Government Board expect to be able very shortly to forward to the Rural District Council a schedule prepared by the Commissioners of Public Works showing the indebtedness of the District in respect of loans and the amount of the instalments of such loans which the Council will be called upon to pay during the financial year.

VI.

Immediate steps should be taken by the Rural District Council to procure a supply of the various books and forms prescribed by the Local Government Board's "District Accounts Order, 1899," and the requirements of that Order as to the method of keeping the accounts of the Council, and as to the mode in which their financial business is to be transacted, should be carefully complied with.

VII.

The Rural District Council are required by the Application of Enactments Order, Article 36 (10), to hold four quarterly meetings in the year for the transaction of business transferred to them by

the Act on such dates as the County Council may determine, and they will no doubt receive from the County Secretary an early intimation of the arrangements made so far as their District is concerned.

The Rural District Council are also required by Article 35 (2) of the Application of Enactments Order in Council to hold such other meetings as may be necessary to properly carry out the duties devolving on them and the Local Government Board would suggest that there should be weekly meetings in order to deal with the reports of their officers and to transact such other necessary business as may arise from time to time under the Public Health Acts and Labourers Acts. The Rural District Council, however, must clearly understand that they can only transact such business as is transferred to them from presentment sessions at their quarterly meetings, and until those meetings are fixed it is not open to any member of the Council to give notice of application for the execution of any public work within the District. The Council may, however, consider any report which the County Surveyor may furnish upon the condition of the works in their District as soon as it shall have been received.

The Board do not think it would serve any useful purpose to give any summary of the procedure in regard to the duties transferred from Baronial Sessions to the District Councils as it is of the utmost importance that every District Councillor should carefully peruse the Order in Council which deals with this matter, and they believe the Council would do well to instruct their Clerk to provide every member of the Council with a copy of this Order.

The Council should remember that one-fourth of the whole Council forms a quorum at all their meetings.

VIII.

Other matters not referred to in this letter may come before the Rural District Council for consideration, and these will of course be submitted to the Council by their Clerk.

Any correspondence addressed to the Council should be taken up at such period of the meetings as may be determined, but the Local Government Board think it will be found convenient to deal with any letters so far as they relate to matters referred to in this Circular in the order in which these subjects are considered by the Council.

The Local Government Board in conclusion desire to add that the District Council may at all times count upon receiving their advice and assistance in any matters of difficulty which may arise in the transaction of the important and responsible duties entrusted to them by the Local Government Act.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

To the Clerk of each Rural
District Council.

LOCAL GOVERNMENT (IRELAND) ACT, 1898.

Local Government Board,
Dublin, 20th April, 1899.

SIR,—I am directed by the Local Government Board for Ireland to forward to you, herewith, to be laid before the County Council of
copies of the Board's General Orders relating to the collection of rates and to the forms of accounts to be kept by the officers of the Council.

The forms prescribed by these Orders are numerous; but, having regard to the complex nature of the financial transactions between County Councils and District Councils and Boards of Guardians and to the provisions of the Local Government Act relating to the collection of rates and to the distribution of the Agricultural Grant, the Board, after careful consideration, have come to the conclusion that it would not be possible to dispense with any of the forms set forth in the Orders.

The officers of the Council will find that by adhering closely to the instructions contained in the General Orders, and by entering every receipt and payment under its proper heading in the accounts the books themselves will form a reliable guide as to the nature of the duties devolving upon them and as to the operation of the financial provisions of the Act.

The Local Government Board desire to call the special attention of the Council to these Orders, as they point to the imperative necessity on the part of the Council of selecting as Clerks in the Offices of the Council persons who are familiar with accounts, and the Board hope that when the future organization of their staff is under consideration the Council will offer such salaries for these positions as will induce thoroughly experienced and qualified accountants to apply for them. The Board also trust that in the meantime the Council will place their Secretary under no undue restriction in appointing the temporary clerical staff necessary to overtake the preliminary work devolving upon them.

Much of the success of the Council's administration will depend upon the manner in which their instructions are carried out by their officers; and the Council will find that by placing the management of their accounts in the hands of competent accountants they will have the best security against incurring liabilities under the audit in respect of payments made which are irregular or contrary to the provisions of the Act.

Questions, no doubt, will arise upon which the Council may require the advice of the Local Government Board, not only in connection with the accounts, but generally with regard to the discharge of their duties under the Act, and I am to state that if a copy of the Minutes of the Council's proceedings is transmitted to the Local Government Board after each meeting it will not be necessary to address separate communications to this Office when any difficulties arise, as the Board

will at once communicate with the Council on all matters which are referred to them on the Minutes, or upon which they think they can afford the Council any assistance.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

The Secretary of the
County Council.

ESTIMATES AND DEMANDS.

Local Government Board,
Dublin, 29th April, 1899.

SIR,—I am directed by the Local Government Board for Ireland to state, for the information of the Rural District Council, that the next meeting of the County Councils will take place during the month of May, and, as it is very desirable that the new rate should be put in course of collection as soon as possible, you should have the Estimate and Demand to meet the requirements of the Rural District during the year ending March, 1900, prepared at once, and laid before District Council, so that it may be transmitted to the County Council in time for their next meeting.

You should particularly note that the Estimate and Demand must be for the probable expenditure of the whole financial year, although the amount will be raised by the County Council by two half-yearly rates.

The particulars to be furnished to the County Council are given in the forms prescribed by the Board's County Councils Order, 1899, and the demand should show the amount (if any) already received by the Rural District Council in satisfaction of any interim demand made on the County Council.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

The Clerk of the
Rural District Council.

COLLECTION OF RATES SCHEME.

Local Government Board,
Dublin, 18th May, 1899.

SIR,—I am directed by the Local Government Board for Ireland to state that as the time is now approaching when the schemes for the collection of the rates will have to be made by the County Council, the Board think it right to call their special attention to the provisions of Section 115 (11) of the Local Government (Ireland) Act, 1898.

The Council will observe that the existing Officers whose services will be continued must receive remuneration as far as possible equivalent to that which they have heretofore received. The Board are advised that in fixing the area of each collector's district and rate of poundage which he is to receive, the Council must provide that his total emoluments are as nearly as possible equal to what he has hitherto received, and that although the Council might fix a lower poundage if, owing to the increase of the amount to be collected, such rate of poundage will ensure to the collector a sum substantially equivalent to that hitherto paid to him, it would not be competent to them to reduce the poundage rate if the amount to be collected is not correspondingly increased.

The Council will no doubt bear in mind that the consolidated rate now to be collected will include both the old poor rate and the County cess, while on the other hand its amount will be reduced by the amount payable out of the Agricultural Grant.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

The Secretary
of each County Council.

No. 259 M. 1899.—Miscellaneous.

Local Government Board,
Dublin, 31st May, 1899.

SIR,—Numerous inquiries having been made respecting the position, under the Local Government (Ireland) Act, 1898, of Poor Rate Collectors who are existing officers under the Act, and whose original collecting area extended into both an urban and a rural district, the Local Government Board for Ireland deemed it advisable to consult the Law Officers of the Crown on the subject. The opinion of the Law Officers has now been received, and is to the effect that sub-

section 20 of section 115 of the Act applies to the cases mentioned, and that where a difference has arisen the Board can determine whether a collector is transferred to the Council of the County or of the Urban District.

It is probable that the question may be of importance in some instances, and the Local Government Board accordingly request that you will be so good as to bring the matter under the notice of the Urban Authority.

Local Government Board,
Dublin, 4th August, 1899.

SIR,—I am directed by the Local Government Board for Ireland to call the attention of the Rural District Council to Section 115, Sub-Section 18, of the Local Government (Ireland) Act, 1898, which provides, in effect, that existing officers transferred under the Section shall receive such increase or diminution of remuneration in proportion to the increase or diminution of their duties as the Local Government Board may determine, and that the Rural District Council, with the approval of the Board, may make a special agreement with any of their officers in the matter.

The Board have withheld their decision upon the applications which have so far been submitted to them under this Sub-Section, until such time as they are in a position to consider all claims for adjustment of salaries, in consequence of increased work, which any officers of Rural District Councils may desire to put forward.

The Board will, therefore, be glad to receive from the Rural District Council, within a month from the present date, a statement showing the salary of each officer who is affected by the provisions of the Sub-Section referred to, and who has not come to an agreement with the Council as provided therein, together with a statement as to the increase or diminution of work to be taken into account in each case.

Assistant Secretary.

Local Government Board,
Dublin, 9th August, 1899.

SIR,—I am directed by the Local Government Board for Ireland to inform the County Council that they have received statements of claim from certain county surveyors for expenses incurred or extra services rendered in bringing the Local Government (Ireland) Act into operation. Having regard to the general terms of Article 17 (1) of the Local Government (Transitory Provisions) (No. 2) Order, 1898, a copy of which is appended, I am to state that the Board consider it preferable not to deal with isolated cases of this nature and to await a complete return of such claims from each county.

In these circumstances, the Board will be glad to receive, within two months from this date, a return showing the scale upon which the County Council propose to remunerate their officers under the terms of the Article in question, together with a statement of the basis on which this scale was made.

If the officers are satisfied with the amount awarded, the fact may be noted at the foot of the return.

I am, Sir,

Your obedient Servant,
D. J. MACSHEEHAN,
Assistant Secretary.

To The Secretary
to each County Council.

17.—(1.) There shall be paid out of the county fund to any county or union officer such reasonable remuneration, not exceeding the scale approved by the Local Government Board, as the county council, or, in case of the officer being dissatisfied by the amount awarded by the county council, the Local Government Board, may award for expenses incurred or extra services rendered by him in bringing the Act into operation.

SIR,—The Local Government Board for Ireland desire to draw the attention of the County Council to the terms of Section 115, Sub-section 18, of the Local Government (Ireland) Act, 1898, which provide that existing officers transferred under the section shall receive such increase or diminution of remuneration in proportion to the increase or diminution of their duties as the Local Government Board may determine, and that the County Council, with the approval of the Board, may make a special agreement with any of their officers in the matter.

To enable them to discharge the duty thus imposed upon them, the Board will be glad to receive, within three months from the present date, a statement showing the salaries of the Secretary, County Surveyors, Assistant Surveyors, and other officers of the Council who are affected by the provisions of the sub-section referred to, and who have not made a special agreement with the Council on the subject, together with a statement as to the increase or diminution of work to be taken into account in each case.

Any observations which the Council may see fit to make respecting the claims of their officers under the enactment in question will receive full consideration on the part of the Board.

No. 318. M./1899.

Local Government Board, Dublin,
29th August, 1899.

SIR,—The Local Government Board for Ireland desire to draw the attention of the Council to the terms of Section 116 of the Local

Government (Ireland) Act, 1898, which provide that if the duties of any existing Town Clerk of a Borough or Clerk to the Commissioners of any Town are increased, he shall receive such increase of salary in proportion to that increase of duties as the Local Government Board may determine.

The Board have been applied to in a large number of instances to determine the future salaries to be paid to Town Clerks in respect of increased duties, but they have deemed it advisable to withhold their decision in all cases until such time as they are in a position to consider all claims for increase of salaries in consequence of increased work which the officers mentioned may desire to submit.

The Board will, therefore, be glad to receive within a month from the present date a statement showing the salary of the Town Clerk or Clerk to the Commissioners who is affected by the provisions of the section referred to, and who may not have arrived at an agreement with the Council on the subject, together with a statement as to the increase of work to be taken into account in each case.

Any observations which the Council may see fit to make respecting any claim put forward affecting them under the enactment in question will receive full consideration on the part of the Board.

No. 60,075 : 1899.—Miscellaneous.

Local Government Board, Dublin,
17th October, 1899.

SIR,—I am directed by the Local Government Board for Ireland to acquaint you, for the information of the County Council, that the question of the liability of Councils for the payment of the cost of printing required for the offices of the Clerks of the Crown has lately been under the consideration of the Irish Government, and that the Government are advised that the obligation imposed by statute on the Grand Juries to defray these expenses was transferred to County Councils by the Local Government Act of 1898.

Section 20 (3) of the County Officers and Courts (Ireland) Act, 1877, provides that "after the union of the offices of Clerk of the Crown and Clerk of the Peace for any county or borough no further moneys, except any special pensions payable under this Act, shall be presented or paid in such county or borough for or in respect of the salaries or remuneration of Clerk or temporary Clerk of the Crown, or of Clerk or temporary Clerk of the Peace; but notwithstanding the union of the offices of Clerk of the Crown and Clerk of the Peace, and both before and after such union, all sums now presentable or payable, other than such salaries or remuneration, shall continue to be presented and paid in the same manner as heretofore."

Section 4 (1) of the Local Government (Ireland) Act, 1898, trans-

fers to the Council of each county all the business heretofore discharged by the Grand Jury and County at large presentment sessions and not excepted by the section, and Section 72 empowers the Council to discharge all the duties thus transferred, while Section 45 enables them to raise money to defray the expenses incurred in performing these duties.

Inasmuch as Section 20 (3) of the Act of 1877 has not been repealed or amended by the Local Government Act, it is the opinion of the Law Officers that the County Council, as successors to the Grand Jury in fiscal and administrative matters, are bound to provide for the execution of the printing required in connection with the Department of the Clerk of the Crown and Peace for which the county has heretofore presented or paid.

LOCAL GOVERNMENT (IRELAND) ACT, 1898.

ADJUSTMENTS.

Local Government Board,
Dublin, 31st October, 1899.

SIR,—I am directed by the Local Government Board for Ireland to state, for the information of the Board of Guardians, that questions have arisen in reference to the manner in which the Union

accounts for the half-year ended 30th September, 1899, are to be closed, having regard to the instructions contained in the Board's Memorandum of November last to the effect that, pending adjustment, the accounts of each Board of Guardians should be kept distinct from those of their predecessors.

It is of course essential that all the Cash balances and all balances to debit and credit of Electoral Divisions appearing in the account of the previous Board for the half-year ended 25th March, 1899, should be excluded from the September accounts, but the stock of Provisions and Necessaries, Clothing and Bedding, and Workhouse Burial Materials which passed to the new Board on the appointed day must be brought into the new accounts. The aggregate value of this stock should be credited to the County, or, in the case of a Union extending into two or more Counties, should be apportioned to credit of those Counties according to valuation, and should appear in the Ledger and Abstracts as a balance to credit of those Counties at the opening of the new accounts.

In formulating their demands on the County Councils for money supplies hereafter the Guardians should, however, be careful to exclude from the balances shown in Table (C) of Form 23 of the County Councils Order, 1899, that part of the balances which represents the value of stock of various kinds in hands, as if this be not done the money supplied on demand will prove insufficient to meet the requirement of the Union.

In Unions where "unpaid Bills," belonging to the former Guardians have been discharged out of the accounts of the present Guardians it will be necessary to carry them to an Unpaid Bills Suspense Account. Such sums should not be brought into the Union Fund Account to debit of the County or Counties in which the Union is situated, but should be shown in the balance sheet as an unappropriated item which will be dealt with on the adjustment of the accounts.

I am, Sir,

Your obedient Servant,

To the Clerk of each Union.

No. 29 M.—1900.

Local Government Board,
Dublin, 21st February, 1900.

SIR,—I am directed by the Local Government Board for Ireland to state that they have had under-consideration the claims for increased remuneration for increased duties made to them under Section 115 (18) of the Local Government (Ireland) Act, 1898, by the Assistant Surveyors who have failed to come to an agreement with the County Councils on the matter.

The Board have carefully considered all representations which have been received by them from the County Councils and their Officers in response to their Circular of the 29th of August upon this subject, and they have also had before them a memorandum prepared by the Assistant Surveyors showing the nature of the increased duties devolving upon them under the Act.

It appears that the length of roads in Assistant Surveyors' districts varies, except in a very few cases, from 200 to 500 miles, and in considering the claims of these Officers the Local Government Board have come to the conclusion that the mileage in each Assistant's district should be taken into consideration in determining the salary of these Officers, but that no salary should be less than £120 a year.

The Board have accordingly decided that the salaries of all existing Assistant Surveyors should be increased, and should be fixed according to the following scale in all cases where an agreement has not been arrived at:—

Districts not exceeding	250 miles,	£120 a year.
"	" 275	" £125
"	" 300	" £130
"	" 325	" £135
"	" 350	" £140
"	" 375	" £145
"	" 400	" £150

The Local Government Board therefore request that the County Council, unless they have otherwise agreed with their Assistant Surveyors, will be good enough to arrange for the payment of their salaries upon this scale from the 1st of April last.

The Board are of opinion that an Assistant Surveyor's district should not include, if possible, an extent of roads greater than 250 miles, and that under no circumstances should an Assistant Surveyor be required to take charge of a district with an aggregate mileage exceeding 400.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,

Secretary.

GENERAL ORDER.

Regulations in pursuance of the Pauper Children (Ireland) Act, 1898,
61 & 62 Vic., Ch. 30.

To the Guardians of each Poor Law Union in Ireland; and to all others whom it may concern.

In pursuance of an Act passed in the Sixty-second year of the reign of Her Present Majesty, intituled, "An Act to make further provision with respect to the Relief of Pauper Children in Ireland, and for other purposes connected therewith," We, the Local Government Board for Ireland, do hereby make the following Regulations for the purpose of giving effect to the provisions of the said Act:—

BOARDING-OUT REGULATIONS.

Limit of Age and Conditions.

1. The limit of age up to which orphan and deserted children may be boarded out of the Workhouse shall be fifteen years, unless and until We shall otherwise order, and such children within this limit of age may be boarded out either within or without the limits of any Union.

2. Every person with whom any such child shall be placed out at nurse, or boarded out, under the said Act, shall be of the same religion as that in which the child is registered and shall be called the foster-parent, and shall, before receiving custody of the child, sign a Contract with the Board of Guardians in the form prescribed in the Schedule to this Order, binding himself or herself, as the case may be, to observe all the conditions herein contained so long as the said child shall continue at nurse or be boarded out with such foster-parent. Any breach of these conditions shall be cognizable by the Auditor and payments in violation of any condition shall be liable to surcharge.

3. The child shall be properly and sufficiently nursed or boarded, and shall be suitably lodged and clothed, and kept clean in its person by being washed once at least every day, and at all times when necessary, and the clothes provided shall not be of such shape or colour as may denote connection with the Workhouse, or with any Institution; and no child shall be nursed or boarded out in any house unless there is a woman living there who is of full age and with experience in the management of children.

4. If the child shall at any time be suffering from illness or accident, medical relief shall be obtained for it in the manner provided by law at or from a dispensary of the Dispensary District in which the foster-parent resides, and if the Medical Officer of such District shall advise its removal to hospital, the foster-parent shall allow it to be so removed.

5. Before the signing of the said Contract the proposed foster-parent shall produce a recommendation signed by some Clergyman, Magistrate, Guardian of a Union, or Medical Officer residing in his or her neighbourhood, who may be willing to answer for his or her good conduct and respectability.

6. Before the signing of such Contract, the Board of Guardians shall have satisfied themselves that the dwelling of the proposed foster-parent is in a healthy situation, that the house contains more than one room and admits of the sexes being completely separated, and that the family have the means, at all times, of supplying themselves with pure and wholesome drinking water, and with good food and milk, and that there is a National School, or other public school, situate at a convenient distance from the dwelling.

7. There shall be inserted in the form of Contract the precise terms of monthly payment to the foster-parent, excluding the cost of new clothing or repairs of clothing, and of School Fees, if any, for the child's education, which shall be separately provided by the Guardians, and the Contract shall be signed on behalf of the Guardians by the Presiding Chairman.

8. The number of children who may be boarded out with one and the same foster-parent shall, unless and until We otherwise direct, not exceed two, unless all the children so boarded out are children of the same parents: and no child in excess of the number hereby fixed shall be permitted to continue with any foster-parent, nor shall any child be boarded out with any person who shall keep any pig, cow, donkey, or other such animal within the dwellinghouse, or who shall keep any manure-pit or accumulation of filth in dangerous proximity to the dwelling.

9. No child shall be boarded out in any town or village without our consent.

10. The child shall be presented for inspection and examination at all reasonable times when required by the Relieving Officer, or by any person having authority from Us, or from the Board of Guardians, to examine and inspect it.

11. The child shall be restored to the custody of the Board of Guardians and its officers at any time when the foster-parent shall be required by the Guardians so to restore it.

Charging Expenses.

12. The name of the child, together with the other particulars required by the Workhouse Rules shall, on its discharge from the Workhouse, be placed on the out-door relief register, and on the

out-door relief list; and the sums expended in the relief of all such cases shall be entered, like other sums expended in out-door relief, in the Relieving Officer's weekly relief and expenditure book.

13. The expenses of relieving such child, of conveying it to and from the home to the Workhouse, or from one home to another, and of its burial in case of death, shall be charged under the head of out-door relief, and entered in the Union accounts accordingly; and, in the case of burial service having been performed, the expense thereof shall be charged and brought to account in like manner.

Divine Worship and School.

14. The child shall, when of sufficient age to attend school, attend the nearest National School, or other public school approved by the Guardians and by the Workhouse Chaplain of the persuasion in which the child is registered, and a certificate of such attendance, signed by the teacher, and showing the days of absence (if any), shall be given to the Relieving Officer each month; provided that, if the school be not a National School, the child shall be examined annually by an Inspector of the Commissioners of National Education at a convenient time and place, and the result of the examination reported to the Board of Guardians.

The child shall, when of sufficient age, attend Divine worship at the place of worship frequented by the foster-parent and his or her family.

Supervision and Inspection.

15. The Board of Guardians shall provide for the supervision of all children placed at nurse or boarded out by them by assigning that duty in each case to the Relieving Officer, who shall discharge the same in accordance with the following regulations:—

- (a.) He shall see the child safely given over in charge to the person whom the Guardians shall have selected for the purpose.
- (b.) He shall pay, by advance or otherwise, as the Guardians shall direct, but not less often than by monthly payments, the sums granted from time to time by the Guardians for the maintenance of the child from the funds placed at his disposal by them for that purpose.
- (c.) He shall cause such child, if not already successfully vaccinated, to be vaccinated by the Medical Officer of the Dispensary District in which the foster-parent resides.
- (d.) He shall visit such child once at least in every month, and also when any special occasion shall arise for so visiting it, and he shall report in writing immediately thereafter to the Board of Guardians on its health, cleanliness, and treatment, together with such other particulars as the Guardians shall at any time require.
- (e.) He shall, in the event of the death of such child, take steps for its interment according to the directions of the Board of Guardians applicable generally to such cases, and shall report the circumstances of the death to the Guardians without delay.

16. The Guardians may, if they think fit, with the consent of the Local Government Board, defray any expenses actually and properly incurred by the Relieving Officer in discharging the duties of supervision.

17. A Committee of ladies shall be appointed not necessarily composed of ladies who are Guardians, to visit each home, and to report such visits to the Guardians, making at the same time any remarks that they may think desirable.

18. Children shall not be placed out at service under twelve years of age, and shall, until they attain the age of sixteen years, be visited by the Relieving Officer at such times as the Guardians shall appoint, and the Relieving Officer shall report after each visit as to their condition, and as to the wages which they receive.

Application of Regulations.

19. These Regulations shall be deemed to apply to children put out to nurse or boarded out before the passing of the said Act, under the provisions previously in force in Ireland for putting out to nurse or boarding out orphans and deserted children, or before the issuing of this Order; and, in the event of any such children returning to the Workhouse and being again boarded out with the same or other foster-parents, the foster-parent shall in each such case contract as is provided in these Regulations; and in regard to children not coming back to the Workhouse, but remaining boarded out, the Board of Guardians shall require each foster-parent to observe the conditions contained in these Regulations, and in every case of their not consenting to do so, or making default therein, the child shall be restored to the custody of the Guardians.

Given under our Hands and Seal of Office this Twenty-seventh day of April, in the Year of our Lord One Thousand Eight Hundred and Ninety-nine.

[Order amending General Regulations.]

To the Guardians of the Poor of the several Unions named in the Schedule hereunto annexed, and the Officers of such Unions; and to all others whom it may concern.

WHEREAS in pursuance of the powers vested in Us by an Act passed in the second year of the Reign of Her Majesty Queen Victoria, entitled "An Act for the more effectual Relief of the Destitute Poor in Ireland" by the other Acts in force for the Relief of the Poor in Ireland and amending the said Act, and by the Local Government Board (Ireland) Act, 1872, We, the Local Government Board for Ireland, did, by an Order under our Seal bearing date the

Eighteenth day of December, 1882, among other things, regulate the meetings and proceedings of the Boards of Guardians of the Poor of the several Unions in Ireland:

And whereas it is expedient by reason of the passing into law of the Local Government (Ireland) Act, 1898, that the regulations contained in Article 3 of our said Order should be amended:

Now, therefore, We, the Local Government Board for Ireland, do hereby revoke the regulations contained in the said Article 3 of our said Order of the Eighteenth day of December, 1882, and do prescribe concerning the election of Chairmen, Vice-Chairmen, and Deputy Vice-Chairmen of Boards of Guardians as follows:—

1. Every Board of Guardians shall hold an Annual Meeting at which a Chairman, Vice-Chairman, and Deputy Vice-Chairman shall be elected from among the members of the Board.

2.—(1.) In a Union which is situate wholly in one County such Annual Meeting shall be held on the same day as the Annual Meeting of the Council of the Rural District comprised in such Union, but after the conclusion of the Meeting of such Council.

(2.) In a Union which is not situate wholly in one County such Annual Meeting shall be held—

(a.) If the Annual Meetings of the Councils of the several Rural Districts comprised in such Union are held on the same day, then on that day, but after the conclusion of the Meetings of such Councils: Provided that if, in any such case, it is proved to the satisfaction of the Local Government Board that substantial inconvenience would be caused by the Annual Meeting of the Guardians being held on the same day as the Annual Meetings of such Councils, the Local Government Board may allow the first meeting of the Guardians after a triennial election to be held on some other day not more than four days later, and the day so allowed shall be the day of the Annual Meeting of the Guardians in each of the two years following the year in which such Triennial Election was held.

(b.) If the Annual Meetings of the Councils of the several Rural Districts comprised in such Union are held on different days, then on the latest day on which the Annual Meeting of any such Council is held, but after the conclusion of the Meeting of such Council.

3.—(1.) At the first Meeting of a Board of Guardians after a triennial election and at each subsequent Annual Meeting the first business shall be the election successively of a Chairman, Vice-Chairman, and Deputy Vice-Chairman, who shall severally remain in office until their successors are elected and have respectively made declarations accepting office, unless any such Chairman, Vice-Chairman, or Deputy Vice-Chairman shall previously die, resign, be or become incapable of holding or be disqualified for the office by ceasing to be a member of the Board, in any of which cases his office shall become vacant.

(2.) Provided that if at the first meeting after a triennial election the outgoing Chairman, Vice-Chairman, and Deputy Vice-Chairman have ceased to be members of the Board, a Chairman of the meeting shall be elected from among the members of the Board present at the meeting, and shall preside as such outgoing Chairman, Vice-Chairman, or Deputy Vice-Chairman respectively might have presided.

- (3.)—(a.) If an equal number of votes is given for two or more persons at the election of Chairman of the meeting, the meeting shall determine by lot which of those persons shall be Chairman of the meeting.
- (b.) No. 124/M : 1899—Miscellaneous.

Local Government Board,
Dublin, 22nd April, 1899.

SIR,—I am directed by the Local Government Board for Ireland to state, for the information of the Board of Guardians, that there appears to be some misapprehension as to the manner in which the form of the financial minutes prescribed by the Board's recent Union Accounts Order is to be used, and in a few instances it appears to be considered that the form is to be sent to the Office in lieu of the copy of the Guardians' Minutes heretofore forwarded.

The Local Government Board desire to point out that a copy of the Guardians' Minutes of Proceedings must be transmitted as usual to the Board on the day following the day of meeting, and the financial minutes must be incorporated with the old form and substituted for the pages previously required for recording financial transactions, &c. The first page of the usual form of Minutes giving

statistical particulars must continue to be forwarded, and pages must also be provided for recording reports made by the Master and other Officers, letters from the Local Government Board, &c., and, the proceedings of the Guardians generally.

The Board consider that the Guardians would do well to procure a supply of Minute forms in which they should incorporate the financial Minutes prescribed by the Board.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

The Clerk of each Union.

No. 85 M., 1899. Miscellaneous.

RELIEF OF PAUPER CHILDREN OUT OF THE WORKHOUSE.

Local Government Board,
Dublin, 4th May, 1899.

SIR,—The accompanying Order of the Local Government Board for Ireland has been made under the Pauper Children (Ireland) Act, 1898, 61 & 62 Vict., ch. 30.

Out-door Relief to the class in question by nursing out, or boarding out, is now extended in Ireland from children of 13 to children of 15 years of age.

The law is permissive only, and those Boards of Guardians which may adopt it will find that in framing the present Regulations the Local Government Board for Ireland have endeavoured to secure that the children shall be as well fed, clothed, lodged, cared for, educated, and trained as possible in every case. The Act itself, of which a copy is enclosed, provides that the foster-parent shall be of the same religion as that in which the child has been registered.

The recommendation of suitable foster-parents by persons residing in their locality, and able to judge of their fitness, is provided for in the Order.

Of such recommendations a certificate from the Medical Officer of the Dispensary District in which the proposed foster-parent resides will be of great value; and it would be well to require such testimony in every instance, as that Officer is the person qualified to express an opinion upon the sanitary conditions of the residences of the poor in his district.

In reference to the provision of the Order which relates to the attendance of the child at school, the Board have to observe that, although this Regulation admits of the child being sent to a public school other than a National School, schools under the National Board are those which should generally be selected for the education of orphan and deserted children, except where on account of distance

or other sufficient reason the Guardians may consider some other school more suitable to the special circumstances of any particular case; and it will be observed that in such cases provision will be made for an annual examination of the child by an Inspector of the Commissioners of National Education.

Besides the matters dealt with in the accompanying Order, the Local Government Board desire to draw the attention of Boards of Guardians to other provisions of the Act of 1898.

Subject to the educational test prescribed by Section 1, Sub-section (5), Guardians may, with the consent of the Local Government Board, pay a fee on the apprenticeship of any orphan or deserted child who has reached the age of 15 years:

By Section 2 Guardians are empowered under certain conditions to provide for the education of children who are inmates of the Workhouse in a National School outside. Particular care should be taken that the clothes provided for children attending outside schools should not be all alike, nor of such shape or colour as would denote connection with the Workhouse or with any institution.

Section 3 provides for the reception under certain conditions of pauper children as pupils and inmates in any school other than a national school. The Local Government Board may, if they think fit, on the application of the managers, cause an inquiry to be made as to the fitness of any such school for the reception of children, and a Board of Guardians may not send any child to any such school until the Local Government Board has certified that the school is fit for the purpose.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

To the Clerk of each Union.

COLLECTION OF SEED RATE.

Local Government Board,
Dublin, 12th May, 1899.

SIR,—I am directed by the Local Government Board for Ireland to draw the attention of the Boards of Guardians to the terms of Section 5 of the Seed Supply and Potato Spraying (Ireland) Act, 1898, which provides:—

5.—(1.) The amount due to the guardians on account of any seed or spraying material sold by them, and not paid for in cash on delivery, shall be paid by two equal instalments.

(2.) For obtaining payment of each such instalment due from any person the guardians shall levy the amount, where the person is rated to the poor rate, either as part of the poor rate payable

by such person, or by a special rate to be added to the poor rate assessed on the tenements occupied by such person, and to be collected therewith.

(3.) Where such person is not rated to the poor rate the guardians shall make a special rate for the purposes of this Act to which he shall be rated.

(4.) Every such special rate shall be recoverable in the same manner and with the same remedies by the collectors of the poor rate as if it were poor rate, and shall be lodged to the credit of the guardians with the treasurer of the union.

(5.) Provided that no person shall be entitled to make any deduction from his rent on account of any such special rate.

(6.) The first of such special rates shall be made at the same time as the first ordinary poor rate made after the first day of July, one thousand eight hundred and ninety-eight, and the second of such special rates shall be made at the same time as the first ordinary poor rate made after the last day of March, one thousand eight hundred and ninety-nine.

(7.) The first instalment payable by each purchaser of seed or spraying material shall be due on the day on which the first of such special rates is made, and the second instalment shall be due on the day on which the second of such special rates is made. Any such instalment may be paid to the guardians at any earlier date.

(8.) After the election of a county council for any county, all the powers and duties under this section of the board of guardians as respects any electoral division in that county shall vest in that council, and the guardians shall certify to that council the sums of which payment is to be obtained.

It will therefore be necessary for the Guardians, under Sub-section 8 of the above-quoted Section, to forward *forthwith* to the Council or Councils of the County or Counties in which the Union is comprised a list of the persons owing Seed rate in the Union or portion of the Union in each County, with particulars of the sums due in each case, so that the Council may be in a position to raise by the first rate struck such amounts as may be necessary to place the Guardians in funds to enable them to pay off any instalment or instalments of Seed loans due by the Guardians to the Commissioners of Public Works.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

To the Clerk of each Union.

329/M. 1899.—Miscellaneous.

Local Government Board, Dublin,
22nd September, 1899.

SIR,—The Local Government Board for Ireland desire to state, for the information of the Board of Guardians, that their attention has been drawn by the Lords Commissioners of the Admiralty to

the fact that some difficulty and delay have arisen in connection with the transfer to Union Workhouses in Ireland of men invalided from the Royal Navy for insanity through the action of Workhouse Masters refusing such persons admittance to Workhouses.

The Local Government Board therefore deem it advisable in the circumstances to bring under the notice of the Guardians the terms of Section 3 of the Naval Enlistment Act, 1884 (47 & 48 Vic., chap. 46), which applies to the Naval Service the provisions of Section 91 of the Army Act, 1881 (44 & 45 Vic., chap. 58). Copies of the sections in question are enclosed, and the Board trust that the Guardians will give directions to the Master of the Workhouse, or to the Officer acting in his absence, to at once receive into the Workhouse persons invalided from the Naval Service of Her Majesty who are transferred to the Workhouse by the Admiralty under the powers conferred by the sections above referred to.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,

Acting Secretary.

To the Clerk of each Union.

(47 & 48 Vic., ch. 46.)

3. Section ninety-one of the Army Act, 1881 (which section relates to the sending of lunatic soldiers by a Secretary of State to workhouses and lunatic asylums and other places in which lunatics can legally be confined), shall apply in like manner as if it were herein re-enacted, with the substitution of "a person in the naval service of Her Majesty" for "soldier" and "soldier of the regular forces" respectively, and of "the Admiralty" for "a Secretary of State," and as if any declaration made on a person entering into the naval service of Her Majesty as a boy by his parent or guardian, or made by a man entering into such service, were respectively substituted for the attestation paper.

Copy of Section 91 of the Army Act, 1881.

(44 & 45 Vic., ch. 58.)

91.—(1.) A Secretary of State may, if he think proper, on account of a soldier's lunacy, cause any soldier of the regular forces on his discharge, and his wife and child, or any of them, to be sent to the parish or union to which under the statutes for the time being in force he appears, from the statements made in his attestation paper and other available information, to be chargeable; and such soldier, wife, or child, if delivered after reasonable notice, in England or Ireland at the workhouse in which persons settled in such parish or union are received, and in Scotland to the inspector of poor of such parish, shall be received by the master or other proper officer of such workhouse or such inspector of poor, as the case may be:

Application of

45 Vic., c. 58, to
lunatic seamen.

or child at

(2.) Provided that a Secretary of State, where it appears to him that any such soldier is a dangerous lunatic, and is in such a state of health as not to be liable to suffer bodily or mental injury by his removal, may, by order signified under his hand or under the hand of an under-secretary, send such lunatic direct to an asylum, registered hospital, licensed house, or other place in which pauper lunatics can legally be confined, and for the purpose of the said order the above-mentioned parish or union shall be deemed to be the parish or union from which such lunatic is sent.

(5.) In the case of any such lunatic, who is liable to be delivered at a workhouse in Ireland, at which persons settled in the said union are received, a Secretary of State may, by order under his hand, send such soldier to the asylum of the district in which such union is situate and such order shall be of the same effect as a warrant under the hands and seals of two justices given under the provisions of the tenth section of the Act of the session of the thirtieth and thirty-first years of the reign of Her present Majesty, chapter one hundred and eighteen, intituled "An Act to provide for the appointment of the officers and servants of district lunatic asylums in Ireland, and to alter and amend the law relating to the custody of dangerous lunatics and dangerous idiots in Ireland."

LOANS FOR WORKHOUSE BUILDINGS AND ALTERATIONS UNDER SECTION 61 OF THE LOCAL GOVERNMENT (IRELAND) ACT, 1898.

Local Government Board,
Dublin, 10th November, 1899.

SIR,—I am directed by the Local Government Board for Ireland to advert to their circular letter of the 20th of December, 1898, referring to the provisions of Section 61 of the Local Government (Ireland) Act, 1898 (61 & 62 Vic., Ch. 37), respecting the terms and conditions upon which Boards of Guardians in Ireland may obtain loans under the Poor Relief (Ireland) Act, 1838, and any Acts amending that Act, including the Medical Charities Acts, and I am to state that the Board have been in communication with the Commissioners of Public Works as to:—

- (a.) The classes of works for which loans may be approved.
- (b.) The period of repayment for each class.
- (c.) The minimum amount for which a loan in each class should be made.

As regards (a.) the Local Government Board considered that the following were works for which loans for Workhouse improvements might properly be granted:—

- (1.) The acquisition of lands and easements, or rights in connection therewith.
- (2.) The erection of new buildings—first class.
- (3.) Alterations in existing buildings.
- (4.) Drainage and water supply.
- (5.) Baths, closets, &c.
- (6.) Kitchen and laundry equipment.

The next question, as to the terms on which loans might be granted for the purposes mentioned; has received very full and careful consideration, and as a result the Board learn that the Lords Commissioners of Her Majesty's Treasury have signified their consent to grant loans for the purposes stated on the condition that the loans will be repayable by equal instalments of principal, half-yearly, with interest on the outstanding balance from time to time.

The maximum period of repayment for loans for the respective purposes referred to has, with the approval of their Lordships, been fixed as follows:—

	Period.
(1.) Acquisition of Land,	50 years.
(2.) Erection of New Buildings (First Class),	40 "
(3.) Alterations in Existing Buildings,	35 "
(4.) Drainage and Water Supply,	30 "
(5.) Baths (hot-water), Closets, Disinfecting Chamber, Electric Lighting, Strong Closet,	25 "
(6.) Kitchen and Laundry Equipments,	15 "

With regard to the minimum amount of the loan which might be granted to Boards of Guardians for the purposes mentioned, their Lordships have been pleased to approve of the following scale:—

- (1.) Where the valuation of the Union is not over £20,000—£50.
- (2.) Where the valuation of the Union is between £20,000 and £40,000—£100.
- (3.) Where the valuation of the Union is over £40,000—£150.

It will be necessary before application is made for a loan that a formal resolution should be adopted by the Board of Guardians after notice as prescribed by the General Regulations respecting Guardians' proceedings; and in cases where the expenditure exceeds £400, the consent in writing of a majority of the Guardians to such expenditure should be obtained in the manner prescribed by Section 36 of the Act 1 & 2 Vic., Ch. 56.

The Guardians will no doubt bear in mind that these loans will be granted on the understanding that they shall not be to any extent sought for any works of maintenance, but are intended to be wholly applied for such works of improvement as involve additions to or alterations of existing buildings.

A copy of a form in which applications may be made for sanction to loans is enclosed, and such forms may be obtained from the Local Government Board on application when loans are required.

Your obedient Servant,

H. M. SWAINE,
Secretary.

MEDICINE CONTRACTS.

Local Government Board,
Dublin, 12th April, 1899.

SIR,—Adverting to their Circular Letter of the 17th February last on the subject of Medicine Contracts and Recoupment, the Local Government Board for Ireland enclose, for the Guardians' information, an extract from a Memorial recently addressed to the Board, and signed on behalf of seven Wholesale Drug Firms. The Memorialists point out that the loss to Union Contractors on account of the bottles, jars, pots, hampers, and packages in which Medicines are supplied, is a very serious item.

It will be observed that the prescribed form of Medicine Tender provides that Contractors shall take back at their own expense and risk all empty returns at full price, and does not warrant the Guardians in either retaining or purchasing such articles.

In view of the competition for the Contracts, and in order to secure the full benefit thereof to the Ratepayers, the Local Government Board think it advisable, having regard to the statements made in the Memorial, that the Guardians should clearly intimate to each Medical Officer (or Compounder of Medicine) that it is his duty to

take charge of and keep carefully and safely, as far as lies in his power, the vessels and hampers which are received from the Contractor with the Medicines, and, in addition, to afford reasonable facilities to the Contractor for obtaining the return of these articles when empty.

I am, Sir,

Your obedient Servant,

THOS. A. MOONEY,

Secretary.

The Clerk of each Union.

Extract from Memorial dated the 20th March, 1899.

The undersigned firms beg respectfully to bring under the notice of the Local Government Board a grievance which has existed for many years in connection with the supply of medicines to the various Unions in Ireland.

The item of bottles, jars, pots, hampers, and packages generally in which the medicines are contained, is a very serious item of expense.

The trade understands that the Local Government Board desire, under their new form of tender, that these should be returned by the persons in charge of the various Dispensaries and Workhouse Hospitals, and, in case this is not done, that the Contractor should be paid a fair price for those retained. Hitherto Boards of Guardians have absolutely declined to pay anything. There is gross carelessness with regard to packages, and in many cases it is reported that they are deliberately sold for the benefit of the person in charge.

Experience shows that the loss to the Contractor is on the average about 5 per cent. on the payment received, which, we respectfully submit, might be saved if more stringent regulations were issued on the subject by your Honourable Board.

The undersigned members of the trade humbly request that, at an early date, the Local Government Board will plainly intimate to the Boards of Guardians that reasonable care must be taken of empties, and that the Medical Officer should instruct the person in charge to have them properly packed and returned at the Contractors' risk and expense, or, failing this, that payment must be made at fixed rates.

MEDICINE EXPENDITURE.—RECOUPMENT.

Local Government Board,

Dublin, 4th August, 1899.

SIR,—The Local Government Board for Ireland desire to state that, in due course, they will transmit a form in which the Board of Guardians may make application, through this Department, for recoupment, out of the Local Taxation (Ireland) Account, of one-half of the cost of such Medicines and Medical and Surgical Appliances as shall have been provided during the half-year ending the 30th proximo in accordance with the prescribed conditions. The conditions are fully set forth in Article 36 of the Dispensary Rules, and include the following:—

“Recoupment from the Local Taxation (Ireland) Account will only be allowed upon drugs and other articles contained in the Local Government Board’s prescribed Lists.

“Recoupment will not be sanctioned until the Guardian obtain a certificate from the County or other Analyst recognized by the Local Government Board that he has examined samples of drugs from the Workhouse and the various Dispensaries of the Union. When there has been any departure from the required standard, special attention must be called to the fact in the certificate.”

The claim for recoupment should be furnished as soon as possible after the termination of the half-year, and should be accompanied by the requisitions, the invoices and other vouchers, the certificates of the Analyst, and a certificate from the Clerk of the Union that all the articles in respect of the cost of which recoupment is applied for are contained in the prescribed Lists.

The Local Government Board have to add that it is incumbent on Guardians who have not yet engaged the services of a recognized Medicine Analyst to do so without any further delay, and to instruct their Medical Officers to submit for analysis samples of the drugs obtained during the current half-year; otherwise recoupment cannot be sanctioned, and the expenditure incurred for Medicines must be defrayed wholly out of the Rates.

APPOINTMENT OF DISPENSARY MEDICAL OFFICERS.

Local Government Board,
Dublin, 4th August, 1899.

SIR,—The Local Government Board for Ireland desire to inform the Board of Guardians that difficulties have arisen recently in some few instances in connection with the appointment of Dispensary Medical Officers.

As the Guardians are aware, a Dispensary Medical Officer becomes, in pursuance of Section XI. of the Public Health (Ireland) Act, 1878, the Medical Officer of Health of the area under his charge. Section 85, Sub-section 4, of the Local Government (Ireland) Act, 1898, provides that the additional salary allowed for the public health duties shall be paid by the District Council; and where the Dispensary District is partly Urban and partly Rural, or is situate in two or more Urban Districts, the salary is apportioned and payment is made of the separate amounts by the respective District Councils.

The Local Government Board have to point out that in future, on the occurrence of a vacancy in the Dispensary Medical Staff, the Guardians should, in order to act regularly, request the District Council to fix the salary for the post of Medical Officer of Health, and should postpone holding an election until the sanitary salary has been fixed by the Council and approved by the Local Government Board.

The advertisements issued by the Guardians inviting candidates for the office should contain full information regarding the emoluments (including the sanitary salary).

Any alteration proposed by the Guardians in the salary attached to the appointment should also, prior to the publication of advertisements, receive the approval of the Local Government Board in accordance with Section 8 of the Act 14 & 15 Vic., cap. 68.

The Board have also to draw attention to the terms of Sec. 58 (2) (a) of the Local Government (Ireland) Act, 1898, and to state that recoupment out of the Local Taxation (Ireland) Account can be made only in respect of salaries approved by the Local Government Board.

I am, Sir,

Your obedient Servant,

D. J. MACSHEAHAN,
Assistant Secretary.

The Clerk of each Union

No. 16/M., 1900.—Miscellaneous.

Local Government Board,

Dublin, 2nd February, 1900.

SIR,—The attention of the Local Government Board has recently been drawn to the diversity of practice which exists in different parts of Ireland in regard to the closing of schools with a view to prevent the spread of infectious disease; and the Board, therefore, think it desirable to address the Sanitary Authority on the subject.

The provisions of the Public Health Acts bearing on the subject are Sections 144 and 146 of the Public Health (Ireland) Act, 1878, and are as follow:—

(Section 144.)—"Any person who knowingly lets for hire any house, room, or part of a house, in which any person has been suffering from any dangerous infectious disorder, without having such house, room, or part of a house, and all articles therein liable to retain infection, disinfected to the satisfaction of a legally qualified medical practitioner, as testified by a certificate signed by him, shall be liable to a penalty not exceeding twenty pounds.

"For the purposes of this section, the keeper of an inn or school shall be deemed to let for hire part of a house to any person admitted as a guest into such inn or school, respectively."

(Section 146.)—"Any person who shall knowingly or negligently send a child to school who, within the space of three months, has been suffering from any dangerous infectious disorder, or who has been resident in any house in which such dangerous infectious disorder shall have existed within the space of six weeks, without a certificate from some duly qualified medical practitioner that such child is free from disease and infection, and unless his or her clothes have been properly disinfected, shall be liable to a penalty not exceeding forty shillings."

While the Board do not desire to interfere with the discretion of the officer responsible for the health of the District in the measures which he thinks it desirable to adopt with the view of preventing the spread of infectious disease, they wish to point out that neither the Medical Officer of Health nor the Sanitary Authority have any power to order the closing of schools, and they desire to suggest that, before a Medical Officer of Health recommends such a course, he should, in view of the important educational interests of the children not affected by the disease, carefully consider whether less drastic measures may not be equally efficacious in limiting the spread of disease.

In order that such interests may not be needlessly sacrificed the Board consider that, in many instances, the object in view may be sufficiently attained by the Medical Officer of Health placing himself in communication with the Managers and Teachers of Schools. He should draw their attention to the provisions of the sections of the Public Health (Ireland) Act, 1878, quoted above, and point out the grave danger to the public health incurred by permitting the attendance at school of children residing on infected premises, and endeavour in the first instance, by friendly co-operation with the Managers and Teachers, to prevent the attendance at schools of pupils from infected houses and their immediate neighbourhood.

In any case, however, in which the Medical Officer of Health, in addition to other measures adopted to prevent the spread of infectious disease, considers it essential that the schools should be closed, he should recommend the adoption of such a course.

Copies of this Circular are enclosed, and it is requested that one may be handed to each Medical Officer of Health in the District, and that his particular attention may be drawn to the Board's views in this matter as therein set forth.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,

Secretary.

Council.

GLYCERINATED CALF LYMPH.

Local Government Board,
Dublin, 22nd March, 1900.

SIR,—The Local Government Board for Ireland enclose, for your information, a copy of a Circular Letter which they have this day addressed to the Boards of Guardians on the subject of the gratuitous distribution of glycerinated calf lymph for use in public vaccinations instead of humanized lymph.

It will be seen from the Circular in question that it is still permissible for a Medical Officer to carry on arm to arm vaccinations, and to take and store humanized lymph. The Local Government

Board's Vaccine Department will, however, in future only issue glycerinated calf lymph, which will be despatched in capillary tubes, each tube containing sufficient lymph for one vaccination.

Applications for supplies of the lymph should be made direct to the Secretary of the Vaccine Department, No. 45, Upper Sackville-street, Dublin, and should state the number of infants and adults to be vaccinated, and the name of the Workhouse, or the Dispensary District, as the case may be; supplies will be furnished whenever required, and a Medical Officer should, therefore, keep as small a quantity as possible in stock.

The calf lymph will, before issue, be not only tested as to its efficiency, but will also be subjected to careful bacteriological examination. It must, however, be understood that this variety of lymph is liable to be uncertain in its action: it should not be subjected to much disturbance of any kind, or to variations of temperature (the heat of the human body would affect calf lymph carried about in an inside coat pocket); and it is of importance that such lymph, while in stock, should be kept in a cool dark place, and that full particulars should be recorded by each Medical Officer showing the register numbers and dates of the supplies, and the names of the persons vaccinated and the result in each case.

Vaccinations should be performed strictly in accordance with the instructions contained in the Dispensary Rules (pages 63-66), and should be carried out at every stage with aseptic precautions. The calf lymph should be rubbed well into the scratches, and the arm should not be covered until it has thoroughly dried; the result should, in every instance, be inspected by the Vaccinator on the eighth day after the operation, and also on such other days as may be necessary (Article 15, par. X., of the Dispensary Rules).

Your obedient Servant,

H. M. SWAINE,

Secretary.

GLYCERINATED CALF LYMPH.

Local Government Board,
Dublin, 22nd March, 1900.

SIR,—The Local Government Board for Ireland desire to inform the Board of Guardians that, in view of the recommendations of the Royal Commission on Vaccination, they have had for some time

under consideration the question of the advisability of their supplying glyccriuated calf lymph for use in public vaccinations instead of humanized lymph.

The Local Government Board are now in a position to state that they have made the necessary arrangements for the gratuitous distribution, through their Vaccine Department, of calf lymph to Workhouse and Dispensary Medical Officers from the 1st proximo; and the Board have decided to discontinue altogether the issue of humanized lymph after that date. The Medical Officers should, as heretofore, address their applications for the lymph direct to the Secretary of the Vaccine Department, No. 45, Upper Sackville-street, Dublin.

It is not intended, in supplying calf lymph, to supersede or interfere with the practice of vaccination from arm to arm, where feasible, or the practice of storing capillary tubes, or otherwise, humanized lymph chosen by the vaccinators themselves from the best available source.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,

Secretary.

To the Clerk of each Union.

5. Every Officer shall be appointed by a majority of the votes of the members present at a meeting of the Sanitary Authority duly convened and conducted in accordance with the provisions of Article 36 of the Schedule to the Local Government (Application of Enactments) Order, 1898.

6. Every appointment shall, within seven days after it is made, be reported to Us by the Executive Sanitary Officer, or if the appointment be that of the Executive Sanitary Officer by the Acting Clerk of the Council, and shall be subject to Our approval.

Provided that if from exceptional causes extra assistance is temporarily required, or if any Officer is temporarily prevented by sickness or accident, or other sufficient reason, from performing his duties, the Sanitary Authority, subject to Our approval, may appoint a properly qualified person to give such assistance or to act as temporary substitute, and may pay to such person a reasonable compensation for his services.

9. The Sanitary Authority may at their discretion suspend any Officer from the discharge of his duties, and shall in case of every such suspension forthwith report the same, together with the cause thereof, to Us, and if We remove the suspension of such Officer by the Sanitary Authority, he shall forthwith resume the performance of his duties, but if We decide not to remove such suspension the Sanitary Authority may, on being informed of Our decision, dismiss such Officer.

10. Where any change in the extent of the District of any Officer, or in his duties or salary, may be deemed necessary, and he shall decline to acquiesce therein, the Sanitary Authority may, with Our consent, but not otherwise, and after six months' notice in writing, given to such Officer, determine his tenure of the office.

11. All Our consents, approvals, disapprovals, assents, directions, and requisitions touching the appointment and tenure of office of Sanitary Officers shall be signified by Us to the Sanitary Authority by letter.

SALARY.

12. The Sanitary Authority shall pay to all Officers appointed under this Order or under Section 11 of the Public Health (Ireland) Act, 1878, such salaries as We may from time to time approve or direct.

Provided always that the Sanitary Authority may, with Our approval, pay to any Officer a reasonable compensation on account of exceptional services connected with his duties or the necessities of the District or Districts for which he is appointed.

13. The salary of every Officer shall be payable up to the day on which he ceases to hold office and no longer, and in case he shall die whilst holding such office, the proportion of salary (if any) remaining unpaid at his death shall be paid to his personal representatives.

Provided that an Officer who may be suspended, and who may, without the previous removal of such suspension, resign or be removed under Article 8 of this Order, shall not be entitled to any salary from the date of such suspension.

SANITARY ORDER No. 2.

To the Councils of the several Urban Districts for the time being in Ireland other than the Councils of County Boroughs, and to all whom it may concern.

WHEREAS it is enacted by Section 22 (1) of the Local Government (Ireland) Act, 1898, that all Urban Sanitary Authorities shall be called Urban District Councils and their Districts called Urban Districts, but that nothing in the said Section shall alter the style or title of the Corporation or Council of a Borough.

And whereas by the Eleventh Section of the Public Health (Ireland) Act, 1878, it is enacted that every Medical Officer of a Dispensary District shall be a Sanitary Officer for such district, or for such part thereof as he shall personally be in charge of, under the title of Medical Officer of Health, and that every Sanitary Authority shall appoint in addition such other Sanitary Officers, including a Medical Superintendent Officer of Health when deemed necessary, as the Local Government Board shall in each case direct:

And whereas by the said Eleventh Section it is further provided that the Local Government Board shall assign to the Medical Officers of Health, and to the other Sanitary Officers, if any, and to the Medical Superintendent Officer of Health, if such an Officer be appointed for the Sanitary District, their respective duties and functions in the discovery or inspection or removal of nuisances, in the supply of pure water, in the making or repairing of sewers and drains, or in generally aiding the administration of the sanitary laws within the District:

And whereas by the said Eleventh Section it is further provided that the Local Government Board shall have the same powers with regard to the qualification, appointment, duties, regulation of salary and tenure of office of every Sanitary Officer as they have in the case of the Medical Officer of a Dispensary District:

And whereas by General Orders dated the 8th day of August, 1879, We, the Local Government Board for Ireland, acting under the authority conferred on Us by the said Eleventh Section, prescribed regulations with respect to the qualification, appointment, duties, salary, and tenure of office of Sanitary Officers appointed by Urban Sanitary Authorities:

And whereas, in view of the provisions of Sections 22 and 32 of the Local Government (Ireland) Act, 1898, We, the Local Government Board, deem it expedient to alter and amend the said Orders:

Now, therefore, in exercise of the powers vested in Us, We do hereby revoke and rescind the Orders above referred to, dated the 8th August, 1879, except so far as the same may have related to the appointment of any of the existing officers, and except as to any other proceeding already taken, or matter or thing already done, under such Orders:

And We do hereby order and direct, with respect to each of the Urban Districts in Ireland, as follows:—

SANITARY OFFICERS.

Appointment and Qualification.

1. The Sanitary Authority may, and when directed by Us shall, appoint one Medical Superintendent Officer of Health, and for this office every registered Medical Practitioner who possesses a Diploma in Sanitary Science, Public Health, or State Medicine which has been entered on the Medical Register in pursuance of Section 21 of the Act 49 & 50 Vic., Cap. 48, shall be eligible.

(a.) Provided that all existing Medical Superintendent Officers of Health, and Consulting Sanitary Officers, shall be deemed to be qualified to fill that position, and continue in office, and also

(b.) Provided that any Urban District Council may appoint as Medical Superintendent Officer of Health in their District a person appointed as Medical Superintendent Officer of Health in any neighbouring Urban or Rural District or Districts, or in any County Borough.

2. The Sanitary Authority shall appoint an Executive Sanitary Officer, for which office any person approved by Us shall be eligible.

3. The Sanitary Authority after consultation with Us shall appoint so many Sanitary Sub-Officers as We may determine, and no person shall be appointed to this office until We are satisfied that his qualifications are such as to ensure his being able to discharge efficiently the duties of Sanitary Sub-Officer.

4. No officer shall be appointed under this Order unless an advertisement, specifying the District or Districts for which such appointment is to be made, together with the amount of salary proposed to be assigned (subject to our approval) and the day fixed for such appointment, shall have been inserted by direction of the Sanitary Authority in some public newspaper or newspapers circulating in the District of the Sanitary Authority at least seven days before the day so fixed.

5. Every Officer shall be appointed by a majority of the members present, and voting on the question, at a meeting of the Sanitary Authority specially convened for the purpose, when the members present are sufficient to form a quorum.

6. Every appointment shall, within seven days after it is made, be reported to Us by the Executive Sanitary Officer, or if the appointment be that of Executive Sanitary Officer by the Acting Clerk of the Council, and shall be subject to Our approval.

7. Upon the occurrence of a vacancy the Sanitary Authority shall proceed to make a fresh appointment.

(a.) Provided that no further appointments shall be made to the office of Consulting Sanitary Officer, and

(b.) Provided that a woman possessing the requisite qualifications shall be eligible for appointment as Medical Officer of Health, or as Sanitary Sub-Officer.

TENURE OF OFFICE.

8. Every Officer shall continue to hold office for such period as the Sanitary Authority may, with Our approval, determine, or until he die or resign, or be removed by such Sanitary Authority with Our assent, or be removed by Us.

Provided that if from exceptional causes extra assistance is temporarily required, or if any Officer is temporarily prevented by sickness or accident, or other sufficient reason, from performing his duties, the Sanitary Authority, subject to Our approval, may appoint a properly qualified person to give such assistance or to act as temporary substitute, and may pay to such person a reasonable compensation for his services.

9. The Sanitary Authority may at their discretion suspend any Officer from the discharge of his duties, and shall in case of every such suspension forthwith report the same, together with the cause thereof, to Us, and if We remove the suspension of such Officer by the Sanitary Authority, he shall forthwith resume the performance of his duties, but if We decide not to remove such suspension the Sanitary Authority may, on being informed of Our decision, dismiss such Officer.

10. Where any change in the duties or salary of any Officer may be deemed necessary, and he shall decline to acquiesce therein, the Sanitary Authority may, with Our consent, but not otherwise, and after six months' notice in writing given to such Officer, determine his tenure of the office.

11. All Our consents, approvals, disapprovals, assents, directions, and requisitions touching the appointment and tenure of office of Sanitary Officers shall be signified by Us to the Sanitary Authority by letter.

SALARY.

12. The Sanitary Authority shall pay to all Officers appointed under this Order or under Section 11 of the Public Health (Ireland) Act, 1878, such salaries as We may from time to time approve or direct.

Provided always that the Sanitary Authority may, with Our approval, pay to any Officer a reasonable compensation on account of exceptional services connected with his duties or the necessities of his District.

13. The salary of every Officer shall be payable up to the day on which he ceases to hold office and no longer, and in case he shall die whilst holding such office, the proportion of salary (if any) remaining unpaid at his death shall be paid to his personal representatives.

Provided that an Officer who may be suspended, and who may, without the previous removal of such suspension, resign or be removed under Article 8 of this Order, shall not be entitled to any salary from the date of such suspension.

RELATING TO THE COUNTY BOROUGHS OF CORK, LIMERICK, LONDONDERRY, AND WATERFORD.

To the Mayor, Aldermen, and Burgesses of each of the Boroughs of Cork, Limerick, Londonderry, and Waterford, and to all whom it may concern.

WHEREAS it is enacted by Section 21 (1) of the Local Government (Ireland) Act, 1898, that each of the Boroughs mentioned in the Second Schedule to the said Act shall be an administrative county of itself and be called a County Borough :

And whereas the Boroughs to which this Order relates are mentioned in the said Schedule and are County Boroughs :

And whereas by the Eleventh Section of the Public Health (Ireland) Act, 1878, it is enacted that every Medical Officer of a Dispensary District shall be a Sanitary Officer for such District or for such part thereof as he shall personally be in charge of, under the title of Medical Officer of Health, and that every Sanitary Authority shall appoint in addition such other Sanitary Officers, including a Medical Superintendent Officer of Health when deemed necessary, as the Local Government Board shall in each case direct :

And whereas by the said Eleventh Section it is further provided that the Local Government Board shall assign to the Medical Officers of Health, and to the other Sanitary Officers, if any, and to the Medical Superintendent Officer of Health, if such an Officer be appointed for the Sanitary District, their respective duties and functions in the discovery or inspection or removal of nuisances, in the supply of pure water, in the making or repairing of sewers and drains, or in generally aiding the administration of the sanitary laws within the District :

And whereas by the said Eleventh Section it is further provided that the Local Government Board shall have the same powers with regard to the qualification, appointment, duties, regulation of salary and tenure of office of every Sanitary Officer as they have in the case of the Medical Officer of a Dispensary District :

And whereas by General Orders dated the 8th day of August, 1879, We, the Local Government Board, acting under the authority conferred on Us by the said Eleventh Section, prescribed regulations with respect to the qualification, appointment, duties, salary and tenure of office of Sanitary Officers appointed by Urban Sanitary Authorities :

And whereas, in view of the provisions of Sections 22 and 32 of the Local Government (Ireland) Act, 1898, We, the Local Government Board for Ireland, deem it expedient to alter and amend the said Orders :

Now, therefore, in exercise of the powers vested in Us, We do hereby revoke and rescind the Orders above referred to, dated the 8th August, 1879, except so far as the same may have related to the appointment of any of the existing Officers, and except as to any other proceeding already taken, or matter or thing already done, under such Orders:

And We do hereby order and direct with respect to the County Boroughs of Cork, Limerick, Londonderry, and Waterford, as follows:—

SANITARY OFFICERS.

Appointment and Qualification.

1. In each of the said County Boroughs (except Londonderry, where no Medical Superintendent Officer of Health has yet been appointed), the existing Medical Superintendent Officers of Health shall continue to hold such office and shall be the Chief Sanitary Officers, and the Sanitary Authority of the said County Borough of Londonderry shall appoint one Medical Superintendent Officer of Health. Every Medical Superintendent Officer of Health to be appointed after the making of this Order shall be a registered Medical Practitioner and shall possess a Diploma in Sanitary Science, Public Health, or State Medicine, which has been entered on the Medical Register in pursuance of Section 21 of the Act 49 and 50 Vic., Cap. 48.

Provided that the Council of any of the County Boroughs to which this Order applies may appoint as Medical Superintendent Officer of Health in the County Borough the person appointed as Medical Superintendent Officer of Health in any neighbouring Urban or Rural District.

2. The Sanitary Authority shall appoint an Executive Sanitary Officer, for which office any person approved by Us shall be eligible.

3. The Sanitary Authority, after consultation with Us, shall appoint so many Sanitary Sub-Officers as We may determine, and no person shall be appointed to this office until We are satisfied that his qualifications are such as to ensure his being able to discharge efficiently the duties of Sanitary Sub-Officer.

4. No Officer shall be appointed under this Order unless an advertisement, specifying the District or Districts for which such appointment is to be made, together with the amount of salary proposed to be assigned (subject to Our approval), and the day fixed for such appointment shall have been inserted by direction of the Sanitary Authority in some public newspaper or newspapers circulating in the District of the Sanitary Authority at least seven days before the day so fixed.

5. Every Officer shall be appointed by a majority of the members present, and voting on the question, at a meeting of the Sanitary

Authority specially convened for the purpose, when the members present are sufficient to form a quorum.

6. Every appointment shall, within seven days after it is made, be reported to Us, by the Executive Sanitary Officer, or if the appointment be that of Executive Sanitary Officer by the Town Clerk, and shall be subject to Our approval.

7. Upon the occurrence of a vacancy the Sanitary Authority shall proceed to make a fresh appointment:

Provided that if from exceptional causes extra assistance is temporarily required, or if any Officer is temporarily prevented by sickness or accident or other sufficient reason from performing his duties, the Sanitary Authority, subject to Our approval, may appoint a properly qualified person to give such assistance or to act as temporary substitute, and may pay to such person a reasonable compensation for his services.

9. The Sanitary Authority may, at their discretion, suspend any Officer from the discharge of his duties, and shall in case of every such suspension forthwith report the same, together with the cause thereof, to Us, and if We remove the suspension of such Officer by the Sanitary Authority he shall forthwith resume the performance of his duties, but if We decide not to remove such suspension, the Sanitary Authority may, on being informed of Our decision, dismiss such Officer.

10. Where any change in the duties or salary of any Officer may be deemed necessary, and he shall decline to acquiesce therein, the Sanitary Authority may, with Our consent, but not otherwise, and after six months' notice, in writing, given to such Officer, determine his tenure of the office.

11. All Our consents, approvals, disapprovals, assents, directions and requisitions touching the appointment and tenure of office of Sanitary Officers shall be signified by Us to the Sanitary Authority by letter.

SALARY

12. The Sanitary Authority shall pay to all Officers appointed under this Order or under Section 11 of the Public Health (Ireland) Act, 1878, such salaries as We may from time to time approve or direct.

Provided always that the Sanitary Authority may, with Our approval, pay to any Officer a reasonable compensation on account of exceptional services connected with his duties or the necessities of his District.

13. The salary of every Officer shall be payable up to the day on which he ceases to hold office and no longer, and in case he shall die whilst holding such office the proportion of salary (if any) remaining unpaid at his death shall be paid to his personal representatives.

Provided that an Officer who may be suspended, and who may, without the previous removal of such suspension, resign, or be removed under Article 8 of this Order, shall not be entitled to any salary from the date of such suspension.

No. 34,947.—1899.

Local Government Board,
Dublin, 17th July, 1899.

SIR,—I am directed by the Local Government Board for Ireland to state, for the information of the Rural District Council, that the Board have had under consideration the question of the procedure to be observed with respect to the execution of repairs to Labourers' Cottages. There appears to be a rapid growth of expenditure under this head, and it has been represented to the Board that this may, in a large measure, be attributed to the fact that no settled practice exists having in view the preservation of the buildings and the carrying out of such repairs with a due regard to economy.

In some districts the work required in each case as it arises is made the subject of a separate contract, thereby entailing much expenditure in advertising, and necessarily limiting competition except from workmen or other persons in the immediate vicinity of the cottage concerned. In other cases the local authority delegate the duty of making arrangements for the execution of the repairs to the Rent Collectors, or leave the matter wholly in the hands of the local District Councillors. The former course is not calculated to reduce the expense; and, as regards the latter, it is manifestly undesirable that individual Councillors should be in any way concerned in transactions of this nature. The practice which prevails in some districts of employing and paying tenants for executing repairs themselves is, for obvious reasons, objectionable, as is also the system of making an annual allowance to the tenants in consideration of their keeping the premises in repair. In the latter case the allowance is claimed, as a matter of course, while necessary repairs may remain unexecuted and the houses be permitted by the tenants to fall into a state of dilapidation.

On a full review of the several points bearing upon the question, the Local Government Board are of opinion that the most satisfactory and economical course for Rural District Councils to adopt is to enter into a contract for the keeping of the cottages throughout the District in tenantable condition and repair, in accordance with a

specification to be prepared by their Architect or Clerk of Works, at a fixed sum per cottage, for a year or for a term of years. Where there is a large number of cottages in a Rural District it will be advisable to divide the District into convenient sections for the purposes of separate contracts. The Contractor whose tender is accepted should be required to enter into a bond for the due and proper performance of the works prescribed by the specification, and the contract should provide for payment in respect thereof being made only on the certificate of the Architect or Clerk of Works employed by the Council.

The tenants should, of course, be required to keep the windows of the cottage and the fences of the plot of land in proper repair in accordance with the provisions of Section 5 of the Labourers Act of 1896.

SIR,—I am directed by the Local Government Board for Ireland to forward herewith, to be laid before the District Council, a copy of an Order which they have made, in pursuance of the provisions of Section 34 of the Contagious Diseases (Animals) Act, 1878, as amended by Section 9 of the Contagious Diseases (Animals) Act, 1886, respecting the appointment of Inspectors and other officers for the execution and enforcement of Regulations made in pursuance of the Board's General Order of the 7th July, 1886, for the inspection of Dairies, Cowsheds, and Milkshops, and I am to request that in all cases where such officers have not been appointed, the District Council will be good enough to make the necessary arrangements for carrying into effect the Regulations contained in the General Order above referred to, by appointing such Inspectors or other officers as they may consider necessary in the interests of the public health of their district.

I am, Sir,

Your obedient Servant,

No. 46 : M/1900.—Miscellaneous.

Local Government Board,
Dublin, 14th May, 1900.

SIR,—I am directed by the Local Government Board for Ireland to forward, for the information of the Urban District Council, the accompanying copies of a General Order which the Board have made respecting the qualification, appointment, duties, salary, and tenure of office of Sanitary Officers in Urban Districts in Ireland.

The Order revokes and rescinds the Orders which were issued by the Board in respect of Urban Sanitary Districts on the 8th August, 1879—consequent on the passing of the Public Health (Ireland) Act, 1878—except in so far as such Orders may have related to the appointment of any of the existing Sanitary Officers, and to any proceeding taken or matter or thing already done in pursuance of such Orders.

The Board desire to point out that the principal point of difference between this and the former Orders is that the present Order contemplates that no further appointments shall be made to the office of Consulting Sanitary Officer, but that there shall instead be a Medical Superintendent Officer of Health appointed in each Urban District. For the latter office, only registered Medical Practitioners who possess a Diploma in Sanitary Science, Public Health, or State Medicine shall, in future, be eligible; but it will be seen that the rights of all existing Medical Superintendent Officers of Health and of Consulting Sanitary Officers in this respect are fully preserved.

As regards the Order generally, the District Council will observe that although its provisions are of a more extended character than those contained in the former Orders, the changes made are not occasioned by the imposition of new duties on the various Sanitary Officers, but are the result of an endeavour on the part of the Board to classify and set forth in detail, so far as the same could be definitely laid down, the duties ordinarily attaching to the respective offices of Medical Superintendent Officer of Health, Medical Officer of Health, Executive Sanitary Officer, and Sanitary Sub-Officer.

The Local Government Board trust that the adoption of this course will, by giving the Officers concerned a clearer conception of their duties, tend to a more efficient administration of the sanitary laws; and the Board rely on the District Council, as the guardians of the public health in their District, to do all in their power to secure that the provisions of the Order shall in the future be strictly complied with.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,
Secretary.

of each Urban District Council.

THE LOCAL GOVERNMENT BOARD FOR IRELAND.

To the several Local Authorities in Ireland for the time being required by law to appoint a Public Analyst: and to all others whom it may concern.

WHEREAS, by the Sale of Food and Drugs Acts, provision is made for the appointment by certain Local Authorities in Ireland of persons to act as Analysts of all articles of Food and Drugs, and every such appointment is made subject to the approval of the Local Government Board for Ireland:

And whereas by sub-sections (1) and (5) of section 3 as applied to Ireland by section 24 of the Sale of Food and Drugs Act, 1899 (hereinafter referred to as "the Act"), it is enacted as follows:—

"(1.) It shall be the duty of every Local Authority entrusted with the execution of the laws relating to the sale of food and drugs to appoint a public analyst. . . ."

"(5.) Any public analyst appointed under the Sale of Food and Drugs Acts shall furnish such proof of competency as may from time to time be required by regulation framed by the Local Government Board for Ireland."

And whereas by Section 25 of the Act it is enacted as follows:—

"In this Act, unless the context otherwise requires—

"The expression 'local authority' means any local authority authorized to appoint an analyst for the purposes of the Sale of Food and Drugs Acts, and the expression 'public analyst' means an analyst so appointed."

Now, therefore, We, the Local Government Board for Ireland, in pursuance of the powers given to Us by sub-section (5) of Section 3 as applied to Ireland by section 24 of the Act, do hereby Order that the following regulation shall have effect; that is to say:—

Every person appointed to the office of Public Analyst shall furnish such proof as We may deem sufficient of his competent skill in and knowledge of (a) analytical chemistry, (b) therapeutics, and (c) microscopy.

Such proof shall in every case comprise documentary evidence that such person holds the requisite certificate, diploma, licence, or document conferring the qualification or attesting his possession of the skill or knowledge to which the same applies, and granted or issued by any person or body of persons for the time being recognised by Us as competent to confer such qualification or to test such skill or knowledge. Such proof shall also comprise such further evidence as We may in any particular case require.

All such documentary evidence as is hereinbefore mentioned shall be furnished by such person to the Local Authority by whom he is appointed and shall be transmitted to Us by the Local Authority when applying for Our approval of the appointment.

Provided that nothing in this Regulation contained shall, in the case of any person who was appointed to the office of Public Analyst with Our approval before the date hereof, or of any person who is so appointed for the first time after such date, apply upon any subsequent appointment of such person to the said office.

[L.S.] Sealed with our Seal, this Fourth day of May, in the
Year of our Lord One Thousand Nine Hundred.

SUPERANNUATION OF UNION OFFICERS.

No. 10.—TAMOR OFFICERS' SUPERANNUATION.—Statement of allowances under the Superannuation Act in force during any portion of the period ended the 31st of March, 1900, showing also the cases in which the allowances terminated during the period. (In continuation of statement in LIVES IN SERVICE annual report, Appendix D, No. 3.)

Notes.—The amount of superannuation given in the following table is in some cases calculated on the salary alone, and in others on the salary and emoluments. In many cases and amongst all classes of Indian establishments the superannuation is calculated on the salary and emoluments. In such cases in which the particular calculation is given as "age and length of service," the superannuation was awarded under section 105 of the Local Government (Central) Act, 1894.

No. 18 M.—1900 —Miscellaneous.

MEDICINES—ANALYSIS.

LOCAL GOVERNMENT BOARD,

DUBLIN, 20th February, 1900.

SIR,

Adverting to their Circular Letter of the 8th March last, the Local Government Board for Ireland desire to draw the attention of the Board of Guardians to the duties of Dispensary Medical Officers, as set forth in Article 15, paragraphs vi. and viii., of the Dispensary Rules. The paragraphs in question provide that the Medical Officer of each Dispensary District shall, from time to time, as may be necessary—but not less frequently than once in three months—deliver or forward to the Clerk of the Union an estimate of any medicines and medical appliances required; and further, that he shall send periodically to the Clerk samples of drugs for transmission to the Analyst.

The Local Government Board have observed that, owing to various causes, the above regulations were not complied with in numerous instances during the past year; and the Board have, therefore, to point out:—

I. That medicine supplies should be ordered not less frequently than once in three months by each Medical Officer.

II.—That, *immediately* on receipt of each quarterly consignment of drugs, the Medical Officer should weigh each article, and should personally select a few samples (from three to six) and forward them to the Clerk of the Union for transmission to the Analyst.

III.—That the Medical Officer should take care that the samples are properly made up, that each sample bears a label showing the name of the article, the date of receipt at the dispensary, and the name of the Dispensary District, and that the bottles used for the transmission of liquid drugs are scrupulously clean and dry; sealing wax should not be put on the corks of the bottles.

IV.—That stoppered bottles should be used in the case of liquid acids and volatile drugs; and the bottles should be entirely filled, so as to prevent deterioration.

The Medical Officers should exercise their own discretion in selecting the samples, and shall be fully responsible for the judiciousness of the selections made on each occasion. The following are, however, in the experience of the Local Government Board, the drugs most likely to be adulterated or deficient in strength:—Glycerinum pepsini, Hydrargyrum cum creta, Lini-mentum camphoræ, Liquor hydrargyri perchloridi, Liquor morphinæ hydrochloridi, Liquor pancreatis, Liquor strychninæ

hydrochloridi, Oxymel scillæ, Pepsinum, Pulvis glycyrrhizæ compositus, Spiritus Ætheris Nitrosi, Spiritus Ammonizæ Aromaticus, Syrupus ferri iodidi, Syrupus ferri phosphatis cum quinina et strychnina, Unguentum chrysarobini, Unguentum hydrargyri, Unguentum paraffini, Vinum ferri. Tinctures also are frequently deficient in alcohol.

The Local Government Board have ascertained that the quantities requisite for analytical purposes of the undermentioned drugs are:—

Tinctures, Spirits, Liquors, Wines, Liniments, Syrups, Fixed Oils, Turpentine, Chloroform, and Æther,	4	ounces.
Liquid mineral acids,	2	"
Liquid extracts,	1½	"
Inorganic salts, Potassii tartaras acidus, Linum contusum,	1	ounce.
Iodides, Bromides, Hard extracts, Glycerinum Pepsini, Organic Acids, and Powders,	¼	"
Pepsinum,	¼	"
Essential oils, for qualitative examination,	2	drachms.
" " quantitative "	1	ounce.
Alkaloids, " qualitative "	1	drachm.
" " quantitative "	3	drachms.

The Analyst's Reports, when received, should be recorded fully on the Guardians' Minutes of Proceedings for the information of the Local Government Board, and copies of the Reports should be furnished by the Clerk, without delay, to the Medical Officers concerned.

The Guardians, when entering into new contracts for medicines, would do well to stipulate that all volatile drugs should be supplied in stoppered bottles. The Local Government Board presume that, as suggested in their Circular Letter of the 12th April last (copy herewith), satisfactory arrangements are made at the Workhouse Hospital and the several Dispensaries in the Union for the safety of the bottles, jars, pots, hampers, and packages in which medicines are supplied, and that reasonable facilities are afforded to the Contractor for obtaining the return of such articles.

I am, Sir,

Your obedient Servant,

H. M. SWAINE,
Secretary.

The Clerk of each Union.

DUBLIN CASTLE,

24th April, 1901.

I am,

Sir,

Your obedient servant,

D. HARREL.

The Secretary,
Local Government Board,
